The Thiselton Companion to Christian Theology Oct 31 2019 Covering everything from Abba to Zwingli, The Thiselton Companion to Christian Theology offers a comprehensive account of a wide sweep of topics and thinkers in Christian theology. Written entirely by eminent scholar Anthony Thiselton, the book features a coherence lacking in most multiauthored volumes. Drawing on his encyclopedic knowledge, gained from fifty-plus years of study and teaching, Thiselton provides some six hundred articles on various aspects of theology throughout the centuries. The entries comprise both short descriptive surveys and longer essays of original assessment on central theological topics -- such as atonement, Christology, God, and Holy Spirit -- and on such theologians as Aquinas, Augustine, Barth, Calvin, Kng, Luther, Moltmann, and Pannenberg. The book also includes a helpful time chart dating all of the theologians discussed and highlighting key events in Christian history; select reading suggestions conclude each of the longer entries. Equally valuable for research and teaching, The Thiselton Companion to Christian Theology will be a go-to reference for pastors, students, teachers, and theologians everywhere.

A Companion to Global Historical Thought Aug 29 2019 A COMPANION TO GLOBAL HISTORICAL THOUGHT A Companion to Global Historical Thought provides an overview of the development of historical thinking from the earliest times to the present, directly addressing issues of historiography in a globalized context. Questions concerning the global dissemination of historical writing and the relationship between historiography and other ways of representing the past have become important not only in the academic study of history, but also in public arenas in many countries. With contributions from leading international scholars, the book considers the problem of "the global" – in the multiplicity of traditions of narrating the past; in the global dissemination of modern historical writing; and of "the global" as a concept animating historical imaginations. It explores the different intellectual approaches that have shaped the discipline of history, and the challenges posed by modernity and globalization, while illustrating the shifts in thinking about time and the emergence of historical thought. Complementing A Companion to Western Historical Thought, this book places non-Western perspectives on historiography at the center of discussion, helping scholars and students alike make sense of the discipline at the start of the twenty-first century.

Small Island Mar 17 2021 Discover the 12 crucial moments in Britain's past that will answer the greatest questions for our future in this richly insightful and fascinating history 'A richly entertaining canter through the country's past. Engrossing' INDEPENDENT _____ In 878 the borders of Alfred the Great's Wessex were confined to a small patch of marshland in Somerset. This was Britain. Four centuries later, and the country straddled the English Channel, embracing much of what we now know as France. Six hundred years later, its boundaries were to be found in the Caribbean, the Arabian Sea, the Indian Ocean and the Sunda Strait. These, too, were Britain. Yet when - and where - did Britain begin? Is the shape of Britain led by the British - or are foreign powers more responsible for our borders than we realise? Is Britain justified in its island mentality? Will Britain ever be at ease with its own borders? And is the shape of Britain soon to change all over again? . . . This comprehensive, entertaining and concise new history uses twelve maps to explain Britain's most characteristic trait - our need to be both part of the wider world, yet separate from it. **Please note a printing error in map 10 is now being fixed**
