**Yes, You Can Do This! How Women Start Up, Scale Up, and Build The Life They Want** Jun 29 2022 How women can "lean in" to entrepreneurship to create the life they want! Claudia Reuter left a promising corporate career to raise her two young children but realized, when re-entering the workforce, that the gap in her resume looked like a gap in ambition—not a purposeful plan. Instead of leaning into a corporate career and fighting the structures and systems designed by and for men decades ago, or leaning out and giving up income, Claudia took a different path. That decision ultimately led to success in the corporate world and at home. In *Yes, You Can Do This!* Claudia shares her own reasons for starting a business, and makes a call to action for women to consider entrepreneurship so that they can create businesses with the rules they want and change the playing field for others, making a significant impact in the world. More than a "How-to book" on building a business, Claudia provides clear examples and practical resources to help others create the life they want through entrepreneurship. In *Yes, You Can Do This!* you'll learn: How to develop and share your vision How to deal with stereotypes and unconscious bias How to leverage perceived weaknesses and turn them into strengths How to balance life at high speeds and avoid burnout How to cultivate the confidence to move from idea to creating a company with the culture and rules you want In *Yes, You Can Do This!* women are provided with an electrifying third career option: it's not just "lean in" or "lean out," but startup and change the playing field for others in the process. Praise for *Yes, You Can Do This!* "Combining compelling storytelling with practical, tactical advice, Reuter has created a manifesto for the next generation of female founders. Rooted in the research around gender and work, this is a must read for women looking to launch the next new thing." - Jennifer McPadden, Associate Director of Entrepreneurial Programs, Yale School of Management "A must-read for any woman considering taking the leap into entrepreneurship, *Yes, You Can Do This!* brings together today's best thinking about women in the workplace with practical advice for creating your dream career and life - by starting a company. Whether you are just curious or ready to take the leap, this book is a great read and a valuable resource." -Anna Barber, Managing Director, Techstars "Claudia helps not just the female entrepreneur, but all entrepreneurs, find their footing in what can be an overwhelming whirlwind of starting a business. This book is not only inspiring and uplifting, but positively necessary for any woman looking to find success in the startup space! -Shira Atkins, Co-founder & CMO Wonder Media Network "Stories of entrepreneurial success exist in abundance for men who receive 97.8% of venture funding and hold 95% of CEO roles. What is most inspiring about Claudia's book, making me want to shout from the rooftop, is that it is told from the perspective of an everyday woman who pushed hard through barriers, doubts, and setbacks that any entrepreneur would face. On top of all that, she overcame obstacles that are uniquely ours as women today. Claudia is now a standout among women, but with her book in hand, women who want to build a business to scale have a blueprint and path to do so. Here's to making dreams come true!" -Coco Brown, CEO and Founder, The Athena Alliance. "As I read through the book, there were multiple points where I thought, 'Every man in any startup or fast-growing business should read this.' As a man in technology, I took away a number of new ideas, along with examples that were explained in a way that I wouldn't have been able to do prior to reading Claudia's book." -Brad Feld, Managing Director, at Foundry Group, author of *Venture Deals and Do More*

Pirate Mar 15 2021 In Ted Bell's scorching follow-up to his New York Times bestseller Assassin, intrepid intelligence operative Alex Hawke must thwart a secret, deadly alliance between China and France before they annihilate everything and everyone in their headlong rush toward world domination. Aboard the Star of Shanghai in the south of France, an American spy is held captive. He possesses vital, explosive intelligence linking two nations and one horrifying plot. If he is not rescued, he faces certain torture and inevitable death. Nearby, in a seaside hotel, a man still haunted by the loss of his wife two years earlier finds comfort in the arms of a beautiful Chinese actress--but is she to be trusted? So begins Pirate, an electrifying thriller marking the return of international counterterrorist Alex Hawke. In Paris, a ruthless descendant of Napoleon has risen to power, hell-bent on restoring France's former glory. His fiery ambitions are cynically stoked by a coterie of cold-blooded Mandarins, plotting behind the gates of Beijing's Forbidden City. Cloaked in secrecy, this unholy alliance devises a twisted global plan, backed by China's growing nuclear arsenal, that will send America and the world to the brink of a gutwrenching showdown. With the aid of his old friend and former Navy SEAL, Stokely Jones, Hawke sets out to investigate the deadly connections that bind the French-Chinese axis. Together, they discover that a powerful German industrialist may hold the key, somewhere inside the walls of his Bavarian mountain lair. Meanwhile, clues to an old and gruesome murder in Paris lead to New York City, where horrifying evidence could finally bring a madman to his knees. In the end, as American and British forces prepare to defend a sovereign and oil-rich Gulf nation against unwilling occupation, the terror is all too real. The world is once more balanced on the knife-edge of a full-blown nuclear confrontation. Hawke must once more prepare to hurl himself deep into the nightmare visions of madmen. He must garner every ounce of strength, courage, and useful pain from his past. He must defeat this enemy or else forfeit the lives of untold thousands, including his own, to an axis of evil no historian could have ever predicted. Be prepared for Alex Hawke's most daunting and heart-pounding mission yet. Here is an author who gets you in the palm of his hand...and then clenches his fist!

The Broken Places Jun 25 2019 Susan Perabo's short-story collection, Who I Was Supposed to Be, was named a Best Book of 1999 by the Los Angeles Times, The Miami Herald, and the St. Louis Post-Dispatch. The Boston Globe proclaimed the debut "a stunning introduction to a fresh new literary talent." Now Susan Perabo returns with The Broken Places, her eagerly anticipated novel about love and honor and how the aftermath of one terrifying night -- and one heroic act -- affects a close-knit family. Twelve-year-old Paul Tucker knows his family is something akin to royalty in small-town Casey, Pennsylvania. His father, Sonny, is a dedicated career fireman, in line for the position of chief, long held by Paul's late grandfather, a local legend whose heroics continue to occupy the hearts and minds of all who knew and worked with him. Paul's mother, Laura, is a math teacher at the high school; Paul is sometimes annoyed by her worries over him (and her apparent lack of worry over his father), but his life is generally untroubled, his future bright, his time measured by sport seasons. But on a windy October day, the collapse of an abandoned farmhouse forever alters the fates and perceptions of Paul, his family, and those closest to them. Sonny and the other Casey firemen attempt a dangerous rescue to reach a teenager buried under the rubble, and when Sonny himself is trapped by a secondary collapse, Paul, his mother, and the crowd of onlookers believe the worst. The wait is excruciating; it's baby Jessica all over again, but this time the "innocent victim" is sixteen-year-old Ian Finch, a swastika-tattooed hoodlum who may have brought the house down on himself while building bombs. Still, when Sonny emerges from the rubble hours later, the maimed teenager in his arms, the rescue becomes a minor miracle and a major public relations event, a validation of all things American and true. Sonny is immediately hailed as a national hero. And Paul's life is suddenly, and irrevocably, changed. Beyond the limelight, the parades, and the intrusion of the national media into a quiet and predictable life, the Tucker household balance is upset. And Ian Finch's curious and continued involvement in Sonny's life creates a new and troubling set of hurdles for Paul to overcome. Somehow, though his father has been saved, he continues to slip through Paul's fingers. Secrets, lies, and changing alliances threaten Paul's relationship with his father and his mother and his understanding of what holds a family -- and a town -- together. The Broken Places is a brilliant meditation on the psychology of heroism, the definition of family, and the true meaning of honor. With pitch-perfect dialogue, subtle but stunning insights, and a dazzling ability to uncork the quiet power of each character, Susan Perabo's The Broken Places uncovers and celebrates the unsettling truths of human nature.

How to Make the World Add Up Sep 01 2022 The Sunday Times Bestseller 'Tim Harford is one of my favourite writers in the world. His storytelling is gripping but never overdone, his intellectual honesty is rare and inspiring, and his ability to make complex things simple - but not simplistic - is exceptional. How to Make the World Add Up is another one of his gems. If you're looking for an addictive pageturner that will make you smarter, this is your book' Rutger Bregman, author of Humankind 'Tim Harford could well be Britain's Malcolm Gladwell' Alex Bellos, author of Alex's Adventures in Numberland 'If you aren't in love with stats before reading this book, you will be by the time you're done. Powerful, persuasive, and in these truth-defying times, indispensable' Caroline Criado Perez, author of Invisible Women In How to Make the World Add Up, Tim Harford draws on his experience as both an economist and presenter of the BBC's radio show 'More or Less' to take us deep into the world of disinformation and obfuscation, bad research and misplaced motivation to find those priceless jewels of data and analysis that make communicating with numbers so rewarding. Through vivid storytelling he reveals how we can evaluate the claims that surround us with confidence, curiosity and a healthy level of scepticism. It is a must-read for anyone who cares about understanding the world around them. 'Tim Harford is our most likeable champion of reason and rigour . . . clear, clever and always highly readable' The Times, Books of the Year 'Fascinating and enjoyable' Bill Bryson 'Now more than ever we need a book like this' Stephen Fry 'Wise, humane and, above all, illuminating. Nobody is better on statistics and numbers - and how to make sense of them' Matthew Syed 'One of the most wonderful collections of stories that I have read in a long time . . . fascinating.' Steven Levitt, co-author of Freakonomics 'Wise and useful . . . such a delight' Financial Times 'What should we do when someone makes a claim that they say is based on data? This wise book, distilled from years of experience, gives us the ten commandments, from first examining our feelings, to finally having the humility to admit we may be wrong. Priceless' Professor Sir David Spiegelhalter
