The Women's Rights Movement Jul 20 2021 "Discusses the main concerns of the womens' movement in the 1960s, and how those have evolved since; what's changed for the better, what might be worse, and where ... we go from here"--Amazon.com.

Beyond 1492 May 06 2020 In this provocative and timely collection of essays--five published for the first time--one of the most important ethnohistorians writing today, James Axtell, explores the key role of imagination both in our perception of strangers and in the writing of history. Coinciding with the 500th anniversary of Columbus's "discovery" of America, this collection covers a wide range of topics dealing with American history. Three essays view the invasion of North America from the perspective of the Indians, whose land it was. The very first meetings, he finds, were nearly always peaceful. Other essays describe native encounters with colonial traders--creating "the first consumer revolution"--and Jesuit missionaries in Canada and Mexico. Despite the tragedy of many of the encounters, Axtell also finds that there was much humor in Indian-European negotiations over peace, sex, and war. In the final section he conducts searching analyses of how college textbooks treat the initial century of American history, how America's human face changed from all brown in 1492 to predominantly white and black by 1792, and how we handled moral questions during the Quincentenary. He concludes with an extensive review of the Quincentenary scholarship--books, films, TV, and museum exhibits--and suggestions for how we can assimilate what we have learned.

Why Learn History (When It's Already on Your Phone) Jul 08 2020 Let's start with two truths about our era that are so inescapable as to have become clichés: We are surrounded by more readily available information than ever before. And a huge percentage of it is inaccurate. Some of the bad info is well-meaning but ignorant. Some of it is deliberately deceptive. All of it is pernicious. With the internet always at our fingertips, what's a teacher of history to do? Sam Wineburg has answers, beginning with this: We definitely can't stick to the same old read-the-chapter-answer-the-questions-at-the-back snoozefest we've subjected students to for decades. If we want to educate citizens who can sift through the mass of information around them and separate fact from fake, we have to explicitly work to give them the necessary critical thinking tools. Historical thinking, Wineburg shows us in *Why Learn History (When It's Already on Your Phone)*, has nothing to do with test prep--style ability to memorize facts. Instead, it's an orientation to the world that we can cultivate, one that encourages reasoned skepticism, discourages haste, and counters our tendency to confirm our biases. Wineburg draws on surprising discoveries from an array of research and experiments—including surveys of students, recent attempts to update history curricula, and analyses of how historians, students, and even fact checkers approach online sources—to paint a picture of a dangerously mine-filled landscape, but one that, with care, attention, and awareness, we can all learn to navigate. It's easy to look around at the public consequences of historical ignorance and despair. Wineburg is here to tell us it doesn't have to be that way. The future of the past may rest on our screens. But its fate rests in our hands.

The Myth America Pageant Sep 09 2020 An often-amusing look at often-confusing national issues and at the grand game of politics, blending history, common sense, and controversy in a thought-provoking, convention-challenging analysis for ordinary Americans.

The Human Tradition in America from 1865 to the Present May 18 2021 Designed as a text for the second half of the U.S. history survey course, *The Human Tradition in America from 1865 to the Present* is a collection of the best biographical essays from several volumes in SR Books' popular *Human Tradition in America* series. Like all books in the series, this text presents history from the "bottom up" by chronicling the lives of ordinary Americans. These brief biographical sketches stress to students that history is created by people, making the subject appealing and vibrant in a way that just names and dates in a standard textbook cannot. Capturing the rich diversity of the United States, *The Human Tradition in America from 1865 to the Present* includes the stories of a variety of Americans of different races, ethnic groups, sexual orientations, religious affiliations, and genders from many different regions of the country. For this reader, series editor Charles Calhoun has carefully selected biographies of individuals whose lives highlight important themes from this dynamic period of history. The essays included here are sure to engage students, provoke lively classroom discussion, and promote critical thinking.

Lies My Teacher Told Me Aug 21 2021 "Every teacher, every student of history, every citizen should read this book. It is both a refreshing antidote to what has passed for history in our educational system and a one-volume education in itself." —Howard Zinn A new edition of the national bestseller and American Book Award winner, with a new preface by the author Since its first publication in 1995, *Lies My Teacher Told Me* has become one of the most important—and successful—history books of our time. Having sold nearly two million copies, the book also won an American Book Award and the Oliver Cromwell Cox Award for Distinguished Anti-Racist Scholarship and was heralded on the front page of the *New York Times*. For this new edition, Loewen has added a new preface that shows how inadequate history courses in high school help produce adult Americans who think Donald Trump can solve their problems, and calls out academic historians for abandoning the concept of truth in a misguided effort to be "objective." What started out as a survey of the twelve leading American history textbooks has ended up being what the *San Francisco Chronicle* calls "an extremely convincing plea for truth in education." In *Lies My Teacher Told Me*, James W. Loewen brings history alive in all its complexity and ambiguity. Beginning with pre-Columbian history and ranging over characters and events as diverse as Reconstruction, Helen Keller, the first Thanksgiving, the My Lai massacre, 9/11, and the Iraq War, Loewen offers an eye-opening critique of existing textbooks, and a wonderful retelling of American history as it should—and could—be taught to American students.

AMERICAN GREATNESS Feb 12 2021 BOOK SUMMARY OF AMERICAN GREATNESS The theme of this book is a concise history of our country, from Columbus to Reagan. The purpose is to show what made America great. The many people, who were at the right place at the right time, preserved the spirit that made the United States not only free but unknowingly helped it become a great nation. What they said and accomplished should be preserved for all future generation to know and appreciate. It has been chronicled in numerous ways, but bears repeating. As John Dewey said in 1916, "Democracy must be reborn in each generation and education is the midwife."

American Woman Suffrage Postcards Nov 11 2020 American women's suffrage activists were fascinated with suffrage themed postcards. They collected them, exchanged them, wrote about them, used them as fundraisers and organized "postcard day" campaigns. The cards they produced were imaginative and ideological, advancing arguments for the enfranchisement of women and responding to antisuffrage broadsides. Commercial publishers were also interested in suffrage cards, recognizing their profit potential. Their products, though, were reactive rather than proactive, conveying stereotypes they assumed reflected public attitudes—often negative—towards the movement. Cataloging approximately 700 examples, this study examines the "visual rhetoric" of suffrage postcards in the context of the movement itself and as part of the general history of postcards.

"There She Is, Miss America" Aug 09 2020 While some see the Miss American Pageant as hokey vestige of another era, many remain enthralled by the annual Atlantic City event. And whether you love it or hate it, no one can deny the impact the contest has had on American popular culture—indeed, many reality television shows seem to have taken cues from the pageant. Founded in 1921, the Miss America Pageant has provided a fascinating glimpse into how American standards of femininity have been defined, projected, maintained, and challenged. At various times, it has been praised as a positive role model for young American women, protested as degrading to women by feminists, and shamed by scandals, such as the one caused by the Penthouse photos of Vanessa Williams in 1984. In this first interdisciplinary anthology to examine this uniquely American event, scholars defend, critique, and reflect on the pageant, grappling with themes like beauty, race, the body, identity, kitsch, and consumerism. "There She Is, Miss America" provides a fascinating examination of an enduring American icon.

Teaching the American Civil Rights Movement Oct 11 2020 The past fifteen years have seen renewed interest in the civil rights movement. Television documentaries, films and books have brought the struggles into our homes and classrooms once again. New evidence in older criminal cases demands that the judicial system reconsider the accuracy of investigations and legal decisions. Racial profiling, affirmative action, voting districting, and school voucher programs keep civil rights on the front burner in the political arena. In light of this, there are very few resources for teaching the civil rights at the university level. This timely and invaluable book fills this gap. This book offers perspectives on presenting the movement in different classroom contexts; strategies to make the movement come alive for students; and issues highlighting topics that students will find appealing. Including sample syllabi and detailed

descriptions from courses that prove effective, this work will be useful for all instructors, both college and upper level high school, for courses in history, education, race, sociology, literature and political science.
