Ein rundherum tolles Land Aug 25 2019 „Die Asche meiner Mutter‘ ist so gut – sie verdient eine Fortsetzung.“ So schrieb die New York Times über Frank McCourts Bestseller. Mit dem vorliegenden Buch erfüllte der Autor nicht nur den Wunsch seines Rezensenten, sondern auch die Hoffnungen der Millionen von begeisterten Lesern und schrieb seine Geschichte fort. „Ein rundherum tolles Land“ beginnt dort, wo der erste Teil endet: als Frank McCourt mit 19 Jahren an Bord eines irischen Schiffes nach Amerika kommt und nichts hat als die Hoffnung auf eine bessere Zukunft. Arm, mit schlechten Zähnen und entzündeten Augen, ohne jede nennenswerte Ausbildung, erreicht er das Land seiner Träume – und muss feststellen, dass er mit seinem Aussehen und seinem irischen Akzent ein Nichts ist. Wie er sich trotz aller Widrigkeiten einen Platz im Leben erkämpft, einen Platz „auf dem Bindestrich von Irisch-Amerika“, berichtet der große Erzähler McCourt in seiner unnachahmlichen Mischung aus Traurigkeit und Witz. Seine unglaublichen Geschichten über Priester und Jungfrauen, über irische Kneipen, bayrische Bierkeller und die merkwürdigen Sitten der Amerikaner im Allgemeinen verbinden sich zu einer augenzwinkernden Hommage an das Land der unbegrenzten Möglichkeiten, in der „toll“ nicht nur „großartig“ bedeutet.

Secret Journey to Planet Serpo Jan 29 2020 Documents how 12 people, as part of a top-secret U.S. government program, traveled to the planet Serpo and lived there for 13 years • Based on the debriefing of the Serpo team and the diary of the expedition's commander • Explains how the aliens helped us reverse-engineer their antigravity spacecraft and develop technology to solve our planet-wide energy problems • Reveals how our government has an ongoing relationship with the Serpo aliens On July 16, 1965, a massive alien spacecraft from the Zeta Reticuli star system landed at the Nevada test site north of Las Vegas. Following a plan set in motion by President Kennedy in 1962, the alien visitors known as the Ebens welcomed 12 astronaut-trained military personnel aboard their craft for the 10-month journey to their home planet, Serpo, 39 light-years away. In November 2005, former and current members of the Defense Intelligence Agency--directed by Kennedy to organize the Serpo exchange program--came forward to reveal the operation, including details from the 3,000-page debriefing of the 7 members of the Serpo team who returned after 13 years on the planet. Working with the DIA originators of the Serpo project and the diary kept by the expedition's commanding officer, Len Kasten chronicles the complete journey of these cosmic pioneers, including their remarkable stories of life on an alien planet, superluminal space travel, and advanced knowledge of alien technologies. He reveals how the Ebens presented the U.S. with "The Yellow Book"--a complete history of the universe recorded holographically, allowing the reader to view actual scenes from pre-history to the present. He explains how the Ebens helped us reverse-engineer their antigravity spacecraft and develop technology to solve our planet-wide energy problems--knowledge still classified. Exposing the truth of human-alien interaction and interplanetary travel, Kasten reveals

not only that the Ebens have returned to Earth eight times but also that our government continues to have an ongoing relationship with them--a relationship with the potential to advance the human race into the future.

The Secret Token Dec 22 2021 *National Bestseller* A sweeping account of America's oldest unsolved mystery, the people racing to unearth its answer, and the sobering truths--about race, gender, and immigration--exposed by the Lost Colony of Roanoke In 1587, 115 men, women, and children arrived at Roanoke Island on the coast of North Carolina. Chartered by Queen Elizabeth I, their colony was to establish England's first foothold in the New World. But when the colony's leader, John White, returned to Roanoke from a resupply mission, his settlers were nowhere to be found. They left behind only a single clue--a "secret token" carved into a tree. Neither White nor any other European laid eyes on the colonists again. What happened to the Lost Colony of Roanoke? For four hundred years, that question has consumed historians and amateur sleuths, leading only to dead ends and hoaxes. But after a chance encounter with a British archaeologist, journalist Andrew Lawler discovered that solid answers to the mystery were within reach. He set out to unravel the enigma of the lost settlers, accompanying competing researchers, each hoping to be the first to solve its riddle. In the course of his journey, Lawler encounters a host of characters obsessed with the colonists and their fate, and he determines why the Lost Colony continues to haunt our national consciousness. Thrilling and absorbing, The Secret Token offers a new understanding not just of the first English settlement in the New World but of how its disappearance continues to define--and divide--America.
