*Religion and State-Formation in Transitional Societies* Jul 29 2019 Bedenkt man die Bedeutung, die Religion weltweit in der Politik wiedergewonnen hat, behandelt dieses Buch eine der drängendsten Fragen unserer Zeit: Wie hängen Religion, Gewalt und der moderne Staat zusammen? Das Rätsel, das dieses Buch zu lösen sucht, zeigt sich in einer Selbstverbrennung für politischen Wandel im Staat. Damit verbunden ist die Frage nach der Rationalität religiöser Akteure. Wie kann der eigene Tod ein politisches Mittel

sein, wenn doch für Hobbes die Sicherung des eigenen Lebens der zentrale Grund für die Bildung eines Staates ist? Wie kann ein religiöser politischer Akteur rational sein, wenn doch für Weber die Orientierung des Verhaltens an Werten immer – in unterschiedlichem Grade – irrational ist? Wie beeinflusst Religion Entscheidungen? Was erklärt Unterschiede im Verhalten? Das Buch behandelt die Verbindung zwischen Religion, Staatenbildung und Rationalität theoretisch und gibt tiefe Einsichten in die Politik des Buddhismus in Sri Lanka von der Unabhängigkeit bis heute.

**Embattled Media** Jan 03 2020 Embattled Media is the first book to look comprehensively at the evolution of news media in post-colonial Sri Lanka, with a focus on media policy, law and education. Further, it provides a detailed analysis of the existing media laws and policies and of campaigns to reform them. It also focuses on the role of institutions in media education by providing a comprehensive analysis of existing media curricula and underlining the importance of improved media literacy and introduction of Right to Information

Act for a healthy democracy. The contributors to this volume, including leading journalists, broadcasters, practitioners in public law, media academics and analysts, write from extensive experience.

**The Political Economy of Ethnic Conflict in Sri Lanka** Feb 02 2020 At the point of independence in 1948, Sri Lanka was projected to be a success story in the developing world. However, in July 1983 a violent ethnic conflict which pitted the Sinhalese against the Tamils began, and did not come to an end until 2009. This conflict led to nearly 50,000 combatant deaths and approximately 40,000 civilian deaths, as well as almost 1 million internally-displaced refugees and to the permanent migration abroad of nearly 130,000 civilians. With a focus on Sri Lanka, this book explores the political economy of ethnic conflict, and examines how rival political leaders are able to convince their ethnic group members to follow them into violent conflict. Specifically, it looks at how political leaders can influence and utilize changes in the level of economic liberalization in order to mobilize members of a certain ethnic group, and in the case of Sri Lanka, shows how ethnic mobilization drives can turn violent when minority ethnic groups are economically marginalized by the decisions that the majority ethnic group leaders make in order to stay in power. Taking a political economy

approach to the conflict in Sri Lanka, this book is unique in its historical analysis and provides a longitudinal view of the evolution of both Tamil and Sinhalese ethnic drives. As such, this interdisciplinary study will be of interest to policy makers as well as academics in the field of South Asian studies, political science, sociology, development studies, political economy and security studies.

**Language, Education, and Identity** Jun 19 2021 This book examines medium of instruction in education and studies its social, economic, and political significance in the lives of people living in South Asia. It provides insight into the meaning of medium and what makes it so important to identity, aspiration, and inequality. It questions the ideologized associations between education and social and spatial mobility and discusses the gender- and class-based marginalization that comes with vernacular-medium education. The volume also considers how policy measures, such as the Right to Education (RTE) Act in India, have failed to address the inequalities brought by medium in schools, and investigates questions on language access, inclusion, and rights. Drawing on extensive fieldwork and in-depth interviews, the book will be indispensable for students and scholars of anthropology, education studies, sociolinguistics,

sociology, and South Asian studies. It will also appeal to those interested in language and education in South Asia, especially the role of language in the reproduction of inequality.

Contributing scholars investigate this feature in such languages as Marathi, Bhojpuri, Sinhalese, Marwari, Oriya, Punjabi, Bengali, Kalasha, Gujarati, Bepali, Maithili, and Malayalam. The experiencer subject not only defines South Asian languages as a linguistic unit, but also has implications for theoretical linguistics. Mahendra Verma is a professor of linguistics at the University of Wisconsin, Madison. Tara Mohanan is a linguistics professor in the English department of the National University of Singapore.

*Sri Lanka in the Modern Age* Sep 22 2021 On the ethnic relations and politics in post 1978 Sri Lanka.

The Indo-Aryan Languages Aug 02 2022 The Indo-Aryan languages are spoken by at least 700 million people throughout India, Pakistan, Bangladesh, Nepal, Sri Lanka and the Maldives. They have a claim to great antiquity, with the earliest Vedic Sanskrit texts dating to the end of the second millennium B.C. With texts in Old Indo-Aryan, Middle Indo-Aryan and Modern Indo-Aryan, this language family supplies a historical documentation of language change over a longer period than any other subgroup of Indo-European. This volume is divided into two main sections dealing with general matters and individual languages. Each chapter on the individual language covers the phonology and grammar (morphology and syntax) of the language and its writing system, and gives the historical background and information concerning the geography of the language and the number of its speakers.

**Sri Lanka May 19 2021** In the past decade, Sri Lanka has been engulfed by political tragedy as successive governments have failed to settle the grievances of the Tamil minority in a way acceptable to the majority Sinhala population. The new Premadasa presidency faces huge economic and political problems with large sections of the island under the control of the Indian

Peace-Keeping Force (IPKF) and militant separatist Tamil groups operating in the north and south. This book is not a conventional political history of Sri Lanka. Instead, it attempts to shed fresh light on the historical roots of the ethnic crisis and uses a combination of historical and anthropological evidence to challenge the widely-held belief that the conflict in Sri Lanka is simply the continuation of centuries of animosity between the Sinhalese and the Tamils. The authors show how modern ethnic identities have been made and re-made since the colonial period with the war between Tamils and the Sinhala-dominant government accompanied by rhetorical wars over archeological sites and place-name etymologies, and the political use of the national past. The book is also one of the first attempts to focus on local perceptions of the crisis and draws on a broad range of sources, from village fieldwork to newspaper controversies. Its interest extends beyond contemporary politics to history, anthropology and development studies.

Perspectives on Grammaticalization Mar 05 2020 This is the second of two volumes deriving from papers presented at the Nineteenth Annual UWM

linguistics Symposium held in Milwaukee in 1990. It focuses on the evolution of grammatical form and meaning from lexical material, which has reinvigorated historical analysis and theory and led to advances in the understanding of the relation between diachrony and universals. The richness and potential of some of the leading approaches to grammaticalization are here illustrated in thirteen selected papers.

**The Struggle for a Multilingual Future** Mar 17 2021 In *The Struggle for a Multilingual Future*, Christina Davis examines the tension between ethnic conflict and multilingual education policy in the linguistic and social practices of Sri Lankan minority youth. Facing a legacy of post-independence language and education policies that were among the complex causes of the Sri Lankan civil war (1983 - 2009), the government has recently sought to promote interethnic integration through trilingual language policies in Sinhala, Tamil, and English in state schools. Integrating ethnographic and linguistic research in and around two schools during the last phase of the war, Davis's research shows how, despite the intention of the reforms, practices on the ground reinforce language-based models of ethnicity and sustain ethnic divisions and power inequalities. By engaging with the actual experiences of Tamil and Muslim

youth, Davis demonstrates the difficulties of using language policy to ameliorate ethnic conflict if it does not also address how that conflict is produced and reproduced in everyday talk.

**Metallic Modern** Jun 27 2019 Everyday life in the Crown colony of Ceylon (Sri Lanka) was characterized by a direct encounter of people with modernity through the consumption and use of foreign machines – in particular, the Singer sewing machine, but also the gramophone, tramway, bicycle and varieties of industrial equipment. The 'metallic modern' of the 19th and early 20th century Ceylon encompassed multiple worlds of belonging and imagination; and enabled diverse conceptions of time to coexist through

encounters with Siam, the United States and Japan as well as a new conception of urban space in Colombo. *Metallic Modern* describes the modern as it was lived and experienced by non-elite groups – tailors, seamstresses, shopkeepers, workers – and suggests that their idea of the modern was nurtured by a changing material world.
