Die Qualität qualitativer Daten Aug 21 2019 Wie führt man ein "gutes" qualitatives Interview? Fragt man überhaupt - wenn ja: Wie? Welche Formen qualitativer Interviews gibt es? Wie erstellt man einen Leitfaden? Das Manual beantwortet diese und andere Fragen und will den praktischen Nöten derjenigen abhelfen, die qualitative (narrative, problemzentrierte oder Leitfaden gestützte) Einzelinterviews für Forschungsprojekte oder im Rahmen von Qualifikationsarbeiten durchführen wollen. Es vermittelt alle Kompetenzen, die notwendig sind, um das qualitative Interview als Kommunikations- und

Interaktionsprozess zu reflektieren und bewusst zu gestalten. Das Buch enthält Übungen, theoretisches Hintergrundwissen, Forschungsbeispiele, praktische Informationen, z.B. zum Datenschutz, sowie hilfreiche Materialien zur Organisation des qualitativen Forschungsprozesses. In der 3. Auflage wurde die Klärung der methodologischen Verortung des Forschungsgegenstandes, auf den die Gestaltung der Interviews zugeschnitten wird, vertieft, und es wurden Hinweise für die Durchführung von Experteninterviews ergänzt. Das Manual kann für die Vorbereitung auf die Interviewdurchführung in Interviewschulungen oder im Selbststudium genutzt werden und bietet Anregungen für die Lehre qualitativer Forschungsmethoden.

War and the Politics of Ethics Aug 01 2020 Contemporary Western war is represented as enacting the West's ability and responsibility to help make the world a better place for others, in particular to protect them from oppression and serious human rights abuses. That is, war has become permissible again, indeed even required, as ethical war. At the same time, however, Western war kills and destroys. This creates a paradox: Western war risks killing those it proposes to protect. This book examines how we have responded to this dilemma and challenges the vision of ethical war itself, exploring how the commitment to ethics shapes the practice of war and indeed how practices come, in turn, to shape what is considered ethical in war. The book closely examines particular practices of warfare, such as targeting, the use of cultural knowledge, and ethics training for soldiers. What emerges is that instead of constraining violence, the commitment to ethics enables and enhances it. The book argues that the production of ethical war relies on an impossible but obscured separation between ethics and politics, that is, the problematic politics of ethics, and reflects on the need to make decisions at the limit of ethics.
