Complementarity, Catalysts, Compliance Aug 06 2020 Since its establishment at the turn of the century, a central preoccupation of the International Criminal Court (ICC) has been to catalyse the pursuit of criminal accountability at the domestic level. Drawing on ten years of research, this book theorizes the ICC's principle of complementarity as a transnational site and adaptive strategy for realizing an array of ambitious governance goals. Through a grounded, inter-disciplinary approach, it illustrates how complementarity came to be framed as a "catalyst for compliance" and its unexpected effects on the legal frameworks and institutions of three different ICC "situation countries" in Africa: Uganda, Kenya, and the Democratic Republic of Congo. Linking complementarity's law and practice to contemporary debates in international law and relations, the book unsettles international law's dominant progressive narrative. It urges a critical rethinking of the ICC's politics and a reorientation towards international criminal justice as a project of global legal pluralism.

Central-Local Relations in Asian Constitutional Systems Sep 26 2019 This book examines territorial governance in Asia in the context of central-local relations. In an era of attempts to deal with issues such as decentralisation, conflict involving ethnic and religious enclaves, and demands for regional autonomy, it is timely to examine central-local relations in a pan-Asian perspective, assessing the attempts in a range of different constitutional systems from Japan to Myanmar to re-order constitutional structures for local government. The book looks at the constitutional systems for organising central-local relations in Asia and attempts to draw conclusions from contemporary experiences.

Martin Luther King Jan 11 2021 This book explores the significance of Dr Martin Luther King Jr. 'I have a dream' speech and the continued legacy to education and academia demonstrated through the study of his

life, achievements, works and ultimate assassination, which are included in social studies and history as part of the curriculum. There are lessons to be learned from his speech about access, success and progression to and from education at all levels. The influence of religion is a key feature that is manifested through social inclusion and tolerance which if considered from an academic perspective results in achievement. From peaceful demonstration and humble engagement with authorities, King made a mark that would be referenced 50 years later in all areas of academia from teaching young people about his life and achievements to equality, rights and tolerance, reflected throughout this book. The impact of prejudice, discrimination and segregation addressed by King's campaign which through adversity resulted in the passing of the Civil Rights Bill in the USA supported the non-political rights of all citizens is discussed. All of these concepts influence perception and realistic possibilities in the quest for people from all walks of society to access and benefit from education, which is explored. What motivated King to speak out and selflessly address the rights of the underprivileged, Black and White putting at risk his liberty and ultimately his life? King's speech is considered and associated with current issues faced by the people that are socially excluded. The struggle for social equality is considered with a focus on the impact of exclusion from education that demonstrates the need for a dream that gives hope to current and future generations that suggests that education can be accessed and lead to academic success.

*University-Community Partnerships for Promoting Social Responsibility in Higher Education Jun 27 2022* This book provides empirical evidence on how universities have considered social responsibilities as their prime focus, and engaged with civil society to enhance their values. *Strategies for Team Science Success Mar 13 2021* Collaborations that integrate diverse perspectives are critical to addressing many of our complex scientific and societal problems. Yet those engaged in cross-disciplinary team science often face institutional barriers and collaborative challenges. *Strategies for Team Science Success* offers readers a comprehensive set of actionable strategies for reducing barriers and overcoming challenges and includes practical guidance for how to implement effective team science practices. More than 100 experts--including scientists, administrators, and funders from a wide range of disciplines and professions-- explain evidence-based principles, highlight state-of-the-art strategies, tools, and resources, and share first-person accounts of how they've applied them in their own successful team science initiatives. While many examples draw from cross-disciplinary team science initiatives in the health domain, the handbook is designed to be useful across all areas of science. *Strategies for Team Science Success* will inspire and enable readers to embrace cross-disciplinary team science, by articulating its value for accelerating scientific progress, and by providing practical strategies for success. Scientists, administrators, funders, and others engaged in team science will also leave equipped to develop new policies and practices needed to keep pace in our rapidly changing scientific landscape. Scholars across the Science of Team Science (SciTS), management, organizational, behavioral and social sciences, public health, philosophy, and information technology, among other areas of scholarship, will find inspiration for new research directions to continue advancing cross-disciplinary team science.

*Resources, Social and Cultural Sustainabilities in the Arctic Dec 22 2021* This book focuses on the understudied social and cultural dimensions of sustainability in the Arctic. More specifically, it explores these thematics through paying attention to resources in different definitions and forms and the ways in which they entangle in the realities and expectations of social and cultural sustainability in the region. The book approaches resources as socially and culturally constructed and also draws attention to social, human and cultural capabilities and the roles they have in making and shaping the imaginaries of sustainability. Together, this volume and its case studies contribute to a broadened understanding of the interplay of natural and material resources and social and cultural capabilities as well as their discursive framings. This multidisciplinary text includes contributions from political sciences, sociology, gender studies, regional studies, economics and art research. With its wide range of conceptually informed case studies, the book is relevant for researchers and professionals as well as advanced students and for institutions and organizations offering education in Arctic affairs.

*Student Politics in Africa Nov 08 2020* The second volume of the African Higher Education Dynamics Series brings together the research of an international network of higher education scholars with

interest in higher education and student politics in Africa. Most authors are early career academics who teach and conduct research in universities across the continent, and who came together for a research project and related workshops and a symposium on student representation in African higher education governance. The book includes theoretical chapters on student organising, student activism and representation; chapters on historical and current developments in student politics in Anglophone and Francophone Africa; and in-depth case studies on student representation and activism in a cross-section of universities and countries. The book provides a unique resource for academics, university leaders and student affairs professionals as well as student leaders and policy-makers in Africa and elsewhere.

*Social policy in a cold climate* Mar 01 2020 *Social Policy in a Cold Climate* offers a data-rich, evidence-based analysis of the impact Labour and coalition government policies have had on inequality and on the delivery of services such as health, education, adult social care, housing and employment in the wake of the greatest recession of our time. The authors provide an authoritative and unflinching analysis of recent approaches to social policy and their outcomes following the financial crisis, with particular focus on poverty and inequality. Through a detailed look at spending, outputs and outcomes the book offers a unique appraisal of Labour and the coalition's impact as well as an insightful assessment of future directions. This volume offers a much-awaited follow-up to the critically acclaimed 'A more equal society?' (2005) and 'Towards a more equal society?' (2009).

*Social Investment and Social Welfare* Feb 21 2022 This book contributes to the growing literature on social investment by discussing the way social investment ideas have been adopted in different countries and in various academic and professional fields, including social policy, development studies and non-profit management. *Education and Caste in India* Apr 01 2020 Seven decades since Indian Independence, education takes the centre stage in every major discussion on development, especially when we talk about social exclusion, Dalits and reservations today. This book examines social inclusion in the education sector in India for Scheduled Castes (SCs). The volume: · Foregrounds the historical struggles of the SCs to understand why the quest for education is so central to shaping SC consciousness and aspirations; · Works with exhaustive state-level studies with a view to assessing commonalities and differences in the educational status of SCs today; · Takes stock of the policymaking and extent of implementations across Indian states to understand the challenges faced in different scenarios; · Seeks to analyse the differential in existing economic conditions, and other structural constraints, in relation to access to quality educational facilities; · Examines the social perceptions and experiences of SC students as they live now. A major study, the volume will be of great interest to scholars and researchers of education, sociology and social anthropology, development studies and South Asian studies.

*Academic Integrity in Canada* Aug 18 2021 This open access book presents original contributions and thought leadership on academic integrity from a variety of Canadian scholars. It showcases how our understanding and support for academic integrity have progressed, while pointing out areas urgently requiring more attention. Firmly grounded in the scholarly literature globally, it engages with the experience of local practitioners. It presents aspects of academic integrity that is specific to Canada, such as the existence of an "honour culture", rather than relying on an "honour code". It also includes Indigenous voices and perspectives that challenge traditional understandings of intellectual property, as well as new understandings that have arisen as a consequence of Covid-19 and the significant shift to online and remote learning. This book will be of interest to senior university and college administrators who are interested in ensuring the integrity of their institutions. It will also be of interest to those implementing university and college policy, as well as those who support students in their scholarly work.

*Economic Development under Climate Change* Aug 30 2022 Amsalu Woldie Yalew attempts to address the direct and indirect economic effects of climate change, adaptation costs, and adaptation finance in developing countries with emphasis to Ethiopia using a static computable general equilibrium (CGE) model coupled with a regional module. The results show that the economy-wide effects of climate change are profound. Planned public adaptation that aims to fully neutralize climate change-induced agricultural productivity shocks may help to avert the aggregate effects but with residual effects. The results also indicate that structural change underpins climate-resilient development as it contributes to dampen the adverse consequences of climate change on aggregate GDP and households' welfare.

*Sport Policy and Politics in an Era of Austerity* Oct 08 2020 Austerity is perhaps the major challenge of our times, given the speed at which it arrived and the consequences of its impact upon society. The global financial crash and economic downturn was the catalyst for change and, against a backdrop of advice from experts adverse to Keynesian economics, the ideology of austerity grew and became the dominant thinking to steer economies out of recession. This comprehensive volume draws upon both quantitative and qualitative research methodologies to provide a varied and contextually rich insight into sport, policy, and politics in an era of austerity. The authors cover a wide range of issues in a variety of organisational contexts and geographies, including sports participation across different

socio-demographic groups; the impact of austerity on the provision of community sports; disability sport; public management of sport facilities; the performance of public sport facilities with respect to access, finance, utilisation, and customer satisfaction; the potential impact of austerity on sport for development; elite sport; and social inclusion and poverty. This book makes a significant contribution to the current academic debate, while raising important considerations for policymakers and managers. It was originally published as a special issue of *The International Journal of Sport Policy and Politics*.

*Social Inequalities and Discontent in Yugoslav Socialism* Jul 17 2021 Socialist countries like Yugoslavia garnered legitimacy through appealing to social equality. Yet social stratification was characteristic of Yugoslav society and increased over the course of the state's existence. By the 1980s the country was divided on socio-economic as well as national lines. Through case studies from a range of social milieux, contributors to this volume seek to 'bring class back in' to Yugoslav historiography, exploring how theorisations of social class informed the politics and policies of social mobility and conversely, how societal or grassroots understandings of class have influenced politics and policy. Rather than focusing on regional differentiation between Yugoslav republics and provinces the emphasis is placed on social differentiation and discontent within particular communities. The contributing authors of these historical studies come from diverse disciplinary backgrounds, linking scholarship from the socialist era to contemporary research based on accessing newly available primary sources. Voices of a wide spectrum of informants are included in the volume; from factory workers and subsistence farmers to fictional television characters and pop-folk music superstars.

*Invisible Atrocities* Sep 06 2020 This book assesses the role aesthetic factors play in shaping what forms of mass violence are viewed as international crimes.

*Building Performance Evaluation* Apr 25 2022 The main aim of this book is to present an intriguing retrospective of Building Performance Evaluation (BPE) as it evolved from Post-Occupancy Evaluation (POE) over the past 25 years. On one hand, this is done by updating original authors' chapter content of Building Evaluation, the first edition published in 1989. That, in turn, is augmented by an orientation toward current and future practice on the other, including new authors who are engaged in ongoing, cutting edge projects. Therefore, individual, methodology oriented chapters covering the fundamental principles of POE and BPE go along with major thematic chapters, topics of which like sustainability or integration of new technologies are addressed in a diversity of case studies from around the globe. Research, methodologies, and framework of POEs continue to evolve. POEs are one step, on the larger scale of BPE, in understanding how buildings function after they are occupied. This resource helps architects, building owners, and facility managers understand the implications and reactions to the facilities that they designed, built and/or commissioned. By considering the whole process from conception to future uses of the building, there can be a more holistic approach to the planning, programming, design, construction, occupancy, and future adaptability of the structure. This book is dedicated to first editor Wolfgang F. E. Preiser who passed away during the process of editing and reviewing chapters of this volume.

*Dublin Oldschool* Dec 30 2019 Epic. In small ways. Jason, a wannabe DJ, is making his way through the streets of Dublin on a chemically enhanced trip, stumbling from one misguided misadventure to another. Somewhere between the DJs, decks, drug busts and hilltop raves, he stumbles across a familiar face from the past: his brother, Daniel. Daniel is an educated, homeless addict, living on the streets of Dublin. The brothers haven't seen or spoken to each other in three years but over a lost weekend they reconnect and reminisce over tunes, trips, their history and their city. Two brothers living on the edge, perhaps they have more in common than they think, but how long can this buzz last? This programme text edition of *Dublin Oldschool* was published to coincide with the revival of the play at the Project Arts Centre, Dublin, on 11 January 2016.

*The Redemption of Matthew Quinn* Nov 28 2019 Ex-con Matthew Quinn has plenty of trouble in his life right now. He doesn't need to take on more. And there's no question that Natalie Granville—with her crumbling mansion and her canceled wedding—is capital-T trouble. But that doesn't stop him from accepting a job from her. He can handle it. All he needs to do is follow some rules: Remember she's your boss, nothing else. Don't start letting the arrangement get all cozy and domestic and personal. Don't notice, don't want, don't feel and definitely don't touch. But apparently, when it comes to Natalie, rules are meant to be broken...

*The Positioning and Making of Female Professors* May 03 2020 This book explores the experiences and perspectives of female professors. Analysing the gendering of this process using various theoretical perspectives, this edited collection examines the active 'making' of careers, and how this has been possible. The editors and contributors cut across institutions, cultures and continents to seek to understand how women navigate the gendered process of becoming a professor, with each chapter applying a different theoretical or methodological approach to her experience. The chapters are not mere descriptions of career trajectories, but analytic narratives anchored within distinct theoretical and philosophical frameworks. In turn, they shed important light on how – and if – institutional structures and systems are adapting to move towards gender equality. Offering practical advice as well as thoughtful reflection, this book will be of especial interest to early career female academics.

*Roles, Trust, and Reputation in Social Media Knowledge Markets* Feb 09 2021 Knowledge and expertise, especially of the kind that can shape public opinion, have been traditionally the domain of individuals holding degrees awarded by higher learning institutions or occupying formal positions in notable organizations. Expertise is validated by reputations established in an institutionalized marketplace of ideas with a limited number of "available seats" and a stringent process of selection and retention of names, ideas, topics and facts of interest. However, the social media revolution, which has enabled over

two billion Internet users not only to consume, but also to produce information and knowledge, has created a secondary and very active informal marketplace of ideas and knowledge. Anchored by platforms like Wikipedia, YouTube, Facebook and Twitter, this informal marketplace has low barriers to entry and has become a gigantic and potentially questionable, knowledge resource for the public at large. Roles, Trust and Reputation in Social Media Knowledge Markets will discuss some of the emerging trends in defining, measuring and operationalizing reputation as a new and essential component of the knowledge that is generated and consumed online. The book will propose a future research agenda related to these issues. The ultimate goal of research agenda being to shape the next generation of theoretical and analytic strategies needed for understanding how knowledge markets are influenced by social interactions and reputations built around functional roles. The authors, including leading scholars and young innovators, will share with the readers some of the main lessons they have learned from their own work in these areas and will discuss the issues, topics and sub-areas that they find under-studied or that promise the greatest intellectual payoff in the future. The discussion will be placed in the context of social network analysis and "big data" research. Roles, Trust and Reputation in Social Media Knowledge Markets exposes issues that have not been satisfactorily dealt with in the current literature, as the research agenda in reputation and authorship is still emerging. In a broader sense, the volume aims to change the way in which knowledge generation in social media spaces is understood and utilized. The tools, theories and methodologies proposed by the contributors offer concrete avenues for developing the next generation of research strategies and applications that will help: tomorrow's information consumers make smarter choices, developers to create new tools and researchers to launch new research programs.

Elite Education Jun 23 2019 Elite Education – International Perspectives is the first book to systematically examine elite education in different parts of the world. Authors provide a historical analysis of the emergence of national elite education systems and consider how recent policy and economic developments are changing the configuration of elite trajectories and the social groups benefiting from these. Through country-level case studies, this book offers readers an in-depth account of elite education systems in the Anglophone world, in Europe and in the emerging financial centres of Africa, Asia and Latin America. A series of commentaries highlight commonalities and differences between elite education systems, and offer insights into broader theoretical issues, with which educationalists, researchers and policy makers are engaging. With authors including Stephen J. Ball, Donald Broady, Rubén Gaztambide-Fernández, Heinz-Hermann Krüger, Maria Alice Nogueira, Julia Resnik and Agnès van Zanten, the book offers a benchmark perspective on issues frequently glossed over in comparative education, including the processes by which powerful groups retain privilege and 'elite' status in rapidly changing societies. Elite Education – International Perspectives will appeal to policy makers and academics in the fields of education and sociology. Simultaneously it will be of special relevance to post-graduates enrolled on courses in the sociology of education, education policy, and education and international development.

Knowledge, Spirit, Law Aug 25 2019 As the author-pay model spreads across academic publishing, what are the possible consequences? Will the current rage for open-source scholarship actually accomplish anything other than shifting the furniture around on the Titanic? Will not Open Source in combination with Digital Humanities further destroy the very idea of "slow" and "thoughtful" work in humanistic studies?...It would seem that the author-pay model (formerly attributed to predatory publishers) is just another way of extracting tribute for the "privilege" of being published-enforceable only because academia has ratcheted up the stakes by enforcing research metrics and citations, in the public universities a practice that is primarily enforced by external "industrial" connections. Almost all public and private universities are heading toward measuring output with metrics-many academics now tailoring their CVs to show why they are "important," mirroring the social-media campaigns of celebrities and politicians, and many universities now citing their own "corporate" rankings when promoting their product (the University, the Institute, the Department, the Professor). Where this is all going is toward increased precarity for anyone who does not play the game. Individual, solitary scholars will have few options. Gavin Keeney, "Symptom 'A': The End," Knowledge, Spirit, Law Knowledge, Spirit, Law - as project - is a de facto phenomenology of scholarship in the age of Cognitive Capitalism. The six essays (plus Appendices) presented here cover topics and circle themes related to the problems and crises specific to neo-liberal academia, while proposing creative paths around the various obstructions. The obstructions include metrics-obsessed academia, circular and incestuous peer review, digitalization of research as stalking horse for text- and data-mining, and violation by global

corporate fiat of Intellectual Property Rights and the Moral Rights of Authors. These issues, while addressed obliquely in the main text, definitively inform the various implied proscriptive aspects of the essays and, via the Introduction and Appendices, underscore the necessity of developing new-old means to no obvious end in the production of knowledge - that is to say, a return to forms of non-instrumentalized intellectual inquiry. To be developed in two concurrent volumes, Knowledge, Spirit, Law will serve as a "moving and/or shifting anthology" of new forms of expression in humanistic studies. David Foster Wallace: Fiction and Form Dec 10 2020 In David Foster Wallace: Fiction and Form, David Hering analyses the structures of David Foster Wallace's fiction, from his debut *The Broom of the System* to his final unfinished novel *The Pale King*. Incorporating extensive analysis of Wallace's drafts, notes and letters, and taking account of the rapidly expanding field of Wallace scholarship, this book argues that the form of Wallace's fiction is always inextricably bound up within an ongoing conflict between the monologic and the dialogic, one strongly connected with Wallace's sense of his own authorial presence and identity in the work. Hering suggests that this conflict occurs at the level of both subject and composition, analysing the importance of a number of provocative structural and critical contexts - ghostliness, institutionality, reflection - to the fiction while describing how this argument is also visible within the development of Wallace's manuscripts, comparing early drafts with published material to offer a career-long framework of the construction of Wallace's fiction. The final chapter offers an unprecedentedly detailed analysis of the troubled, decade-long construction of the work that became *The Pale King*.

ECKM 2019 20th European Conference on Knowledge Management 2 VOLS Jan 29 2020

*A Companion to Media Fandom and Fan Studies* Sep 18 2021 *A Companion to Media Fandom and Fan Studies* offers scholars and fans an accessible and engaging resource for understanding the rapidly expanding field of fan studies. International in scope and written by a team that includes many major scholars, this volume features over thirty especially-commissioned essays on a variety of topics, which together provide an unparalleled overview of this fast-growing field. Separated into five sections - Histories, Genealogies, Methodologies; Fan Practices; Fandom and Cultural Studies; Digital Fandom; and The Future of Fan Studies - the book synthesizes literature surrounding important theories, debates, and issues within the field of fan studies. It also traces and explains the social, historical, political, commercial, ethical, and creative dimensions of fandom and fan studies. Exploring both the historical and the contemporary fan situation, the volume presents fandom and fan studies as models of 21st century production and consumption, and identifies the emergent trends in this unique field of study.

*India and the Knowledge Economy* Jan 23 2022 This book asks fundamental questions about the extent to which India is participating in the global shift towards knowledge-based forms of competitiveness. It charts Indian performance and progress using a unique framework benchmarked against fourteen other countries. In the course of the analysis, critical areas for improvement are identified, and the book provides detailed and objective insights for policy-makers and researchers to facilitate change and institutional reform in India. Readers will derive a comprehensive understanding of India's performance and prospects as it emerges as a serious global economic player. A particular feature of the work is the development of an original knowledge footprint concept that measures the extent and impact of knowledge development and diffusion domestic and internationally. The views expressed in this book are the author's.
