Reforming the UK's Citizenship Test Jun 03 2020 How many questions could you answer in a pub quiz about British values? Designed to ensure new migrants have accepted British values and integrated, the UK's citizenship test is often portrayed as a bad pub quiz with answers few citizens know. With the launch of a new post-Brexit immigration system, this is a critical time to change the test. Thom Brooks draws on first-hand experience of taking the test, and interviews with key figures including past Home Secretaries, to expose the test as ineffective and a barrier to citizenship. This accessible guide offers recommendations for transforming the citizenship test into a 'bridge to citizenship' which fosters greater inclusion and integration.

Redefining Multicultural Education, 3rd Edition Jun 29 2022 As the first country in the world to enact a formal policy of multiculturalism, Canada has made impressive strides toward promoting civic inclusion for all; however, the education system remains less than forthcoming about the injustices that shape our democracy and create conditions that teach young people to see difference as deficiency. Ratna Ghosh and Mariusz Galczynski seek to persuade educators to incorporate the ideology of multiculturalism into their classroom pedagogy and professional practice. In this third edition, Redefining Multicultural Education mobilizes an expanded definition of multiculturalism that encompasses gender identity, sexual orientation, religious expression, and (dis)ability. New features include material on environmental awareness, cyberbullying, multilingual learners, digital technologies,

youth radicalization, and recent events in Quebec and First Nations communities. Integrating vignettes, discussion questions, and sample activities with techniques for applying a multicultural lens to any subject area or level of study, this lively and accessible guide is essential for those interested in preparing students for a global economy in which innovation relies, before all else, on diversity.
