[A Sand County Almanac](#) Jan 02 2020 'One of the most influential books about the natural world ever published' Paul Kingsnorth, Guardian 'There are some who can live without wild things, and some who cannot,' begins Aldo Leopold's totemic work of ecological thought. Ranging from lyrical observations of the changing seasons over a year on his Wisconsin farm to his hugely influential idea of a 'land ethic' signifying moral equilibrium between humans and all other life on earth, A Sand County Almanac changed perceptions of the natural world and helped give birth to the modern conservation movement. 'An unequivocal statement of conscience that will carry down the generations ... his argument seems more urgently true now than ever' The New York Times

Aldo Leopold: A Sand County Almanac & Other Writings on Conservation and Ecology Oct 30 2019 Since his death in 1948, Aldo Leopold has been increasingly recognized as one of the indispensable figures of American environmentalism. A pioneering forester, sportsman, wildlife manager, and ecologist, he was also a gifted writer whose farsighted land ethic is proving increasingly relevant in our own time. Now, Leopold's essential contributions to our literature--some hard-to-find or previously unpublished--are gathered in a single volume for the first time. Here is his classic *A Sand County Almanac*, hailed--with Thoreau's *Walden* and Carson's *Silent Spring*--as one of the main literary influences on the modern environmental movement. Published in 1949, it is still astonishing today: a vivid, firsthand, philosophical tour de force. Along with *Sand County* are more than fifty articles, essays, and lectures exploring the new complexities of ecological science and what we would now call environmental ethics. Leopold's sharp-eyed, often humorous journals are illustrated here for the first time with his original photographs, drawings, and maps. Also unique to this collection is a selection of over 100 letters, most of them never before published, tracing his personal and professional evolution and his efforts to foster in others the love and sense of responsibility he felt for the land.

A Sand County Almanac, and Sketches Here and There Oct 23 2021 Approaches the prevalent issues in ecology from an aesthetic viewpoint, stressing the beauty and balance of nature
