Historical Dictionary of War Journalism Mar 16 2021 Content Description #Includes bibliographical references and index.

Mental Radio illustrated Mar 04 2020 Mental Radio illustrated Upton Sinclair - "Mental Radio" documents Sinclair's test of psychic abilities of Mary Craig Sinclair, his second wife, while she was in a state of profound depression with a heightened interest in the occult. She attempted to duplicate 290 pictures which were drawn by her brother. Sinclair claimed Mary successfully duplicated 65 of them, with 155 "partial successes" and 70 failures. The experiments were not conducted in a controlled scientific laboratory environment. Fully illustrated with the original artwork.

CAPF Assistant Commandant Guide 2020 Jul 08 2020 Central Armed Police Forces (CAPFs) has announced a total of 323 vacancies are available in Border Security Force (BSF), Central

Reserve Police Force (CRPF), Central Industrial Security Force (CISF), Indo-Tibetan Border Police (ITBP) and Sashastra Seema Bal (SSB). CAPFs examination is a written exam that is conducted by UPSC. The Written Test comprises of two Papers in which Paper – I : General Ability and Intelligence Paper – II: General Studies. "Central Armed Police Forces [CAPFs] (BSF/CRPF/ITBP/SSB/CISF) Assistant Commandant Examination 2020" is designed to give the complete syllabus coverage of Both Paper I & Paper II. This book has Solved Papers [2019-2015] right in the beginning to make candidates familiar with the Question Paper Pattern & the Answer Writing Skills so that preparation can be accordingly. The Paper I has 5 sections that are divided into respective Chapters whereas Paper II has only three parts in the book. The whole syllabus is well explained into a Chapterwise theories with sufficient numbers of MCQs for the perfect grip and simultaneous revision of the concept. This book will help students in enhancing their preparation for better performance in this upcoming written exam. TABLE OF CONTENT Solved Paper (2019-15), PAPER-I General Study, Mathematics, Reasoning Ability, General Science, Environment, Ecology and Biodiversity, PAPER-II Precis Writing, Essay Writing, Comprehension

Pulitzer Feb 01 2020 Like Alfred Nobel, Joseph Pulitzer is better known today for the prize that bears his name than for his contribution to history. Yet, in nineteenth-century industrial America, while Carnegie provided the steel, Rockefeller the oil, Morgan the money, and Vanderbilt the railroads, Pulitzer ushered in the modern mass media. James McGrath Morris traces the epic story of this Jewish Hungarian immigrant's rise through American politics and into journalism where he accumulated immense power and wealth, only to fall blind and become a lonely, tormented recluse wandering the globe. But not before Pulitzer transformed American journalism into a medium of mass consumption and immense influence. As the first media baron to recognize the vast social changes of the industrial revolution, he harnessed all the converging elements of entertainment, technology, business, and demographics, and made the newspaper an essential feature of urban life. Pulitzer used his influence to advance a progressive political agenda and his power to fight those who opposed him. The course he followed led him to battle Theodore Roosevelt who, when President, tried to send Pulitzer to prison. The grueling legal battles Pulitzer endured for freedom of the press changed the landscape of American newspapers and politics. Based on years of research and newly discovered documents, Pulitzer is a classic, magisterial biography and a gripping portrait of an American icon.

The American Media Mar 28 2022 Surveys the history of American media, covering such aspects as yellow journalism, the syndicates, and radio news.

Historical Dictionary of Journalism Aug 21 2021 Journalism is the discipline of gathering, writing, and reporting news, and it includes the process of editing and presenting news articles. Journalism applies to various media, including but not limited to newspapers, magazines, radio, television, and the internet. The word 'journalist' started to become common in the early 18th century to designate a new kind of writer, about a century before 'journalism' made its appearance to describe what those writers produced. Though varying in form from one age and society to another, it gradually distinguished itself from other forms of writing through its focus on the present, its eye-witness perspective, and its reliance on everyday language. The Historical Dictionary of Journalism relates how journalism has evolved over the centuries. This is done through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on the different styles of journalism, the different types of media, and important writers and editors.

Encyclopedia of American Urban History Jul 28 2019 After a generation of pathbreaking scholarship that has reoriented and enlightened our perception of the American city, the two

volumes of the Encyclopedia of American Urban History offer both a summary and an interpretation of the field. With contributions from leading academics in their fields, this authoritative resource offers an interdisciplinary approach by covering topics from economics, geography, anthropology, politics, and sociology.

Edisons Eroberung des Mars Dec 13 2020

Graphic News Jan 02 2020 "You furnish the pictures and I'll furnish the war." This famous but apocryphal quote, long attributed to newspaper magnate William Randolph Hearst, encapsulates fears of the lengths to which news companies would go to exploit visual journalism in the late nineteenth century. From 1870 to 1900, newspapers disrupted conventional reporting methods with sensationalized line drawings. A fierce hunger for profits motivated the shift to emotion-driven, visual content. But the new approach, while popular, often targeted, and further marginalized, vulnerable groups. Amanda Frisken examines the ways sensational images of pivotal cultural events—obscenity litigation, anti-Chinese bloodshed, the Ghost Dance, lynching, and domestic violence—changed the public's consumption of the news. Using intersectional analysis, Frisken explores how these newfound visualizations of events during episodes of social and political controversy enabled newspapers and social activists alike to communicate—or challenge—prevailing understandings of racial, class, and gender identities and cultural power.

The Encyclopedia of the Spanish-American and Philippine-American Wars Apr 04 2020

Presents reference entries on the history of two wars fought by the United States at the turn of the twentieth century in Latin America and the Philippines, which established the country as an important world power.

The Yellow Kids Oct 03 2022 The amazing story behind the greatest newspapermen to ever live—Joseph Pulitzer and William Randolph Hearst—lies primarily hidden with their reporters who were in the field. They risked their lives in Cuba as the country grappled for independence simply to "get the story" and write what were not always the most accurate accounts, but were definitely the best—anything to sell papers. Reporters like Harry Scovel, Stephen Crane, Cora Taylor, Richard Harding Davis, and James Creelman, among others, put themselves in danger every day just for the news. *The Yellow Kids* is an adventure story packed with engaging characters, witticisms, humor, and adversity, to reveal that the "yellow" found in journalism was often an extra ingredient applied by editors and publishers in New York.

Media, the State and Marginalisation May 06 2020 The media has a close relationship with socio-cultural and political systems in today's society. This relationship both offers the potential to tackle the various challenges associated with inequality and, at the same time, creates a nexus with the elite classes of society to keep the marginalized away from the mainstream. This complex relationship between the media, state and the marginalized becomes more complex and interesting in the Indian context, where we find diversity not only in groups and communities, but also in power-relations. This book, containing twenty-one chapters and an editorial introduction, thus, deals with Indian perspectives in relation to the media, the state and the marginalized sections of society. This book will be of interest to academics, scholars and students of social sciences, especially in the fields of media studies, political science and sociology. It will also be useful for the people working in the media industry.

Yellow Journalism May 30 2022 Recalls the role of publishers in a battle for newspaper readers and looks at the history of sensational media reporting during its rise in popularity in the 1890s.

Attacks on the American Press: A Documentary and Reference Guide Dec 01 2019 This

authoritative annotated document collection surveys and explains efforts to censor, intimidate, suppress—and reform and improve—news organizations and journalism in America, from the newspapers of colonial times to the social media that saturates the present day. This primary

source collection will help readers to understand how the press has been vilified (usually by powerful political or corporate interests) over the course of American history, with a special focus on current events and how these efforts to censor or influence news coverage often flout First Amendment protections concerning freedom of the press. Selected documents highlight efforts to intimidate, silence, condemn, marginalize, and otherwise undercut the credibility and influence of American journalism from the colonial era through the Trump presidency. Most of the featured documents focus on efforts borne out of self-interested attempts to shape or conceal news for political or economic gain or personal fame, but coverage also includes instances in which press actions, attitudes, or priorities deserved censure. All told, the collection will be a valuable resource for understanding the importance of a free press to American life (and the constitutional basis for preserving such), the motivations (both selfish and altruistic) of critics of American journalism from the earliest days of the Republic to today, and the impact of all of the above on American society. More than 65 essential and illuminating primary documents provide key insights into American news media and freedom of the press. Primary source selections span the history of American news coverage, from the nation's earliest days to today's Twitter-driven media landscape. Informative, authoritative, and balanced introductory notes for each primary source help readers to understand the context in which they were created. A Reader's Guide to Related Documents and sidebars connecting readers with additional information on the topic.

Media, Journalism, and "Fake News": A Reference Handbook Sep 09 2020 This volume summarizes the evolution of news and information in the United States as it has been shaped by technology (penny press, radio, TV, cable, the internet) and form development (investigative journalism, tabloid TV, talk radio, social media).

- Provides readers with an overview of the development of news and information in the United States as an influential factor in a democracy, prompting readers to consider the importance of understanding this landscape
- Summarizes how changes in technology have influenced the content and form of news and information distribution, highlighting for readers the relationship between technology and content
- Points out the effects of different types of news and information — from investigative journalism to disinformation spread via social media — giving readers examples of the potential influence information might have on culture
- Profiles key figures and organizations that contributed to the evolving news and information landscape, deepening readers' understanding of the depth and breadth of the landscape
- Provides data about the current news and information landscape that captures elements of consumer engagement with a variety of news sources, providing readers with a broader understanding of how news and information is consumed and resonates with U.S. citizens

San Francisco: a Birthplace of Yellow Journalism Sep 02 2022

The A to Z of Journalism Nov 23 2021 Journalism is the discipline of gathering, writing, and reporting news, and it includes the process of editing and presenting news articles. Journalism applies to various media, including but not limited to newspapers, magazines, radio, television, and the internet. The word 'journalist' started to become common in the early 18th century to designate a new kind of writer, about a century before 'journalism' made its appearance to describe what those writers produced. Though varying in form from one age and society to another, it gradually distinguished itself from other forms of writing through its focus on the present, its eye-witness perspective, and its reliance on everyday language. The A to Z of Journalism relates how journalism has evolved over the centuries. This is done through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on the different styles of journalism, the different types of media, and important writers and editors.

The Media's Role in Defining the Nation Aug 09 2020 In 1897, William Randolph Hearst said that his newspaper did not simply cover events that had already happened. «It doesn't wait for things to turn up», Hearst said. «It turns them up.» This book traces the close relationship between media and the United States' development from the colonial period to the twenty-first century. It explores how the active voice of citizen-journalists and trained media professionals has turned to media to direct the moral compass of the people and to set the agenda for a nation, and discusses how changes in technology have altered the way in which participatory journalism is practiced. What makes the book powerful is that its assessment of the influence and use of media encompasses many levels: it explores the potential of media as an agent for change from within small communities to the national stage.

Sensationalism Oct 11 2020 David B. Sachsman and David W. Bulla have gathered a colourful collection of essays exploring sensationalism in nineteenth-century newspaper reporting. The contributors analyse the role of sensationalism and tell the story of both the rise of the penny press in the 1830s and the careers of specific editors and reporters dedicated to this particular journalistic style. Divided into four sections, the first, titled "The Many Faces of Sensationalism," provides an eloquent Defense of yellow journalism, analyses the place of sensational pictures, and provides a detailed examination of the changes in reporting over a twenty-year span. The second part, "Mudslinging, Muckraking, Scandals, and Yellow Journalism," focuses on sensationalism and the American presidency as well as why journalistic muckraking came to fruition in the Progressive Era. The third section, "Murder, Mayhem, Stunts, Hoaxes, and Disasters," features a ground-breaking discussion of the place of religion and death in nineteenth-century newspapers. The final section explains the connection between sensationalism and hatred. This is a must-read book for any historian, journalist, or person interested in American culture.

The Culture of Yellow Jun 18 2021 This is the first book to explore the cultural significance of the color yellow, showing how its psychological and aesthetic value marked and shaped many of the intellectual, political, and artistic currents of late modernity. It contends that yellow functions during this period primarily as a color of stigma and scandal. Yellow stigmatization has had a long history: it goes back to the Middle Ages when Jews and prostitutes were forced to wear yellow signs to emphasize their marginal status. Although scholars have commented on these associations in particular contexts, Sabine Doran offers the first overarching account of how yellow connects disparate cultural phenomena, such as turn-of-the-century decadence (the "yellow nineties"), the rise of mass media ("yellow journalism"), mass immigration from Asia ("the yellow peril"), and mass stigmatization (the yellow star that Jews were forced to wear in Nazi Germany). *The Culture of Yellow* combines cultural history with innovative readings of literary texts and visual artworks, providing a multilayered account of the unique role played by the color yellow in late nineteenth- and twentieth-century American and European culture.

Getting It Wrong May 18 2021 Many of American journalism's best-known and most cherished stories are exaggerated, dubious, or apocryphal. They are media-driven myths, and they attribute to the news media and their practitioners far more power and influence than they truly exert. In *Getting It Wrong*, writer and scholar W. Joseph Campbell confronts and dismantles prominent media-driven myths, describing how they can feed stereotypes, distort understanding about the news media, and deflect blame from policymakers. Campbell debunks the notions that the Washington Post's Watergate reporting brought down Richard M. Nixon's corrupt presidency, that Walter Cronkite's characterization of the Vietnam War in 1968 shifted public opinion against the conflict, and that William Randolph Hearst vowed to "furnish the war" against Spain in 1898. This expanded second edition includes a new preface and new chapters about the first

Kennedy-Nixon debate in 1960, the haunting Napalm Girl photograph of the Vietnam War, and bogus quotations driven by the Internet and social media.

Zur Etymologie lexikalisierte Farbwortverbindungen Dec 25 2021 Dieses Buch bietet zum erstenmal eine zusammenhängende Darstellung der Etymologie von historischen und gegenwartssprachlichen lexikalisierten Farbwortverbindungen. Untersuchungsgegenstand sind Phraseologismen wie blauer Montag 'freier Montag, Fastnachts-, Karmontag', Gründonnerstag 'Donnerstag der Karwoche', blau sein 'betrunken sein', rot sehen 'wütend werden', satzförmige Phraseologismen wie Grün ist die Hoffnung, Phraseologismen anderer Sprachen wie ndl. Iem. eene blauwe huik omhangen 'jmd. betrügen', ndl. Blauwboekjes 'Schmähschriften', frz. conte bleu 'Lüge', Lehnübersetzungen wie blaues Blut aus span. sangre azul 'Adel' oder Blaustrumpf aus engl. blue stocking 'intellektuelle Frau' und ausgestorbene Phraseologismen wie blaue Ente 'Lüge'. Im Zentrum der Arbeit steht die Frage, wie das Farbadjektiv, ausgehend von der Gesamtbedeutung der Farbwortverbindung, zu seiner Bedeutung gekommen ist. Weshalb bedeutet blau in blauer Montag 'arbeitsfrei' und blau in blaues Blut 'adelig'? Um die Motivation von Benennungen zu erschließen, wird zunächst ermittelt, wann und in welcher Quelle sich die Bezeichnung zum erstenmal nachweisen läßt und welche Bedeutung sich aus dem Belegkontext ergibt. Anhand kulturgeschichtlicher und sprachlicher Angaben ist schließlich die Klärung der Herkunft undurchsichtig gewordener Benennungen möglich. Durch ein Wortregister kann die Arbeit als Nachschlagewerk für Farbwortverbindungen dienen. Da neben der linguistischen Analyse kulturgeschichtliche Zusammenhänge miteinbezogen werden, ist dieses Buch nicht nur für die Sprachwissenschaft, sondern auch für die Literaturwissenschaft, Volkskunde, Kunst- und Rechtsgeschichte interessant. For the first time, this book offers a coherent representation of the etymology of historical and contemporary lexicalised idioms involving colour. The investigation covers idioms such as blauer Montag, meaning 'Monday off, Monday of carnival week', Gründonnerstag, 'Thursday of Holy Week', blau sein, 'to be drunk', rot sehen, 'to get angry', idioms in sentence form such as Grün ist die Hoffnung, idioms from other languages, such as the Dutch iem. eene blauwe huik omhangen, 'to deceive someone', Blauwboekjes, 'defamatory writings', the French conte blue, 'lie', loan translations such as blaues Blut from the Spanish sangre azul meaning 'noble' or Blaustrumpf from the English blue stocking meaning 'intellectual woman' and obsolete idioms such as blaue Ente meaning a 'lie'. The work focuses on the question as to how the colour adjective went from the overall meaning of the colour word to take on its new meaning. Why does blau mean 'no work' in blauer Montag and 'noble' in blaues Blut? In order to determine the motivation of the expressions, the first stage was to ascertain when and in what source evidence of the phrase was first found, and what meaning could be deduced from the context of the document. It is then possible to clarify the origin of what are now unfathomable phrases on the basis of cultural, historical and linguistic information. There is an index which means the work can be used a source of reference for colour idioms. As there are cultural and historical contexts as well as purely linguistic analysis, this book is not only useful for language scientists, but also for the study of literature, folklore and the history of art and the law.

The Yellow Journalism Aug 01 2022 "Most notable among Hearst's competitors was The World, owned and managed by a Jewish immigrant named Joseph Pulitzer. In The Yellow Journalism, David R. Spencer describes how the evolving culture of Victorian journalism was shaped by the Yellow Press. He details how these two papers and others exploited scandal, corruption, and crime among New York's most influential citizens and its most desperate inhabitants - a policy that made this "journalism of action" remarkably effective, not just as a commercial force but also as an advocate for the city's poor and defenseless."--BOOK JACKET.

Sensationalism Apr 28 2022 David B. Sachsman and David W. Bulla have gathered a colorful collection of essays exploring sensationalism in nineteenth-century newspaper reporting. The contributors analyze the role of sensationalism and tell the story of both the rise of the penny press in the 1830s and the careers of specific editors and reporters dedicated to this particular journalistic style. Divided into four sections, the first, titled "The Many Faces of Sensationalism," provides an eloquent defense of yellow journalism, analyzes the place of sensational pictures, and provides a detailed examination of the changes in reporting over a twenty-year span. The second part, "Mudslinging, Muckraking, Scandals, and Yellow Journalism," focuses on sensationalism and the American presidency as well as why journalistic muckraking came to fruition in the Progressive Era. The third section, "Murder, Mayhem, Stunts, Hoaxes, and Disasters," features a groundbreaking discussion of the place of religion and death in nineteenth-century newspapers. The final section explains the connection between sensationalism and hatred. This is a must-read book for any historian, journalist, or person interested in American culture.

Der Totentanz (Bilder des Todes) Jan 26 2022 Der "Totentanz" des Hans Holbein aus dem 16. Jahrhundert ist der wohl bekannteste im deutschen Sprachraum. Mit den eindringlichen Holzschnitten sollte den Menschen vor Augen geführt werden, daß ein jeder dem Tod begegnen wird. Sie sollen dazu anhalten, in sich zu kehren, und ein vor Gott rechtschaffenes Leben zu führen, da niemand weiß, wann die letzte Stunde kommt.

Militarism, Imperialism, and Racial Accomodation (c) Aug 28 2019

The SAGE Encyclopedia of Journalism Jun 06 2020 Journalism permeates our lives and shapes our thoughts in ways that we have long taken for granted. Whether it is National Public Radio in the morning or the lead story on the Today show, the morning newspaper headlines, up-to-the-minute Internet news, grocery store tabloids, Time magazine in our mailbox, or the nightly news on television, journalism pervades our lives. The Encyclopedia of Journalism covers all significant dimensions of journalism, such as print, broadcast, and Internet journalism; U.S. and international perspectives; and history, technology, legal issues and court cases, ownership, and economics. The encyclopedia will consist of approximately 500 signed entries from scholars, experts, and journalists, under the direction of lead editor Gregory Borchard of University of Nevada, Las Vegas.

Global Television and the Shaping of World Politics Jun 26 2019 In 1995, United Nations Secretary-General Boutros Boutros-Ghali said of the Cable News Network, "CNN is the sixteenth member of the [15 member United Nations] Security Council." Scholars as well as diplomats have recognized the existence of a link between communications and diplomacy, but up until now the implications of this relationship have been left unexplored. This work examines the historic interconnectedness between communications and diplomacy, how communications have historically determined the practice of diplomacy, and how global television in particular can determine diplomatic outcomes under certain conditions. This work also examines the ways in which today's broadcasting will shape foreign policy processes in the future and the future impact of global television in world politics.

Yellow Journalism Nov 04 2022 This offers a detailed and long-awaited reassessment of one of the most maligned periods in American journalism-the era of the yellow press. The study challenges and dismantles several prominent myths about the genre, finding that the yellow press did not foment-could not have fomented-the Spanish-American War in 1898, contrary to the arguments of many media historians. The study presents extensive evidence showing that the famous exchange of telegrams between the artist Frederic Remington and newspaper publisher William Randolph Hearst-in which Hearst is said to have vowed to "furnish the war" with Spain-

almost certainly never took place. The study also presents the results of a systematic content analysis of seven leading U. S. newspapers at 10 year intervals throughout the 20th century and finds that some distinguishing features of the yellow press live on in American journalism.

100 Media Moments that Changed America Oct 23 2021 From the launching of America's first newspaper to YouTube's latest phone-videoed crime, the media has always been guilty of indulging America's obsession with controversy. This encyclopedia covers 100 events in world history from the 17th century to the present--moments that alone were major and minor, but ones that exploded in the public eye when the media stepped in. Topics covered include yellow journalism, the War of the Worlds radio broadcast, the Kennedy-Nixon debates, JFK's assassination, the Pentagon papers, and Hurricane Katrina. These are events that changed the way the media is used--not just as a tool for spreading knowledge, but as a way of shaping and influencing the opinions and reactions of America's citizens. Thanks to the media's representations of these events, history has been changed forever. From classified military plans that leaked out to the public to the first televised presidential debates to the current military tortures caught on tape, "100 Media Moments That Changed America" will demonstrate not only an ever-evolving system of news reporting, but also the ways in which historical events have ignited the media to mold news in a way that resonates with America's public. This must-have reference work is ideal for journalism and history majors, as well as for interested general readers. Chapters are in chronological order, beginning with the 17th century. Each chapter starts with a brief introduction, followed by media event entries from that decade. Each entry explains the moment, and then delivers specific details regarding how the media covered the event, America's response to the coverage, and how the media changed history.

Journalism Ethics Jun 30 2022 One way to be a thoughtful consumer of the news is to pay attention to the quality of the news sources you watch, listen to, and read. Good journalists follow a code of ethics when preparing and delivering news reports. Through age-appropriate language and real-life examples, this intriguing book tells young readers more about that code, why it exists, and how it's changed over the years. They'll also learn how to tell if new sources they follow adhere to it through practical examples and useful fact boxes.

Significant Aspects Of Journalism Nov 11 2020 This book contains useful knowledge and thought-provoking ideas to enlighten the writers and students of journalism. The style of the book is simple and dynamic. It contains a high standard of information that may be particularly beneficial to reporters, editors, producers and publishers and for the public generally. It may also be useful for those who may be considering journalism as a career. The book covers almost all important aspects of journalism and may prove a road map in this field and assist professionals in career transition and achieving goals in journalism. This book sees journalism from a fresh perspective. It throws light on the functions and liabilities of the journalists in particular and the others in general. It views journalism from traditional as well as modern point of view and discusses several issues of journalism in the 21st century. Basically the book discusses significant aspects of journalism. The book deals with complex issues and tries to resolve certain journalistic complexities. The book may prove useful for professional as well as immature writers and may help them to achieve their goals in journalism. One of the major objectives of this book is to guide readers about the basic principles of journalism. Basically, the book is about functional and practical journalism. Efforts have been made to make this book a source of aspiration for journalists. The publisher and the author would like to receive suggestions from the readers for any improvements. It is hoped that book will be useful for those who are interested in journalism and it will have its impact on human society. It is expected the book will prove a masterpiece in the history of journalism. We acknowledge the assistance and appreciation of all

those who obliged the author by their knowledge in this wide-ranging work.

Joseph Pulitzer Sep 29 2019 Examines the life and career of Joseph Pulitzer, the newspaper editor who crusaded against corruption, established the Pulitzer Prize, and founded the Columbia School of Journalism.

Encyclopedia of American Journalism Feb 12 2021 The Encyclopedia of American Journalism explores the distinctions found in print media, radio, television, and the internet. This work seeks to document the role of these different forms of journalism in the formation of America's understanding and reaction to political campaigns, war, peace, protest, slavery, consumer rights, civil rights, immigration, unionism, feminism, environmentalism, globalization, and more. This work also explores the intersections between journalism and other phenomena in American Society, such as law, crime, business, and consumption. The evolution of journalism's ethical standards is discussed, as well as the important libel and defamation trials that have influenced journalistic practice, its legal protection, and legal responsibilities. Topics covered include: Associations and Organizations; Historical Overview and Practice; Individuals; Journalism in American History; Laws, Acts, and Legislation; Print, Broadcast, Newsgroups, and Corporations; Technologies.

The Rose Man of Sing Sing: A True Tale of Life, Murder, and Redemption in the Age of Yellow Journalism Sep 21 2021 Today, seventy-three years after his death, journalists still tell tales of Charles E. Chapin. As city editor of Pulitzer's New York Evening World, Chapin was the model of the take-no-prisoners newsroom tyrant: he drove reporters relentlessly-and kept his paper in the center ring of the circus of big-city journalism. From the Harry K. Thaw trial to the sinking of the Titanic, Chapin set the pace for the evening press, the CNN of the pre-electronic world of journalism. In 1918, at the pinnacle of fame, Chapin's world collapsed. Facing financial ruin, sunk in depression, he decided to kill himself and his beloved wife Nellie. On a quiet September morning, he took not his own life, but Nellie's, shooting her as she slept. After his trial-and one hell of a story for the World's competitors-he was sentenced to life in the infamous Sing Sing Prison in Ossining, New York. In this story of an extraordinary life set in the most thrilling epoch of American journalism, James McGrath Morris tracks Chapin's rise from legendary Chicago street reporter to celebrity powerbroker in media-mad New York. His was a human tragedy played out in the sensational stories of tabloids and broadsheets. But it's also an epic of redemption: in prison, Chapin started a newspaper to fight for prisoner rights, wrote a best-selling autobiography, had two long-distance love affairs, and tapped his prodigious talents to transform barren prison plots into world-famous rose gardens before dying peacefully in his cell in 1930. The first portrait of one of the founding figures of modern American journalism, and a vibrant chronicle of the cutthroat culture of scoops and scandals, *The Rose Man of Sing Sing* is also a hidden history of New York at its most colorful and passionate. James McGrath Morris is a former journalist, author of *Jailhouse Journalism: The Fourth Estate Behind Bars*, and a historian. He lives in Falls Church, Virginia, and teaches at West Springfield High School.

The Invention of Journalism Ethics, Second Edition Apr 16 2021 Does objectivity exist in the news media? In *The Invention of Journalism Ethics*, Stephen Ward argues that given the current emphasis on interpretation, analysis, and perspective, journalists and the public need a new theory of objectivity. He explores the varied ethical assertions of journalists over the past few centuries, focusing on the changing relationship between journalist and audience. This historical analysis leads to an innovative theory of pragmatic objectivity that enables journalists and the public to recognize and avoid biased and unbalanced reporting. Ward convincingly demonstrates that journalistic objectivity is not a set of absolute standards but the same fallible but reasonable objectivity used for making decisions in other professions and public institutions. Considered a

classic in the field since its first publication in 2004, this second edition includes new chapters that bring the book up to speed with journalism ethics in the twenty-first century by focusing on the growing dominance of online journalism and calling for a radical approach to journalism ethics reform. Ward also addresses important developments that have occurred in the last decade, including the emergence of digital journalism ethics and global journalism ethics.

William Randolph Hearst: Newspaper Magnate Oct 30 2019 This title examines the remarkable life of William Randolph Hearst and the building of his newspaper legacy. Readers will learn about Hearst's background and education, as well as his innovation of newspapers, his political pursuits, and the Hearst empire today. Color photos, detailed maps, and informative sidebars accompany easy-to-read, compelling text. Features include a timeline, facts, additional resources, web sites, a glossary, a bibliography, and an index. Publishing Pioneers is a series in Essential Library, an imprint of ABDO Publishing Company.

The Year That Defined American Journalism Feb 24 2022 The Year that Defined American Journalism explores the succession of remarkable and decisive moments in American journalism during 1897 – a year of significant transition that helped redefine the profession and shape its modern contours. This defining year featured a momentous clash of paradigms pitting the activism of William Randolph Hearst's participatory 'journalism of action' against the detached, fact-based antithesis of activist journalism, as represented by Adolph Ochs of the New York Times, and an eccentric experiment in literary journalism pursued by Lincoln Steffens at the New York Commercial-Advertiser. Resolution of the three-sided clash of paradigms would take years and result ultimately in the ascendancy of the Times' counter-activist model, which remains the defining standard for mainstream American journalism. The Year That Defined American Journalism introduces the year-study methodology to mass communications research and enriches our understanding of a pivotal moment in media history.

An Adventure with a Genius Jul 20 2021 Recollections of Joseph Pulitzer

Pursuing an Ethic of Empathy in Journalism Jan 14 2021 This book advances a journalistic theory of empathy, challenging long-held notions about how best to do journalism. Because the institution of journalism has typically equated empathy and compassion with bias, it has been slow to give the intelligence of the emotions a legitimate place in the reporting and writing process. Blank-Libra's work locates the point at which the vast, multidisciplinary research on empathy intersects with the work of the journalist, revealing a reality that has always been so: journalists practice empathy as a way to connect but also as a form of inquiry, as sincere and legitimate in its goals and aspirations as is objectivity.
