The Harcourt Brace Guide to Writing in the Disciplines Jul 27 2019
The Young Composers Nov 10 2020 "Drawing on primary materials that have not been considered in previous histories of writing instruction - little-known textbooks and student writing that includes prize-winning essays, journal entries, letters, and articles written for school newspapers - Schultz shows that in nineteenth-century American schools, the voices of the British rhetoricians that dominated college writing instruction were attenuated by the voice of the Swiss education reformer Johann Heinrich Pestalozzi. Partly through the influence of Pestalozzi's thought, writing instruction for children in schools became child-centered, not just a replica or imitation of writing instruction in the colleges."--Jacket.

The Practice of Rhetoric Jan 13 2021 "Rhetoric, broadly conceived as the art of making things matter, is both a practice and theory about that practice. In recent decades, scholars of rhetoric have turned to approaches that braid together poetics, performance, and philosophy into a "practical art." By practical art, they mean methods tested in practice, by trial and error, with a goal of offering something useful and teachable. This volume presents just such an account of rhetoric. The account here does not turn away from theory, but rather presumes and incorporates theoretical approaches, offering a collection of principles assembled in the heat and trials of public practice. The approaches ventured in this volume are inspired by the capacious conception of rhetoric put forth by historian of rhetoric Jeffrey Walker, who is perhaps best known for stressing rhetoric's

educational mission and its contributions to civic life. *The Practice of Rhetoric* is organized into three sections designed to spotlight, in turn, the importance of poetics, performance, and philosophy in rhetorical practice. The volume begins with poetics, stressing the world-making properties of that word, in contexts ranging from mouse-infested medieval fields to the threat of toxin-ridden streams in the mid-twentieth century. Susan C. Jarratt, for instance, probes the art of ekphrasis, or vivid description, and its capacity for rendering alternative futures. Michele Kennerly explores a little-studied linguistic predecessor to prose-logos psilos, or naked speech—exposing the early rumblings of a separation between poetic and rhetorical texts even as it historicizes the idea of clothed or ornamented speech. In an essay on the almost magical properties of writing, Debra Hawhee considers the curious practice of people writing letters to animals in order to banish or punish them, thereby casting the epistolary arts in a new light. Part 2 moves to performance. Vessela Valiavitcharska examines the intertwining of poetic rhythm and performance in Byzantine rhetorical education, and how such practices underlie the very foundations of oratory. Dale Martin Smith draws on the ancient stylistic theory of Dionysius of Halicarnassus along with the activist work of contemporary poets Amiri Baraka and Harmony Holiday to show how performance and persuasion unify rhetoric and poetics. Most treatments of philosophy and rhetoric begin within a philosophical framework, and remain there, focusing on old tools like stasis and disputation. Essays in part 3 break out of that mold by focusing on the utility and teachability of rhetorical principles in education. Jeanne Fahnestock and Marie Secor update stasis, a classical framework that encourages aspiring rhetors to ask after the nature of things, their facts and their qualities, as a way of locating an argument's position. Mark Garrett Longaker probes the medieval practice of disputation in order to marshal a new argument about why, exactly, John Locke detested rhetoric, and the longstanding opposition between science and rhetoric as modes of proof that has lasting implications for the way argument works today. Ranging across centuries and contexts, the essays collected here demonstrate the continued need to attend carefully to the co-operation of descriptive language and normative reality, conceptual vocabulary and material practice, public speech and moral self-shaping. The volume promises to rekindle long-standing conversations about the public, world-making practice of rhetoric, thereby enlivening anew its civic mission"--

The Imaginative Argument Jul 07 2020 More than merely a writing text, *The Imaginative Argument* offers writers instruction on how to use their imaginations to improve their prose. Cioffi shows writers how they can enliven argument--the organizing rubric of all persuasive writing--by drawing on emotion, soul, and creativity, the wellsprings of imagination. While Cioffi suggests that argument should become a natural habit of mind for writers, he goes still further, inspiring writers to adopt as their gold standard the imaginative argument: the surprising yet strikingly apt insight that organizes disparate noises into music, that makes out of chaos, chaos theory. Rather than offering a model of writing based on established formulas or templates, Cioffi urges writers to envision argument as an active parsing of experience that imaginatively reinvents the world. Cioffi's manifesto asserts that successful argument also requires writers to explore their own deep-seated feelings, to exploit the fuzzy but often profoundly insightful logic of the imagination. But expression is not all that matters: Cioffi's work anchors itself in the actual. Drawing on Louis Kahn's notion that a good architect never has all the answers to a building's problems before its physical construction, Cioffi maintains that in argument, too, answers must be forged along the way, as the writer inventively deals with emergent problems and unforeseen complexities. Indeed, discovery, imagination, and invention suffuse all stages of the process. *The Imaginative Argument* offers all the intellectual kindling that writers need to ignite this creativity, from insights on developing ideas to avoiding bland assertions or logical leaps. It cites exemplary nonfiction prose stylists, including William James, Ruth Benedict, and Erving Goffman, as well as literary sources to

demonstrate the dynamic of persuasive writing. Provocative and lively, it will prove not only essential reading but also inspiration for all those interested in arguing more imaginatively more successfully. This edition features new chapters that cover the revision process in greater depth, as well as the particular challenges of researching and writing in the digital age, such as working with technology and avoiding plagiarism. The book also includes new sample essays, an appendix to help instructors use the book in the classroom, and much more.

Networking Argument May 05 2020 This edited volume presents selected works from the 20th Biennial Alta Argumentation Conference, sponsored by the National Communication Association and the American Forensics Association and held in 2017. The conference brought together scholars from Europe, Asia, and North America to engage in intensive conversations about how argument functions in our increasingly networked society. The essays discuss four aspects of networked argument. Some examine arguments occurring in online networks, seeking to both understand and respond more effectively to the acute changes underway in the information age. Others focus on offline networks to identify historical and contemporary resources available to advocates in the modern day. Still others discuss the value-added of including argumentation scholars on interdisciplinary research teams analyzing a diverse range of subjects, including science, education, health, law, economics, history, security, and media. The other, *Analyze an Argument*, requires you to follow specific instructions as you determine the strengths and/or weaknesses presented in an argument. Since you will have limited time to develop your responses, some preparation for the test will be helpful. The Analytical Writing Measure is just one part of the GRE, but, combined with your scores on the other parts of the test, helps to predict your ability to be successful in graduate school. This book contains thirty sample *Analyze an Issue* essays and thirty sample *Analyze an Argument* essays along with the rubrics, prompts and tips to use when writing your own essays. The prewriting activities demonstrate how the writer selected a point of view and created evidence to use in developing the responses. You should notice a variety of approaches, from using first-person point of view to employing historical and literary references. These are just suggestions. Your own experience, reading, and course work may lead you to take different approaches. Keep in mind the specific

directions, the rubric and your own experience in writing at the college level. Is this not enough?

Die gelbe Tapete Sep 28 2019 Charlotte Perkins Gilman (1860-1935) ist das zweite Kind von Mary A. Finch und Frederick B. Perkins, einem Neffen von Harriet Beecher Stowe, der Autorin von "Onkel Toms Hütte". Der Vater, Schriftsteller und Bibliothekar, verlässt die Familie bald. Die Mutter schlägt die Familie mit Gelegenheitsarbeiten durch. Gilman besucht die Kunstgewerbeschule, danach entwirft sie Grußpostkarten und arbeitet als Hauslehrerin. 1884 heiratet sie den Kunstmaler Charles Walter Stetson und bekommt von ihm 1885 eine Tochter. Nach der Geburt hat Charlotte Perkins Gilman tiefe Depressionen. Ein Spezialist in Philadelphia verordnet ihr eine Ruhekur, bei der jegliche geistige Anstrengung eingeschränkt und das Schreiben untersagt ist. Durch diese Kur fühlt sie sich so zerrüttet, dass sie ihre Familie verlässt und zu einer Freundin nach Pasadena in Kalifornien flieht. 1892 veröffentlicht sie mit "Die gelbe Tapete" ihre erste Kurzgeschichte, die auf den Erfahrungen aus der Zeit ihrer Nervenkrise basiert. Die Veröffentlichung führt zu heftigen Reaktionen. "Die gelbe Tapete" gilt bis heute als literarisches Meisterwerk. Nach Charlotte Perkins Gilman 1934 an Brustkrebs erkrankt war, nahm sie sich ein Jahr später, mittels einer Überdosis Chloroform, das Leben.
