**How the Internet Works for Kids** Apr 27 2022 'Mom, what's the Internet?' Imagine yourself doing your monthly household budget one evening when your four-year-old daughter suddenly walks in asking you that. At that moment, you're busy trying to figure out why you've had more credits than debits on your balance sheet. You felt that your brain is about to short-circuit. And it's past her bedtime.' John Noah Mason Smith, you're forgetting that you're talking to a 60-year-old.' Your grandma calls you because she wants to learn how to use the Internet. You explain that it's not easy to teach that over the phone. It has to wait until you come over for Thanksgiving. She vehemently insists. You ask why. She tells you that she's heard about Tinder. And she wants her own account. Now. As you can imagine, explaining what social media is to a child or to a senior can, in itself, be challenging. How much more if you're asked to explain the Internet as a whole? Through this eBook, you'll encounter tons of metaphors that can help you do exactly that. From the seemingly out-of-this-world concept of the cloud, to how letter gets delivered without paper, to how a person's face ends up on a computer monitor, this eBook will showcase examples as models for explanation for the innocent young ones to the tenured baby boomer and Gen Xers. In the end, you'll realize that while you're aware of the technological gap that exists between generations, you won't really feel how significant that is until you're faced in a situation where you have to explain things to the unknowing. Now, please take note that not all of the discussions and examples offered in this eBook may be suitable for a child or a senior. Learning is still subjective and contextual so there may be times that you will be required to be creative. What this eBook intends to do is to just show you some metaphorical examples of how to answer those simple questions that are tough to answer if your audience is not technologically savvy like you.

NurtureShock Jun 05 2020 In a world of modern, involved, caring parents, why are so many kids aggressive and cruel? Where is intelligence hidden in the brain, and why does that matter? Why do cross-racial friendships decrease in schools that are more integrated? If 98% of kids think lying is morally wrong, then why do 98% of kids lie? What's the single most important thing that helps infants learn

language? NurtureShock is a groundbreaking collaboration between award-winning science journalists Po Bronson and Ashley Merryman. They argue that when it comes to children, we've mistaken good intentions for good ideas. With impeccable storytelling and razor-sharp analysis, they demonstrate that many of modern society's strategies for nurturing children are in fact backfiring--because key twists in the science have been overlooked. Nothing like a parenting manual, the authors' work is an insightful exploration of themes and issues that transcend children's (and adults') lives.

*Latin for Kids* Oct 29 2019 This book teaches Latin the traditional way - in a highly non-traditional presentation. Every page is bursting with color and overflowing with funny illustrations, silly humor, surprise captions, and recurring Latin-speaking animal characters and Roman statues. The book is for kids, but... - if you are a college student terrified of Latin, grab this book, and relax. You won't be lost in an endless desert of conjugation charts and exclusions from exclusions... The dialogues will not feature boring Roman farmers, soldiers, or sailors - yawn! I'll keep you smiling at a lazy Roman school kid, his nasty teacher, a unicorn, a princess, and some barbarians about to sack Rome - our kind of environment! No pain figuring out long and short syllables - I mark stress in all more-than-two-syllable words, so give it a try! - if you are a grownup curious - for whatever reason - about Latin, grab the book! It's your soft landing - be it in Ancient Rome, or at a Latin mass! Worth trying. Full disclosure: I have a stake in this game. I wrote this book to teach Latin to my 9-year-old son. I don't think he'll grow up a scholar like me, but here are the reasons why I want my kid, you, and your kids to know at least some Latin: 1. Up to 90% of multi-syllable words in English are of Latin origin. Latin will make our kids comfortable with long/important/scary words. They won't bat an eyelash when they hear "ostentatious" or "edifice." Once they have learned the Latin verb "scire" - "to know," they won't make mistakes spelling "science"! 2.

French, Italian, Spanish, Portuguese - these are poor relatives of Latin. If you have some basic knowledge of Latin, all Romance languages are a piece of cake. I've never learned a word of Spanish, but I understand it quite well. Hurrah for ancient Romans! In this book I offer quite a bit of spoken Latin - for play. Kids may enjoy playing "Ancient Rome," or mess with a language nobody around them understands. But our real goal is not Latin conversation. The real goal is fully mobilizing our passive knowledge of Latin: - the ability to recognize and understand Latin roots, prefixes and suffixes in English words of Latin origin; - the ability to competently use terms of Latin origin in fields such as law, politics, medicine, science, and more; - the ability to understand and correctly use Latin sayings, historical quotes, and mottos - as elements of European cultural heritage. Material: Introduction to Latin Grammar - noun and adjective declension: Nominative, Genitive, Dative, Accusative, Ablative and Vocative cases - singular and plural in all five declensions; - adjectives - comparative and superlative degrees; - pronouns - most widely used forms; - use of cases with common prepositions (in, a/ab, ad, e/ex, inter, cum, per, and more); - verb conjugations in Indicative Present, Past Perfect, Past Imperfect, and Indicative Future; - Imperative Mood; - Past Participle; - Accusativus cum Infinitivo; - Instrumental Ablative Case; - conjugation of frequently used irregular verbs, such as esse, posse, velle, nolle, ire, and others. All grammatical explanations are richly illustrated with level-appropriate Latin sayings and proverbs and accompanied with conversational exercises. Vocabulary development - Whenever we learn new Latin words, I list modern English words related to our Latin vocabulary. - Proverbia et Dicta: In every lesson I suggest 2-3 Latin expressions or phrases - from either Classical or Church Latin - for memorization. - The book offers nine collections of terms (with Latin etymology) from Law, Science, Medicine, Government and Civics, and more. Practice, or homework, sections include translation from English to Latin and 2-3 engaging kid-friendly texts for reading: Familia Romana, Schola, famous mottos and sayings, and Church Latin texts, such as the Lord's Prayer, Glory Be, Adeste Fideles, and a few bits from the Latin Mass.

**Kids' Club Letters** Feb 11 2021 Kids' Club Letters provides an innovative approach to group psychotherapy for school-aged children who experience a range of social and emotional problems. A narrative therapy approach is adapted, taking the form of letters written by the therapist in the voice of a child who is asking for advice about interpersonal or emotional problems. The child in the letter is asking for guidance from the participants in the group. These letters were devised and written for the purpose of structuring responses in group psychotherapy, allowing the participants to address relevant issues for them individually and at the group level. The children in the groups had previously experienced difficulty discussing these issues spontaneously. Hence the 'Dear Group' letter format was born. The children did not know that the therapist had written the letters.

**Surprise Yourself!** Aug 08 2020 The innovative writing ideas in Surprise Yourself! are an adventure for both teachers and students.

Designed to stimulate imagination and celebrate language, these lessons come from Mary Lee's long career as poet, writer and teacher. "My favorite challenge is the child who says he doesn't like to write. By my third session I can't stop him. It's wonderful to see his pencil fly." Each of the forty exercises take about an hour, including discussion time, examples from Mary Lee's own work-or other "grown up" sources-and examples from her students, so children will be inspired by their peers. Surprise Yourself! is an excellent supplement to the language arts curriculum for classroom teachers, home school parents and after school programs. In writing we not only communicate with others but learn to better understand ourselves. The skills children acquire from this book will help them become more proficient writers and serve them throughout their lives. "Excellent! I love the format. The lessons are very explicit." -Roz Thrapp, North Fork Elementary School "Wonderful exercises that I use endlessly, teaching poetry in the Bronx Public Schools." -Katherine Leiner, award winning author of thirteen children's books, including Mama Does the Mambo

*Raising Musical Kids* Jan 13 2021 Does music make kids smarter? At what age should a child begin music lessons? Where should you purchase an instrument? What should parents expect from a child's teachers and lessons? How can you get kids to practice? Raising Musical Kids answers these and many other questions as it guides parents through everything from assembling a listening library for kids, to matching a child's personality with an instrument's personality, to finding musical resources in your community. Knowing that children can—and often do—get most of their music education from their school, parent and educator Robert Cutietta explores the features and benefits of elementary and secondary school programs, and shows how parents can work with the schools to provide the best possible music program. Throughout the book, Cutietta emphasizes the joy of participating in music for its own sake. The first edition of Raising Musical Kids delighted and informed parents to equal degrees, and this fully-revised second edition is a book that parents everywhere will treasure as a complete road map for developing their child's musical abilities.

**My Next Phase** Jul 27 2019 Too many people 'flunk' retirement--even after a lifetime of hard work. Why? Because they only plan on their financial needs, not their emotional ones as they move into the next phase of life. The key to a successful retirement lies in your personality, NOT in your bank account. *My Next Phase*--featured in *The New York Times*, *BusinessWeek*, and *The Washington Post*--offers a revolutionary, step-by-step process to figure out your personal "Retirement Style" and creates a unique retirement plan based on who you are. Take the *My Next Phase* quizzes and find out: WHAT'S YOUR SOCIAL STYLE? If you're outgoing, you'll need companionship through your days, whether you leave your job or keep working. If you're contemplative, you'll need solitude as well as social connection to find the fulfillment in the years ahead. WHAT'S YOUR STRESS STYLE? If you're resilient, you'll push yourself to find challenge--and get bored without it. If you're responsive, you'll need to pace yourself. Either way, you'll need a passion that gives you a reason to get out of bed each day. WHAT'S YOUR PLANNING STYLE? If you're structured, you'll prefer to schedule your time. If you're flexible, you'll want a freer, less scheduled life. And many more questions (and answers) to ensure a happy, fulfilling 'next phase' of life.

**Viduy Booklet for Kids** May 17 2021 The purpose of this booklet is to make the entire Viduy tefilah accessible to children ages 9-16, for whom reading the English translation in the machzor would not sufficiently explain the meaning of the words. Written in easy-to-understand language and with examples that are applicable to children's lives, this booklet will make the Yom Kippur davening more meaningful and relevant to children of all ages. PRAISE FOR "VIDUY BOOKLET FOR KIDS": In preparing this "Viduy Booklet for Kids", Morah Adina Broder creates a highly readable, child-friendly guide to the Yom Kippur Viduy that will surely enhance young people's understanding and kavanah (intention) when reciting the viduy that recurs so many times during the Yom Kippur service. As an educator par excellence, who touches the

heartstrings as well as teaches, Morah Broder brings both an age-appropriate sensitivity to the text and its meaning, as well as concrete examples from the everyday lives of students, that will surely resonate with young people when they use the Booklet as a learning tool and especially as a companion to the Machzor. I hope that it will be used by both schools and parents. - Mrs. Rookie Billet, Shulamith School for Girls, MD Principal I have been shown a draft of "Viduy Booklet for Kids," organized and presented by Mrs. Adina Broder. Viduy is not only a challenging mitzva for us all, it is the centerpiece and anchor for the entire Yom Kippur davening. Mrs. Broder has done a tremendous service to our youth , by opening up to them much of the rabbinic concepts expressed in our viduy. She tries to capture the idea behind each line, with a focus on having practical teshuva messages for our children and grandchildren. May this booklet instill deep feelings of repentance in both young and old, and may we all merit to return to Hashem with all our heart. - Rabbi Shalom Rosner, Rav Nofei Hashemesh
