**Restaging the Past** Aug 10 2020 Restaging the Past is the first edited collection devoted to the study of historical pageants in Britain, ranging from their Edwardian origins to the present day. Across Britain in the twentieth century, people succumbed to 'pageant fever'. Thousands dressed up in historical costumes and performed scenes from the history of the places where they lived, and hundreds of thousands more watched them. These pageants were one of the most significant aspects of popular engagement with the past between the 1900s and the 1970s: they took place in large cities, small towns and tiny villages, and engaged a whole range of different organised groups, including Women's Institutes, political parties, schools, churches and youth organisations. Pageants were community events, bringing large numbers of people together in a shared celebration and performance of the past; they also involved many prominent novelists, professional historians and other writers, as well as featuring repeatedly in popular and highbrow literature. Although the pageant tradition has largely died out, it deserves to be acknowledged as a key aspect of community history during a period of great social and political change. Indeed, as this book shows, some traces of 'pageant fever' remain in evidence today.

*Keeping the Republic* Jul 01 2022 This refreshed and

dynamic Eighth Edition of *Keeping the Republic* revitalizes the twin themes of power and citizenship by adding to the imperative for students to navigate competing political narratives about who should get what, and how they should get it. The exploding possibilities of the digital age make this task all the more urgent and complex. Christine Barbour and Gerald Wright, the authors of this bestseller, continue to meet students where they are in order to give them a sophisticated understanding of American politics and teach them the skills to think critically about it. The entire book has been refocused to look not just at power and citizenship but at the role that control of information and its savvy consumption play in keeping the republic.

*American Migration and Settlement* Jul 21 2021 Though the United States is often referred to as "a nation of immigrants," the history of migration to, and settlement in, America is much more tumultuous than such a simple descriptor implies. This history encompasses not just the hopeful Europeans that famously passed through Ellis Island in the late nineteenth

century, but Central and South Americans fleeing poverty and violence in the twentieth century, as well as refugees from war-torn regions in Asia and the Middle East. It also includes the hundreds of thousands of African slaves imported to the New World during the colonial era and the Native American peoples who were displaced by settlers. Through pictures and primary sources, this book explores different aspects of migration and settlement in American history and demonstrates how the legacies of immigration restriction, chattel slavery, western conquest, and manifest destiny continue to define the country today.

The Revenger Apr 29 2022 The Revenger: The Life and

Times of Wild Bill Hickok examines Wild Bill's life in the context of 19th Century American history, from his birth, through his early manhood, and to his eventual demise. Woven into his life story are the significant role played by the Civil War in the development of his character and philosophy, the role played by popular media in the creation of his legendary status, and the changing of the western landscape and lifestyle that began to eliminate the need for gunmen such as Wild Bill. The book discusses Hickok's early jobs in law enforcement and his associations with other significant westerners and recounts the events that transformed Hickok from a formidable lawman into a national celebrity and popular hero. Details of Hickok's most famous gunfights, including weapons used and participants and outcomes and, of course, the end of his career including his famous death at the hands of an assassin in a saloon in Deadwood South Dakota are all explored. The book also incorporates changing views of historiographical interpretation of lawmen/gunmen in general and Wild Bill in particular. The book will have extensive illustrations—archival photos of Wild Bill, his contemporaries, his guns, etc.

**Yellow Journalism, Sensationalism, and Circulation Wars**  
Sep 22 2021 The waning years of the nineteenth century saw the emergence of a new kind of journalism in the United States, one that not only challenged government and corporate power, but also turned to sordid crimes and scandals for much of its material. Sensational, shocking, and lurid, this new style of reporting came to be known as "yellow journalism." The trend influenced newspapers across the country, and its role in building public support for the Spanish-

American War has become the stuff of legend. The supplemental features of this book, including striking photographs, primary sources, and informative sidebars, trace the development of yellow journalism and demonstrate its impact today.

A New Variorum Edition of Shakespeare: Othello. [c1886 Nov 24 2021

African Americans and the Classics Jan 15 2021 A new wave of research in black classicism has emerged in the 21st century that explores the role played by the classics in the larger cultural traditions of black America, Africa and the Caribbean. Addressing a gap in this scholarship, Margaret Malamud investigates why and how advocates for abolition and black civil rights (both black and white) deployed their knowledge of classical literature and history in their struggle for black liberty and equality in the United States. African Americans boldly staked their own claims to the classical world: they deployed texts, ideas and images of ancient Greece, Rome and Egypt in order to establish their authority in debates about slavery, race, politics and education. A central argument of this book is that knowledge and deployment of Classics was a powerful weapon and tool for resistance-as improbable as that might seem now-when wielded by black and white activists committed to the abolition of slavery and the end of the social and economic oppression of free blacks. The book significantly expands our understanding of both black history and classical reception in the United States.

**Comparative Perspectives on School Textbooks** Nov 05 2022 This book examines the discourses on nation-building, civic identity, minorities, and the formation of religious identities in school textbooks worldwide. It offers up-to-date,

practical, and scholarly information on qualitative and mixed-method textbook analysis, as well as the broader context of critical comparative textbook and curriculum analyses in and across selected countries. The volume offers unique and empirical research on how internal educational policies and ideological goals of dominant social, political, and economic groups affect textbook production and the curricular aims in different educational systems worldwide. Chapters address the role of school textbooks in developing nationhood, the creation of citizenship through school textbooks, the complexity of gender in normative discourses, and the intersection of religion and culture in school textbooks.

*Othello*, ed. by H.H. Furness Jun 19 2021

**Pageant** Feb 25 2022 Focusing on examples from medieval theatre, women's suffrage campaigns, and the 2012 Olympics Opening Ceremony, this is the first book to offer a critical overview of pageant as a dramatic form. By enacting highly selective historical episodes, pageants manipulate audiences' sense of the past. Through iconic music, affecting images, and vernacular forms, pageants express and, in turn, shape religious, civic, or political allegiances. Freely appropriating elements of history plays, patriotic celebrations, opera, and film, pageants create spectacles of sensory overload.

Impressive recent scholarship recognizes pageants as public history, but this is the first authoritative account of the origins, characteristics, and techniques of pageants as a theatrical idiom. Performed in sporting arenas, the open air, or purpose-built theatres, these paratheatrical events express identity through what Erika Fischer-Lichte calls “the re-

theatricalization of theatre.” Pageants are intimately connected with power—they either assert and celebrate it or seek and demand it. Medieval religious pageants were so popular and powerful that they were suppressed and extinguished. The vogue for pageantry that swept through the English-speaking world in the decade before WWI was closely tied to the expansion of the franchise. Many early twentieth century pageants celebrated localities; others subversively advocated for women's suffrage. First performed in 1909, Cicely Hamilton's *A Pageant of Great Women* depicted historical personages from the near and distant past as well as allegorical figures such as Justice and Prejudice. Today, the Olympic Games mandate an opening ceremony that “details the country's history, culture, and overall importance for the global community.” London delivered just such a pageant in 2012. This book features a wide-ranging introduction that maps the cultural evolution of this enduring theatrical form and covers popular and readily accessible pageants from medieval England, the early twentieth century, and our own day.
