Working with Vulnerable Children, Young People and Families Mar 14 2021 The potential for early intervention to prevent social problems later in life has become the focus of much debate in recent years and finds itself at the centre of contemporary social policy. The meaning of 'vulnerability' - one of the key concepts in this drive - is examined in this book, as well as the relationship between vulnerability and the individual, communities and society. This book introduces students to a broad debate around what constitutes vulnerability and related concepts such as risk and resilience, and examines how vulnerability has been conceptualised by policy makers with a clear focus on early intervention. Adopting a case study approach, it opens with chapters examining the concept of vulnerability from sociological, psychological and social policy perspectives before looking at examples around disability, homelessness, leaving care, victims of violence, sexual abuse, prison, the Internet and drug use. Supporting students in engaging with and evaluating the conceptualisation and application of vulnerability in professional practice, this book is suitable for anyone either preparing for or currently working within the children's workforce, from social work and health care to education and youth work.

Key Management Deployment Guide: Using the IBM Enterprise Key Management Foundation Oct 01 2022 In an increasingly interconnected world, data breaches grab headlines. The security of sensitive information is vital, and new requirements and regulatory bodies such as the Payment Card Industry Data Security Standard (PCI-DSS), Health Insurance Portability and Accountability Act (HIPAA), and Sarbanes-Oxley (SOX) create challenges for enterprises that use encryption to protect their information. As encryption becomes more widely adopted, organizations also must contend with an ever-growing set of encryption keys. Effective management of these keys is essential to ensure both the availability and security of the encrypted information. Centralized management of keys and certificates is necessary to perform the complex tasks that are related to key and certificate generation, renewal, and backup and recovery. The IBM® Enterprise Key Management Foundation (EKMF) is a flexible and highly secure key management system for the enterprise. It provides centralized key management on IBM zEnterprise® and distributed platforms for streamlined, efficient, and secure key and certificate management operations. This IBM Redbooks® publication introduces key concepts around a centralized key management infrastructure and depicts the proper planning, implementation, and management of such a system using the IBM Enterprise Key Management Foundation solution.

Key Qualifications in Work and Education Apr 02 2020 In today's rapidly changing world a constant renewal of knowledge and skills in every human endeavour can be observed. The characteristics of workers and the jobs that they perform have been attended by technological, social, and political change on a global scale. New forms of employment have made work more

mobile to an extent never experienced before. An increasing proportion of workers no longer need come to their employer's job site in order to do their work. The instability of employment is creating a new breed of workers who know how to move efficiently from one job to another. As a consequence workers need flexible qualifications to perform jobs. Key qualifications are the answer! Key qualifications provide the key to rapid and effective acquisition of new knowledge and skills. First, qualifications enable workers to react effectively to, and exercise initiative in, changes to their work. Second, qualifications enable workers to shape their own career in a time of diminishing job security, nowadays frequently defined as 'employability'.

Introducing Bruner Dec 11 2020 Sandra Smidt takes the reader on a journey through the key concepts of Jerome Bruner, a significant figure in the field of early education whose work has spanned almost a century. His wide-ranging and innovative principles of early learning and teaching are unpicked here using everyday language and the links between his ideas and those of other key thinkers of the twentieth and twenty-first centuries are revealed. *Introducing Bruner* is the companion volume to *Introducing Vygotsky* and is an invaluable work for anyone involved with children in the early years. The introduction of Bruner's key concepts is followed by discussion of the implications of these for teaching and learning. This accessible text is illustrated throughout with examples drawn from real-life early years settings and the concepts discussed include: how children acquire language how children come to make sense of their world through narrative the significance of play to learning the importance of culture and context the role of memory what should children be taught: the spiral curriculum how should children be taught: scaffolding and interaction. The book also looks, crucially, at what those working or involved with young children can learn from Bruner, and includes a helpful glossary of terminology. Es zeigt die ungeschminkte Wahrheit über das Leben auf einem Segelboot und all die Probleme die auftauchen können, auch wenn man vorher glaubt, alles bedacht zu haben. Es geht um das "Blauwassersegeln" und zeigt die Dinge auf, die wirklich passieren. Nach dem Motto: "Fahrtensegeln heißt, in den paradiesischsten Buchten, das Boot zu reparieren" Es zeigt die Gefahren auf, wo man zeitweise froh ist, eine Schrotflinte an Bord zu haben, auch wenn manche davon abraten. Es zeigt das lange Abwarten auf ein Wetterfenster, und abwettern bei Sturm und Schutz suchen vor Hurrikans. Ein Muß, für alle Diejenigen, die es mal vorhaben und trotz Situationen in den letzten 20 Jahren, wo man glaubt es geht nicht mehr, möchten wir keine Stunde davon missen. Trotz geringer finanzieller Mitteln, haben wir unsere Pläne umgesetzt und uns nicht davon abhalten lassen und konnten unseren Traum leben. Dieses Leben war teilweise beschwerlich und mit Einschränkungen, da man zum Beispiel vieles nicht so einfach im nächsten Geschäft zu kaufen bekommt, wie wir es hier in Österreich gewohnt sind. Dieses Buch zeigt Einblicke in andere Kulturen, da wir dort gelebt haben und nicht nur Urlaub gemacht haben.

Warum wir arbeiten Aug 26 2019 Der Psychologieprofessor Barry Schwartz findet in seinem TED-Book ›Warum wir arbeiten‹ eine ganz überraschende, komplexe und eindringliche Antwort auf diese auf den ersten Blick so simple Frage. Er zerstört den Mythos, dass es bei der Arbeit nur ums Geldverdienen gehe und fordert - unterstützt durch zahlreiche Studien und Anekdoten -, dass wir neue Wege finden müssen, um unser Verhältnis zur Arbeit neu zu definieren. Schwartz nimmt uns mit in Krankenhäuser und Friseursalons, Fabriken und Vorstandsetagen und zeigt, welche unterschiedlichen Formen die Arbeit annehmen kann, welche Funktion sie für unsere Kultur innehat und wie jeder von uns seinen eigenen Weg zum Glück am Arbeitsplatz findet.

Stepping Out of the Brain Drain Jul 18 2021 Catholic social teaching's traditional opposition to 'brain drain' migration from developing to developed countries is due for a reassessment. Stepping Out of the Brain Drain provides exactly this, as it demonstrates that both the economic and the ethical rationales for the teaching's opposition to 'brain drain' have been undermined in recent years, and shows how the adoption of a less critical policy could provide enhanced opportunities for poor countries to accelerate their economic development.

Women, Work, and Globalization Dec 23 2021 Women increasingly make up a significant percentage of the labor force throughout the world. This transformation is impacting everyone's lives. This book examines the resulting gender role, work, and family issues from a comparative worldwide perspective. Working allows women to earn an income, acquire new skills, and forge social connections. It also brings challenges such as simultaneously managing domestic responsibilities and family relationships. The social, political, and economic implications of this global transformation are explored from an interdisciplinary perspective in this book. The commonalities and the differences of women's experiences depending on their social class, education, and location in industrialized and developing countries are highlighted throughout. Practical implications are examined including the consequences of these changes for men. Engaging vignettes and case studies from around the world bring the topics to life. The book argues that despite policy reforms and a rhetoric of equality, women still have unique experiences from men both at work and at home. Women, Work, and Globalization explores: Key issues surrounding work and families from a global cross-cultural perspective. The positive and negative experiences of more women in the global workforce. The spread of women's empowerment on changes in ideologies and behaviors throughout the world. Key literature from family studies, IO, sociology, anthropology, and economics. The changing role of men in the global work-family arena. The impact of sexual trafficking and exploitation, care labor, and transnational migration on women. Best practices and policies that have benefited women, men, and their families. Part 1 reviews the research on gender in the industrialized and developing world, global changes that pertain to women's gender roles, women's labor market participation, globalization, and the spread of the women's movement. Issues that pertain to women in a globalized world including gender socialization, sexual trafficking and exploitation, labor migration and transnational motherhood, and the complexities entailed in care labor are explored in Part 2. Programs and policies that have effectively assisted women are explored in Part 3 including initiatives instituted by NGOs and governments in developing countries and (programs) policies that help women balance work and family in industrialized countries. The book concludes with suggestions for global initiatives that assist women in balancing work and family responsibilities while decreasing their vulnerabilities. Intended as a supplemental text for advanced undergraduate and/or graduate courses in Women/Gender Issues, Work and Family, Gender and Families, Global/International Families, Family Diversity, Multicultural Families, and Urban Sociology taught in psychology, human development and family studies, gender and/or women's studies, business, sociology, social work, political science, and anthropology. Researchers, policy makers, and practitioners in these fields will also appreciate this thought provoking book.
