Adolf Hitler - European Tour Aug 18 2021

Adolf Hitler's European tour started with small gigs in German beer halls. It grew to sold-out crowds of worshipful fans raising their arms and chanting in adulation. They came for his hypnotic voice and signature mustache, outrageous costumes, rituals, and symbols. From there Hitler's band took Europe by storm with a swift series of top hits!

This book exposes the dark side of Hitler: His plagiarism from earlier inspirations far beyond Germany; some deep inside the USA.

The USA was the origin of Nazi salutes and Fascist behavior through the work of an American socialist: Francis Bellamy, author of the USA's Pledge of Allegiance to the Flag. The American Nazi salute was often performed by public officials in the USA from 1892 through 1942. What happened to old photographs and films of the American Nazi salute performed by federal, state, county, and local officials? Those photos and films are rare because people don't want to know the truth about the government's past.

American youth groups (Scouting) adopted Bellamy's American Nazi salute AND saluted swastika badges worn by fellow scouts. Many Americans were accustomed to "Nazi salutes for swastikas" long before German socialism adopted similar behavior under Hitler.

That helps to explain another shocking revelation: swastikas were worn by American soldiers before Hitler did it. There are photos in the book!

The military salute was the origin of Nazi salutes, via the USA's flag pledge in government schools.

Public officials in the USA who preceded the German socialist (Hitler) and the Italian socialist (Mussolini) were sources for the stiff-armed salute (and brainwashed chanting) in those countries and other foreign countries influencing the worst reprobates, including these other socialists: Joseph Stalin, Vladimir Lenin, Mao Zedong, Adolf Hitler, Pol Pot, Kim Il-sung, Ho Chi Minh, Karl Marx, Leon Trotsky, Kim Jong-il, Benito Mussolini, Kim Jong-un, Fidel Castro, Che Guevara and more! They showed that Killing socialists is trademark socialism. Millions died.

Yet, the world's worst killers escaped justice and many continue to be glorified as "great leaders." Bernie Sanders and Alexandria Ocasio-Cortez (and their fans) self-identify the same as Hitler (and Stalin, Mao, etc): SOCIALIST. (Hitler and his supporters did not call themselves "Nazi" nor "Fascist").

"Socialism" was touted by the very word in voluminous speeches & writings by the socialists Hitler, Stalin, Mao, Pol Pot, the Kim thugs, etc. Soviet socialism joined German socialism to launch the socialist war (WWII) invading Poland etc. It led to socialism's many genocides.

Who was worst: Stalin, Mao, or Hitler? Stalin shares guilt for genocides of Mao, Hitler & himself, and Pol Pot, and the Kim thugs and other socialists. German socialism and Soviet socialism joined to launch the socialist war (WWII), invading Poland and going onward. Stalin assisted Mao. It led to genocide under many other socialists.

The importance of this book cannot be overstated. It is a microcosm of the amorality of what remains of world socialism. It shines a floodlight on the ethical vacuum that is collectivism and its overlords. America is following them into that hell.

Changing European Identities Feb 09 2021 The political structure of Europe has changed and continues to do so. The changing allegiances of the populations of Europe pose problems and challenges for social psychological theory. *Changing European Identities* explores these issues using social identity theory and alternative models such as alienation theory and representational identity theory. It provides a highly topical and relevant context for exploring the validity and limits of current theories. Providing a valuable new perspective on people's reactions to change in Europe, it will be useful for advanced scholars in psychology and other social and political sciences.

Mirrors - Manual on combating antigypsyism through human rights education May 03 2020 Everyday in Europe, people associated with Roma or Traveller communities are exposed to acts of discrimination and exclusion on a scale that has stopped shocking people and institutions. Too often, it is only when lives are claimed that we wake up to the persistence of realities that have no place in any democratic society. Antigypsyism is a term used to refer to the multiple forms of biases, prejudice and stereotype that motivate the everyday discriminatory behaviour of institutions and many individuals towards Roma. Antigypsyism is a form of racial discrimination. Most antigypsyism acts are illegal and contrary to human rights, even when they are not prosecuted, and even if they are widespread and often ignored or tolerated. Antigypsyism undermines the moral fabric of societies. Democracy and human rights cannot take root where discrimination is institutionalised, tolerated or conveniently ignored. Education plays a central role in combating and overcoming antigypsyism because the result of centuries of prejudice cannot be fought by laws and courts alone. Human rights education – learning for, through and about human rights – provides an ideal approach to raising awareness about antigypsyism and promoting a culture of universal human rights. This manual was produced within the Roma Youth Action Plan of the Council of Europe to provide teachers, trainers and facilitators of non-formal education processes with essential information and methodological tools to address antigypsyism with young people of all ages and in any social-cultural setting. It is equally suitable for work with groups of non-Roma, Roma only, or mixed groups. Combating antigypsyism is a task for all of us; learning about it is a necessary starting point. As human beings we have the capability to discriminate and impose prejudice upon others. Fortunately, we are also capable to learn and change. *Mirrors* is a great help to help us notice

this, correct distorted views and to recognise ourselves in the eyes of others.

Rethinking academic writing pedagogy for the European university Mar 25 2022 All over Europe,

universities are moving over to English as the language of instruction. This development has been accelerated by global forces, and its pedagogical consequences have yet to be fully explored. This book examines this situation from the point of view of students and teachers, focusing particularly on the acquisition of English language writing skills in European university contexts. It takes an academic approach, and is firmly grounded in the bibliography on teaching academic writing to second language users in English-speaking countries, as well as in the bibliography on teaching English in Europe in higher education. In addition to providing sound pedagogical guidelines, it also brings together the most recent critiques of current practice and an overview of the innovative approaches devised in the last ten years. This is a book for all those who are involved in the changing European university scenario: English teachers and writing instructors, lecturers faced with the challenge of teaching their courses in English, university administrators and decision-makers.
