***Into the Jade Empire Apr 26 2022 TWO CONTINENTS. ONE FATE. Jade is still a child when she first hears news of her betrothal to someone across the seas, far from everything she knows. Destined to leave France against her will, she must sail to the Ming Empire, a place she had never imagined she would see with her own eyes. But as years pass and the threat of her departure looms closer, her outrage starts to waver in the face of a growing passion for an extraordinary culture. As she embarks on a journey that will change her life forever, Jade must come to understand that her new home is a land governed by different rules, a place where hatred and jealousy can hide behind the most beautiful smile. Petrified at the thought of her mysterious fiancé and unable to tell ally from foe, Jade will need to learn the game in order to survive. Unless, of course, the answer is not to conform but to break the mold altogether. ELLIE ARINY is a French author who left home at 19 to study Mandarin in Northern China and has since spent most of her adult life in Asia. After calling Hong Kong home for more than nine years, she now lives in Singapore with her husband and her ever-increasing book collection. INTO THE JADE EMPIRE is Ariny's first novel. TAKE A LOOK INSIDE Silverware and dried tea leaves. This letter is all I have left of my father. The ink has faded and the paper is torn from being handled again and again. It doesn't matter. I remember every word. For years I've hoped time would heal my wounds. But the truth is, time is not that forgiving. Even now, despite the trials and the wonderful moments of bliss, I only need to hold this letter in my hands to return to the day my life changed without warning. To become the little girl I was then, self centered, naive, and above all terrified. Silverware and dried tea leaves. The price they had set for my hand. Where should I begin my story? Should I tell you about my father, the genius shipowner who was able to extend his business empire from our native France to the coast of Asia? His is another tale entirely. Should I tell you about the emperors who placed their trust in me, the expedition I led across the borders of the empire or the imperial pavilion that now bears my name? Certainly, yes, but the time has not yet come. I would like to paint without delay what turned out to be my glory days, but since I have decided to put my life down on paper, I must be honest and start from the beginning. No matter how grim.***

*Life Less Lonely, A: What We Can All Do to Lead More Connected, Kinder Lives Jun 04 2020 Loneliness has reached the levels of an epidemic. From the bullied child to the new parent, from the pensioner who has outlived friends and family members to teenagers who manage their social lives through the glow of a mobile phone, it can - and does - affect anyone and everyone, irrespective of age, race or class. Many suffer in silence, convinced it's a confession too far, a sign of too much vulnerability, a shameful failing. But the human condition is not a failing. What's it like when loneliness descends? How does it announce itself, and how do you recognise it? Do you discuss it, or conceal it? From where can you seek help? A Life Less Lonely shares stories of loneliness and social isolation, and looks for ways in which we can help one another to future-proof ourselves against this most insidious affliction. By talking to those who suffer from it, and by highlighting the work of those who fight to combat it, the book offers guidance on how to spot the symptoms in yourself and in others, how to connect with those around you, and how, by understanding it all better, we might just set ourselves free from it. In this way, what is an epidemic today might not be one tomorrow.*

We're being addressed by many readers with the question: does this book is a 'children's feelings books' or a 'feelings books for children' and, to that we answer with a smile: yep! The somewhat strange thing is that most people accept their feelings as given - they miss out on the fact that they control whatever they feel, it's not a given thing - so by realizing the fundamental truth that we decide how life events makes us feel by deciding what would be the 'framing' we give it, a new spectrum of choice opens.**

**Life Skills Series - Mental Flexibility Or Move the Picture Jul 06 2020 In this book, Jade learns about mental flexibility - about the vitally important skill of letting go of one's mental images (better known as 'expectations') in order to enjoy what is. The skill of mental flexibility will not only help one skip many unnecessary conflicts but it will also facilitate a much higher level of happiness and creativity. Happiness, creativity (along with responsibility, proactivity, and many more qualities) are the outcomes of being able to be here and now - being present. Learning to let go of one's expectations yields a higher level of presence with all the great things mentioned above that it brings with it. Asaf Shani is an international consultant in the field of confrontational situations. Working with people - worldwide - in the last 20 years, help him gain insights about life skills in general and how to empower one's kids to acquire and use them. This extensive experience along with raising his own two kids (Jade and Andy what else...) are being presented in the Jade's life skills series in a way that kids aged 3 - 5, 7yrs old kids and even young adults can relate to. Yet, not surprisingly, many parents attest that the books have helped them to understand, and hence, better manage the situation in their life. After all, no one really teaches life skills at school... The book can very well fit 'I can read level 1' readers and will definitely fall into the 'children's books by age 3 - 5' category. We're being addressed by many readers with the question: does this book is a 'children's feelings books' or a 'feelings books for children' and, to that we answer with a smile: yep! The somewhat strange thing is that most people accept their feelings as given - they miss out on the fact that they control whatever they feel, it's not a given thing - so by realizing the fundamental truth that we decide how life events makes us feel by deciding what would be the 'framing' we give it, a new spectrum of choice opens.**

**Footbinding Jan 30 2020 In this book Shirley See Yan Ma provides a Jungian perspective on the Chinese tradition of footbinding and considers how it can be used as a metaphor for the suffering of women and the repression of the feminine, as well as a symbol for hope, creativity and spiritual transformation. Drawing on personal history, popular myths, literature, and work with clients, Footbinding discusses how modern women still symbolically find their feet bound through this ancient practice. Detailed case studies from Western and Asian women demonstrate how Jungian analysis can loosen these psychological bindings allowing the client to reconnect with the feminine archetype, discover their own identity and take control of their own destiny. This original book will be of great interest to Jungian analysts looking for a new perspective. It will also be of interest to anyone studying Chinese culture and psychology.**
