Ruled out as a suspect, Dr. Mark Adams offers to assist Casey in any way he can and, despite her resistance, their relationship quickly turns personal. A Diasporan Mormon's Life Mar 04 2020 Offering a glimpse into the lives of upwardly mobile Mormon professionals, this series of personal essays by author Dr. Robert S. Jordan describes his odyssey as a third-

generation Mormon of polygamous descent whose family ascended from rural pioneer poverty to upper middle-class social and economic success. A Diasporan Mormons Life chronicles the life of Jordan, a child of the Mormon Diasporans who left the social and cultural isolation of Utah for a more secular, modern America. This memoir describes his struggle to find his personal identity from the tensions created between his religious heritage and his secular upbringing. Jordans life is remarkably varied. He studied at East Coast and California high schools, state universities such as UCLA and the University of Utah, and institutions such as Princeton and Oxford. He witnessed World War II, the Korean War, the Cold War, Vietnam, and survived Hurricane Katrina. He lived in large urban centers and locations on the global periphery. He engaged in academic research and teaching, university administration, and government service. A searching, informative, and entertaining memoir enhanced with numerous photos, this memoir distills and clarifies the experiences of his generation and contributes to the history and sociology of twentieth-century Mormonism.

John Stott's Right Hand, Expanded and Updated Feb 12 2021 The story John Stott hoped would one day be told. Frances Whitehead was working for the BBC when Stott asked her to become his secretary. For 55 years she was his right hand: gatekeeper, administrator, typist, encourager and enabler. In his Will, Stott named her as his 'friend and Executor'. Their partnership—unique, effective, and not without humour—has been described as 'one of the greatest Christian partnerships of the 20th century'. But what lay behind the dogged determination, fiercely protective streak, occasional imperious tone, and ready, warm laughter Frances brought to her role? This book tracks her life and glimpses her ancestry to find the answer.

The A to Z of Postmodernist Literature and Theater Jul 08 2020 Postmodernist literature embraces a wide range of forms and perspectives, including texts that are primarily self-reflexive; texts that use pastiche, burlesque, parody, intertextuality and hybrid forms to create textual realities that either run in opposition to or in parallel with an external reality; fabulations that develop both of these strategies; texts that ironize their relationship to reality; works that use the aspects already noted to more fully engage with political or cultural realities; texts that deal with history as a fiction; and texts that elude categorization even within the variety already explored. For example, in fiction, a postmodernist novel might tell a story about a writer struggling with writing (only, perhaps, to find that he is a character in a book by another writer struggling to write a book). The A to Z of Postmodernist Literature and Theater examines the different areas of postmodernist literature and the variety of forms that have been produced. This is accomplished through a chronology, an introductory essay, a bibliography, and several hundred cross-referenced dictionary entries on individual postmodernist writers, the important postmodernist aesthetic practices, significant texts produced throughout the history of postmodernist writing, and important movements and ideas that have created a variety of literary approaches within the form. By placing these concerns within the historical, philosophical, and cultural contexts of postmodernism, this reference explores the frameworks within which postmodernist literature of the late twentieth and early twenty-first century operates.

Spy Apr 16 2021 Smart. Funny. Fearless."It's pretty safe to say that Spy was the most influential magazine of the 1980s. It might have remade New York's cultural landscape; it definitely changed the whole tone of magazine journalism. It was cruel, brilliant, beautifully written and perfectly designed, and feared by all. There's no magazine I know of that's so continually referenced, held up as a benchmark, and whose demise is so lamented" --Dave Eggers. "It's a piece of garbage" --Donald Trump.

Daddy, Tell Us About When You Were A Little Boy May 30 2022 Working alone, to start with, I filled three pages of legal pads with two columns per page with notes on events in my life. The title of the book came from the incessant questioning by my daughters for stories of my life, and of the lives of those near and dear to me. In retirement since 1988, my wife and I have spent the winters in a deluxe country club complex in Florida and our summers on our 11-acre farm in Connecticut. I played golf, spent afternoons in the condominium pool, and, following advice given to me by my dad's brother, a doctor, I have a three-ounce martini every night to keep the blood thin and the heart relaxed.

That Good Night Jun 26 2019 'A profound meditation on a problem many of us will face; worthy of being mentioned in the same breath as Atul Gawande's *Being Mortal*' Kirkus As the American born daughter of immigrants, Dr. Sunita Puri knew from a young age that the gulf between her parents' experiences and her own was impossible to bridge, save for two elements: medicine and spirituality. Between days spent waiting for her mother, an anesthesiologist, to exit the OR, and evenings spent in conversation with her parents about their faith, Puri witnessed the tension between medicine's impulse to preserve life at all costs and a spiritual embrace of life's temporality. And it was that tension that eventually drew Puri, a passionate but unsatisfied medical student, to palliative medicine - a new specialty attempting to translate the border between medical intervention and quality-of-life care. Interweaving evocative stories of Puri's family and the patients she cares for, *That Good Night* is a stunning meditation on impermanence and the role of medicine in helping us to live and die well, arming readers with information that will transform how we communicate with our doctors about what matters most to us.

Some Other Frequency Jun 18 2021 McCaffery converses with the young, recklessly daring, and furiously productive William Vollmann and with Marianne Hauser, who published her first novel nearly sixty years ago ... with Native American trickster novelist Gerald Vizenor and "guerrilla writer" Harold Jaffe (whose literary technique is to "plant a bomb, sneak away") ... with stark minimalist Lydia Davis and text-and-collage artist Derek Pell ... with muscular pop icon Mark Leyner and proto-punk diva Kathy Acker. They are a diverse lot, shaped by very different literary and personal influences, and addressing divergent readerships.

[Popskins Mordfälle](#) Jul 20 2021 Mr. Jonathan Popskin. Was für ein Name. Ein brandneuer Ermittler in der Welt der Verbrechen und derer gibt es viele, aber nur einen Mr. Popskin. Schrullig, schräg und sehr Gewissenhaft. Er ist Single. Liebt die Pfeife und Frank Sinatra, dessen Stimme er mühelos parodiert. Er ist ein pensionierter Pathologe! Ehemals arbeitete er an der Londoner Gerichtsmedizin. Seine Welt ist die Welt der Anatomie. Er wurde in Deutschland geboren und ist inzwischen britischer als ein Brite. Sein äußeres Merkmal ist ein Buckel und wenn dieser Buckel juckt ist ein Todesfall verdächtig. Popskin ist ein Meister seines Faches und der modernen Medien und sogar ein "Schüler" Leonardo da Vincis, der bei Sektionen immer wieder in die Renaissance eintaucht. Ein Geheimnis das sich für den Leser lüftet, nicht aber den Protagonisten seiner Fälle. Überhaupt liebt er Leonardo da Vinci, dieses begnadete Genie, vor allem aber ist er fasziniert von seinen anatomischen Zeichnungen. Selbst die Genies Alfred Hitchcock und Agatha Christie verdanken ihm ihr Leben! Einst begegneten sie sich im Hotel Savoy. In dieser Sammlung seiner Fälle wird das Geheimnis um ihre einzige Begegnung gelüftet. Mr. Popskin lebt in England, in der zaubernden Grafschaft Kent, in dem kleinen Ort Headcorn. Ihm zur Seite stehen seine Nachbarin Mrs. Gloria Stuart und ihre Katze Miss Marple. Der dickliche Pfarrer Hatley, ein Whiskytrinker vor dem Herrn, der Frauenliebhaber Dr. Varish und die Bibliothekarin Mrs. Tippelborn, sowie der grantige Chiefinspektor Patterson aus Maidstone. Seine Fälle führen ihn aber auch hinaus in die weite Welt...

[Storming the Reality Studio](#) Sep 02 2022 The term "cyberpunk" entered the literary landscape in 1984 to describe William Gibson's pathbreaking novel *Neuromancer*. Cyberpunks are now among the shock troops of postmodernism, Larry McCaffery argues in *Storming the Reality Studio*, marshalling the resources of a fragmentary culture to create a startling new form. Artificial intelligence, genetic engineering,

multinational machinations, frenetic bursts of prose, collisions of style, celebrations of texture: although emerging largely from science fiction, these features of cyberpunk writing are, as this volume makes clear, integrally related to the aims and innovations of the literary avant-garde. By bringing together original fiction by well-known contemporary writers (William Burroughs, Thomas Pynchon, Don DeLillo, Kathy Acker, J. G. Ballard, Samuel R. Delany), critical commentary by some of the major theorists of postmodern art and culture (Jacques Derrida, Fredric Jameson, Timothy Leary, Jean-François Lyotard), and work by major practitioners of cyberpunk (William Gibson, Rudy Rucker, John Shirley, Pat Cadigan, Bruce Sterling), *Storming the Reality Studio* reveals a fascinating ongoing dialog in contemporary culture. What emerges most strikingly from the colloquy is a shared preoccupation with the force of technology in shaping modern life. It is precisely this concern, according to McCaffery, that has put science fiction, typically the province of technological art, at the forefront of creative explorations of our unique age. A rich opportunity for reading across genres, this anthology offers a new perspective on the evolution of postmodern culture and ultimately shows how deeply technological developments have influenced our vision and our art. Selected Fiction contributors: Kathy Acker, J. G. Ballard, William S. Burroughs, Pat Cadigan, Samuel R. Delany, Don DeLillo, William Gibson, Harold Jaffe, Richard Kadrey, Marc Laidlaw, Mark Leyner, Joseph McElroy, Misha, Ted Mooney, Thomas Pynchon, Rudy Rucker, Lucius Shepard, Lewis Shiner, John Shirley, Bruce Sterling, William Vollman Selected Non-Fiction contributors: Jean Baudrillard, Jacques Derrida, Joan Gordon, Veronica Hollinger, Fredric Jameson, Arthur Kroker and David Cook, Timothy Leary, Jean-François Lyotard, Larry McCaffery, Brian McHale, Dave Porush, Bruce Sterling, Darko Suvin, Takayuki Tatsumi
