An Informal History of the Hugos Apr 26 2022 Engaged, passionate, and consistently entertaining, *An Informal History of the Hugos* is a book about the renowned science fiction award for the many who enjoyed Jo Walton's previous collection of writing from Tor.com, the Locus Award-winning *What Makes This Book So Great*. The Hugo Awards, named after pioneer science-fiction publisher Hugo Gernsback, and voted on by members of the World Science Fiction Society, have been presented since 1953. They are widely considered the most prestigious awards in science fiction. Between 2010 and 2013, Jo Walton wrote a series of posts for Tor.com, surveying the Hugo finalists and winners from the award's inception up to the year 2000. Her contention was that each year's full set of finalists generally tells a meaningful story about the state of science fiction at that time. Walton's cheerfully opinionated and vastly well-informed posts provoked valuable conversation among the field's historians. Now these posts, lightly revised, have been gathered into this book, along with a small selection of the comments posted by SF luminaries such as Rich Horton, Gardner Dozois, and David G. Hartwell. "A remarkable guided tour through the field—a kind of nonfiction companion to *Among Others*. It's very good. It's great."—New York Times bestselling author Cory Doctorow, *Boing Boing* on *What Makes This Book So Great* At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Fritz Leiber and H.P. Lovecraft Sep 27 2019 While Howard Phillips Lovecraft was closing the final chapter of his writing career, Fritz Reuter Leiber was only beginning to open his own. The year was 1936 and Jonquil Leiber, Fritz's first wife, sent a letter on her own initiative to Lovecraft, knowing that her husband had been an avid admirer of his work, ever since his first reading of "The Colour out of Space" and hoping that Lovecraft's presence in Fritz's slow-paced writing career might be the source of inspiration he so dearly needed. Lovecraft replied promptly on November 2 of that year, the seed of an invigorating correspondence, which lasted till Lovecraft's passing. Fritz Leiber and H.P. Lovecraft: Writers of the Dark presents Lovecraft's letters to Leiber, an impressive selection of Leiber's fiction which shows Lovecraft's influence, and a selection of Leiber's essays on Lovecraft and Matters Lovecraftian. Features an introduction by Ben J. S. Szumskyj and an afterword by S.T. Joshi.

Frontiers Past and Future Aug 19 2021 "Abbott offers a fruitful new way to read science fiction, one that also greatly enriches our understanding of western history and its impact on our collective imagination. Detailing the overlap of science fiction and western fiction - especially relating to their mutual interest in and concerns about frontier expansionism - he reveals an unsuspected common ground that informs the writings of both camps." "Reviewing the work of many Hugo and Nebula Award winners, as well as drawing upon popular film and television series (like the Buck Rogers serials), Abbott's study journeys across the far reaches of science fiction's universe."

Die Hugo Awards 1953 - 1984 Jul 30 2022 Der Hugo Award ist weltweit der wichtigste und bekannteste Preis für Science-Fiction-Werke. Er wird seit 1953 von den Mitgliedern der World Science Fiction Convention während einer feierlichen Zeremonie in zahlreichen, gelegentlich wechselnden Kategorien vergeben. In diesem Buch werden die ausgezeichneten Werke und die Preisträger aus dem Zeitraum 1953 bis 1984 gewürdigt und einzeln vorgestellt, und zwar nicht nur die bedeutenden Romane oder Filme, sondern auch Illustratoren, Herausgeber und Fans. Ein großartiges Lesebuch wie auch ein äußerst nützliches Nachschlagewerk für alle, die sich für die Science Fiction interessieren! "Der konkurrierende Preis, der Nebula Award, wird von professionellen Schriftstellern ausgelobt, aber es lässt sich nicht belegen, dass diese durchgängig Werke von höherem literarischem Niveau ausgesucht hätten. Manche Kritiker würden sogar das Gegenteil behaupten – dass sich die Hugo-Wähler ganz knapp als die besseren Preisrichter erwiesen hätten." Peter Nicholls, *Encyclopedia of Science Fiction*

His fiction won the Hugo, Nebula, Derleth, Gandalf, Lovecraft, and World Fantasy Awards, and he was honored with the Life Achievement Lovecraft Award and the Grand Master Nebula Award. While studying his beloved city through binoculars from his apartment window, he is astonished to see a mysterious figure waving at him from a hilltop two miles away. He walks to Corona Heights and looks back at his building to discover the figure waving at him from his apartment window—and to find himself caught in a century-spanning curse that may have destroyed Clark Ashton Smith and Jack London.

The Stuff of Science Fiction Sep 07 2020 While students and general readers typically cannot relate to esoteric definitions of science fiction, they readily understand the genre as a literature that characteristically deals with subjects such as new inventions, space, robot and aliens. This book looks at science fiction in precisely this manner, with twenty-one chapters that each deal with a subject that is repeatedly addressed in science fiction of recent centuries. Based on a packet of original essays that the author assembled for his classes, the book could serve as a supplemental textbook in science fiction classes, but also contains material of interest to science fiction scholars and others devoted to the genre. In some cases, chapters offer thorough surveys of numerous works involving certain subjects, such as imagined vehicles, journeys beneath the Earth and undersea adventures, discovering intriguing patterns in the ways that various writers developed their ideas. When comprehensive coverage of ubiquitous topics such as robots, aliens and the planet Mars is impossible, chapters focus on major themes referencing selected texts. A conclusion discusses other science fiction subjects that were omitted for various reasons, and a bibliography lists additional resources for the study of science fiction in general and the topics of each chapter.

Paratexts Oct 09 2020 In the mid-1980s, Easton Press began publishing a series of leather-bound collector editions called "Masterpieces of Science Fiction," and "Masterpieces of Fantasy," which featured some of the most important works in these genres. In *Paratexts: Introductions to Science Fiction and Fantasy*, Gunn has collected the most significant essays produced for the Easton series, along with prefaces he wrote for reprints of his own novels. Drawing upon Gunn's lifetime of work in the field, these introductions include analyses of the individual works and the fields in which they were written. Gunn also briefly discusses each novel's significance in the science fiction canon. Collected here for the first time, these prefaces and introductions provide readers with insight into more than seventy novels, making *Paratexts* a must read for science fiction and fantasy aficionados.

The Big Time Aug 07 2020 *The Big Time* Fritz Leiber - A war rages beyond space and time in this Hugo Award-winning extraordinary tour de force from the acclaimed Master of Science Fiction and Fantasy (A Readers Guide to Science Fiction). Fritz Leiber (1910-1992) may be best known as a fantasy writer, but he published widely and successfully in the horror and science fiction fields. One of his major SF creations is the *Change War*, a series of stories and short novels about rival time-traveling forces locked in a bitter, ages-long struggle for control of the human universe where battles alter history and then change it again until there is no certainty about what might once have happened. The most notable work of the series is the Hugo Award-winning novel *The Big Time*, in which doctors, entertainers, and wounded soldiers find themselves treacherously trapped with an activated atomic bomb inside the Place, a room existing outside of space-time. Leiber creates a tense, claustrophobic SF mystery, and a brilliant, unique locked-room whodunit. In addition to the Hugo, Nebula, Derleth, Lovecraft, and World Fantasy Awards, Fritz Leiber received the Grand Master of Fantasy (Gandalf) Award, the Life Achievement Lovecraft Award, and the Grand Master Nebula Award.

Narrative of Chinese and Western Popular Fiction Mar 26 2022 This book presents a comprehensive and systematic study of the narrative history and narrative methods of Chinese and Western popular fiction from the perspectives of narratology, comparative literature, and art and literature studies by adopting the methodology of parallel comparison. The book is a pioneering work that systematically investigates the similarities and differences between Chinese and Western popular fiction, and traces the root causes leading to the differences. By means of narrative comparison, it explores the conceptual and spiritual correlations and differences between Chinese and Western popular fiction and, by relating them to the root causes of cultural spirit, allows us to gain an insight into the cultural heritage of different nations. The book is structured in line with a cause-and-effect logical sequence and moves from the macroscopic to the microscopic, from history to reality, and from theory to practice. The integration of macro-level theoretical studies and micro-level case studies is both novel and effective. This book was awarded Second Prize at the Sixth Outstanding Achievement Awards in Scientific Research for Chinese Institutions of Higher Learning (Humanities & Social Sciences, 2013).
