Battleground Science and Technology Dec 27 2019 The modern world is filled with debate and controversy, and science and technology - the most characteristic features of the modern world - are not immune. Science and technology are implicated in many if not all of the issues, troubles, and problems students are likely to come across in their classes and in their everyday lives. Science and technology serve as a primary pathway to understanding front page headlines on everything from war to AIDS, and from oil exploration to global warming. Battleground: Science and Technology examines the most hot-button issues involving science and technology and provides a balanced assessment of the arguments on all sides of the often strident debates. - Publisher.
