The Twist of a Knife Oct 12 2020 'I've written three books and our deal is over.' That's what reluctant author Anthony Horowitz tells ex-detective Daniel Hawthorne in an awkward meeting. The truth is that Anthony has got other things on his mind. His new play, a thriller called 'Mindgame', is about to open at the famous Vaudeville theatre in Shoreditch. Not surprisingly, Hawthorne declines a ticket to the opening night. The play is not enjoyed by the critics. In particular, Sunday Times critic Harriet Throsby gives it a savage review, focusing particularly on the writing. The next day, Throsby is stabbed in the heart with an ornamental dagger which, it turns out, belongs to Anthony, and which has his fingerprints all over it. Anthony is arrested by an old enemy . . . Detective Inspector Cara Grunshaw. She's still smarting from her failure to solve the case described in the second Hawthorne adventure: "The Sentence is Death". She blames Anthony for her failure. And now she's out for revenge. Thrown into prison and brutally interrogated, Anthony is the prime suspect in Throsby's murder and as a second theatre critic is found to have died in mysterious circumstances, the net closes in. Ever more desperate, he realizes that only one man can help him. But will Hawthorne take the call?

**The Subversive Harry Potter** Sep 10 2020 The seven books in J.K. Rowling's Harry Potter series bring together a variety of aspects of young adult fiction and portray youthful rebellion as well as cultural containment and an adolescent's negotiations through these conflicting forces. This detailed study of Harry Potter explores the limits of the formulaic structure of adolescent fantasy fiction and also examines the impulse of exploration, subversion, and resistance contained within the formula. Within both subversion and containment in the narrative, young adult fantasy becomes an embodiment of the experience of adolescence—its angst, rebellion and also its journey of personal maturation.

Prep School Children Aug 10 2020 Since the days when nine-year-old Tom Brown set off by stage coach to be prepared for entry to Rugby, middle-class British boys have been sent away to prep school. Here

children aged seven to thirteen have been systematically groomed for public school, for gentlemanly life, for military service, for colonial rule and for worldly or, in the case of Harry Potter, wizardly success. In a compelling and sometimes shocking account, Vyvyan Brandon dwells not on the adult purposes behind a peculiarly British institution but on the lives of the children. More than two hundred youngsters appear in these pages, describing their schooldays through memoirs, letters, diaries, poetry, fiction and interviews. The impressions left, happy or miserable, comic or tragic, were indelible. The pupils' responses were seldom expressed at the time for, according to the ancient maxim, children should be seen but not heard. This book gives them a voice. In doing so it reveals a neglected area in the history of childhood and casts a sharp beam of light on the national character.

**Classical Reception and Children's Literature** Jul 21 2021 Reception studies have transformed the classics. Many more literary and cultural texts are now regarded as 'valid' for classical study. And within this process of widening, children's literature has in its turn emerged as being increasingly important. Books written for children now comprise one of the largest and most prominent bodies of texts to engage with the classical world, with an audience that constantly changes as it grows up. This innovative volume wrestles with that very characteristic of change which is so fundamental to children's literature, showing how significant the classics, as well as classically-inspired fiction and verse, have been in tackling the adolescent challenges posed by metamorphosis. Chapters address such themes as the use made by C S Lewis, in *The Horse and his Boy*, of Apuleius' *The Golden Ass*; how Ovidian myth frames the Narnia

stories; classical 'nonsense' in Edward Lear; Pan as a powerful symbol of change in children's literature, for instance in *The Wind in the Willows*; the transformative power of the Orpheus myth; and how works for children have handled the teaching of the classics.

**Idioms and Ambiguity in Context** Sep 22 2021 The present study explores the aesthetic productivity of idiomatic ambiguity in children's literature. *Humor in Contemporary Junior Literature* Mar 17 2021 In this new book, Julie Cross examines the intricacies of textual humor in contemporary junior literature, using the tools of literary criticism and humor theory. Cross investigates the dialectical paradoxes of humor and debunks the common belief in oppositional binaries of 'simple' versus 'complex' humor. The varied combinations of so-called high and low forms of humor within junior texts for young readers, who are at such a crucial stage of their reading and social development, provide a valuable commentary upon the culture and values of contemporary western society, making the book of considerable interest to scholars of both children's literature and childhood studies. Cross explores the ways in which the changing content, forms and functions of the many varied combinations of humor in junior texts, including the Lemony Snickett series, reveal societal attitudes towards young children and childhood. The new compounds of seemingly paradoxical high and low forms of humor, in texts for developing readers from the 1960s onwards, reflect and contribute to contemporary society's hesitant and uneven acceptance of the emergent paradigm of children's rights, abilities, participation and empowerment. Cross identifies four types of potentially subversive/transgressive humor which have emerged since the 1960s which, coupled with the three main theories of humor – relief, superiority and incongruity theories – enables a long-overdue charting of developments in humor within junior texts. Cross also argues that the gradual increase in the compounding of the simple and the complex provide opportunities for young readers to play with ambiguous, complicated ideas, helping them embrace the complexities and contradictions of contemporary life.
