**Meeting the Challenges to Measurement in an Era of Accountability** Dec 13 2020 Under pressure and support from the federal government, states have increasingly turned to indicators based on student test scores to evaluate teachers and schools, as well as students themselves. The focus thus far has been on test scores in those subject areas where there is a sequence of consecutive tests, such as in mathematics or English/language arts with a focus on grades 4-8. Teachers in these subject areas, however, constitute less than thirty percent of the teacher workforce in a district. Comparatively little has been written about the measurement of achievement in the other grades and subjects. This volume seeks to remedy this imbalance by focusing on the assessment of student achievement in a broad range of grade levels and subject areas, with particular attention to their use in the evaluation of teachers and schools in all. It addresses traditional end-of-course tests, as well as alternative measures such as portfolios, exhibitions, and student learning objectives. In each case, issues related to design and development, psychometric considerations, and validity challenges are covered from both a generic and a content-specific perspective. The NCME

Applications of Educational Measurement and Assessment series includes edited volumes designed to inform research-based applications of educational measurement and assessment. Edited by leading experts, these books are comprehensive and practical resources on the latest developments in the field. The Open Access version of this book, available at <http://www.taylorfrancis.com>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license

*Die Spinne* Jul 20 2021 Paris 1908: An drei aufeinanderfolgenden Freitagen erhängten sich drei Gäste des kleinen Hotels Stevens am Fensterkreuz von Zimmer 7. Der Medizinstudent Richard Bracquemont lässt sich weder vom zuständigen Kommissar noch von Madame Dubonnet, der Besitzerin des Hotels, davon abbringen, genau dieses Zimmer zu beziehen ... 1908 erschien die weltberühmte Erzählung „Die Spinne“, die Hanns Heinz Ewers im nordfranzösischen Bois de Cise schrieb. Sie gilt heute als Klassiker der Gruselliteratur. „Die Spinne“ wurde sofort zu einem Sensationserfolg: Die Zeitungen, in denen die Geschichte zum ersten Mal erschien, erhielten viele Hundert Zuschriften, die eine Erklärung für die seltsamen Phänomene verlangten, die in der Handlung geschildert wurden. Übersetzungen erschienen auf Englisch, Französisch, Russisch, Polnisch, Schwedisch, Tschechisch, Ungarisch und in anderen Sprachen, außerdem wurde „Die Spinne“ mehrfach fürs Fernsehen verfilmt und wiederholt als Hörspiel bearbeitet, zuletzt 2011 unter dem Titel „Clarimonde“ für Deutschlandradio Kultur.
