***** The peaceful Eldarin were the last of three ancient races. The mystical Oltor, healers and poets, had fallen before the dread power of

the cruel and sadistic Daroth, who themselves had vanished from the face of the earth in one awesome night. The Great Northern Desert was their only legacy. Not a trace remained for a thousand years... Then on one unforgettable day, a dark moon rose above the Great Northern Desert, and a black tidal wave swept across the land. In moments, the desert had vanished beneath lush fields and forests and a great city could be seen glittering in the morning sunlight. From this city re-emerged the blood-hungry Daroth, powerful and immortal, immune to spear and sword. They had only one desire: to rid the world of humankind for ever. Now the fate of the human race rests on the talents of three heroes: Karis, warrior-woman and strategist; Tarantio, the deadliest swordsman of the age; and Duvodas the Healer, who will learn a terrible truth...

Resolution Mar 29 2022 The war against The Blight is over, and the subterranean realms of Nulapeiron have a chance for peace. But Tom Corcorigan, revolutionary and war hero, newly married and longing for the quiet life, knows that a greater force threatens his world: the planet-consuming Anomaly, which has absorbed billions of humans and alien beings into itself. Tom's association with the disembodied Eemur's Head, the flensed and bloody remains of a powerful Seer, changes him into something more than a poverty-stricken Lord. The spacetime-warping science of Seers and Oracles penetrates the heart of reality, bringing new enemies and allies into Tom's life. And his "story crystal," a gift from a mysterious mu-space Pilot, reveals more of the Pilots' history and true nature, and the existence of their home in a universe no ordinary human being can experience: the strange, shifting, living fractal city that is Labyrinth. Soon the Anomaly, an evil far more powerful than its offspring Blight, rips into the world, decimating the human realms. Among the free humans who survive in the floating terraformer spheres of Nulapeiron's skies, only the forces commanded by Tom Corcorigan have a chance against this omnipotent invader. For only a Warlord who is no longer human, who is willing to sacrifice everything, can deliver humanity from darkness. Resolution concludes the trilogy of Nulapeiron tales featuring Tom Corcorigan, bringing the story to a triumphant climax and revealing the devastating secret of the Oracles' creation.

Genetics of Developmental Disabilities Jun 19 2021 Published in 2005: Genetics of Developmental Disabilities is written as a textbook and resource for physicians, basic and clinical researchers, and other professionals, students, and health care providers. Those interested in the causes and scientific understanding of developmental disabilities.

Context Jul 01 2022 Nulapeiron: a world isolated for twelve centuries. Its billions of inhabitants occupy subterranean strata, ruled by a trained aristocracy of lords and ladies whose power base is upheld by oracles. But revolution has touched all of its many cultures - failing in its intent, yet changing everything. Now Lord Tom Corcorigan - the commoner-turned-noble who renounced his power; the poet, logosopher, and holder of the key to understanding the myriad wonders of mu-space; the legendary one-armed warrior, former revolutionary, and would-be peacemaker - lies fatally wounded. His survival is dependent on his meeting with a mysterious seer whose spacetime-warping talents

transcend the merely Oracular. It is a confrontation that will result in bitter tragedy and loss. Can the woman he loves be truly dead, or can quantum mysteries lie beyond the grave? Turning his back on a society sliding once more into anarchy and chaos, a disillusioned and despairing Tom wanders this strange, stratified world in search of meaning, love, and his own salvation. But it seems Nulapeiron is threatened by a vast, insidious, and terrifying enemy whose origins may lie beyond their world, beyond their understanding. And now is the time for legends to be reborn. Sequel to the acclaimed Paradox and the second book in the Nulapeiron Sequence, Context is a thrilling, daring and complex novel that confirms John Meaney as one of British science fiction's most original and exciting practitioners.

Paradox May 31 2022 Centuries of self-imposed isolation have transformed Nulapeiron into a world unlike any other - a world of vast subterranean cities maintained by extraordinary organic technologies. For the majority of its peoples, however such wonders have little meaning. Denied their democratic rights and restricted to the impoverished lower levels, they are subjected to the brutal law of the Logic Lords and the Oracles, supra-human beings whose ability to truecast the future maintains the status quo. But all this is about to change. In a crowded marketplace a mysterious, beautiful woman is brutally cut down by a militia squad's graser fire. Amongst the horrified onlookers is young Tom Corcorigan. He recognizes her. Only the previous day she had presented him with a small, seemingly insignificant info-crystal. And only now, as the fire in the dying stranger's obsidian eyes fades, does he comprehend who - or what - she really was: a figure from legend, one of the fabled Pilots. What Tom has still to discover is that his crystal holds the key to understanding mu-space, and so to freedom itself. He doesn't know it yet, but he has been given a destiny to fulfill - nothing less than the rewriting of his future, and that of his world... Spectacularly staged, thrillingly written and set in a visionary future, Paradox places John Meaney at the forefront of science fiction in this new century.

Edge Jun 07 2020 Josh Cumberland's daughter lies in a coma she will never wake from. He can't help her, but perhaps he can save someone else. This is near-future Britain: storms, flash whirlwinds and floods. A legalized knife culture. And a missing rich schoolboy, whose buried memories hold the key to political corruption at the highest levels. Josh is a cyber specialist, ex-special forces and relentless. Can he pull a country and a world back from the edge of disaster? PRAISE FOR

EDGE "Cumberland leaps off the page, a trained killer whose anger and grief at his daughter's condition is brilliantly portrayed; the depiction of his simmering rage, barely held in check, and how he channels it, provides a masterclass in characterisation." The Guardian "What starts off as a simple missing persons enquiry develops into a full-blown coup against a fascist state... Set in a Britain extrapolated from today's violent streets, yet still highly recognisable, Edge is the first in what will hopefully be a long running series." Total Sci-Fi PRAISE FOR JOHN MEANEY "A brilliant, inventive writer." The Times "A spectacular writer. He makes SF seem all fresh and new again." Robert J. Sawyer, Hugo Award-winning author "Within five pages... I was completely hooked... the perfect blend of action and science fiction... I can only hope that there will be more." The Eloquent Page, reviewing Point (Josh Cumberland book 2) "I absolutely don't want to live in the world [Meaney] has created. I didn't want to in Edge (the first book in the series) and I most certainly don't want to now. I do, however, want to read about it. It's relentless and gripping, with a brilliant balance between the personal and the political." BiblioBuffet, reviewing Point (Josh Cumberland book 2) "Absorption is the best hard science fiction I've read this year, well written, exciting, mysterious, full of interesting characters and ideas..." The Times, reviewing Absorption (Ragnarok book 1) "...the world building is phenomenal and the pace as chapters switch from time zones is just right, keeping the tension levels up. The female characters are particularly strong and literally jump off the page, particularly the WWII code breaker Gavriela. The novel is also steeped in historical accuracy and authenticity." Terror-Tree.co.uk, reviewing Transmission (Ragnarok book 2) "Resonance is a book driven by big ambitions. Meaney has penned a story that aims to be epic beyond even the level of Dune or similarly famed series. Furthermore, the amount of research that has gone into the book adds a surprising degree of credibility..." Starburst Magazine, reviewing Resonance (Ragnarok book 3) "Meaney's creepy death-haunted world lingers in the mind long after the book is closed... a smart and spooky read." The Times, reviewing Bone Song (Donal Riordan book 1)
