Canon Powershot G16 Aug 06 2020 The Canon PowerShot G16 compact digital camera is the successor to the successful G15 and the first in the G-series to come equipped with built-in Wi-Fi. This facility makes it ideal for sharing images and video on social networking websites, or via email through the Canon Image Gateway. Images can also be uploaded using the maker's compatible iOS(R) or Android device with the download of a free Canon CameraWindow app. The G16's 28-140mm wide-angle lens has an aperture range of f/1.8-f/2.8, making it ideal for shooting in low-light conditions or for capturing a dramatic shallow depth-of-field with soft backgrounds. The camera features Canon's HS System, which combines a DIGIC 6 image processor and a 12.1-megapixel High-Sensitivity CMOS image sensor. Autofocus (AF) times and reduced shooting lag are improved over previous G-series models and continuous shooting speeds of up to 9.3 frames-per-second are possible. The G16 captures 1080p/60p Full HD video and has a built-in stereo microphone and an HDMI output for viewing videos on an HDTV. New shooting modes include Star mode for capturing the night sky: Star Nightscape will capture stars in a landscape image, while Star Trails will capture trails of stars in a still image; Star Time Lapse Movie will shoot continuous still images of stars and combine them into a video that replicates the motion of the stars in the sky. With the handheld HDR Scene mode multiple shots of a particular scene are combined to create a high dynamic range image without the need for a tripod. This mode includes Natural, Art Bold, Art Embossed, Art Standard and Art Vivid options. The dials and controls on this digital compact camera are styled similarly to those on Canon's range of EOS digital SLR cameras. The G16 is also compatible with Canon Speedlite flashes and select accessories.

Technology, Science Teaching, and Literacy Jul 05 2020 This book deals with the use of technology in science teaching. The author is not, nor has ever had an intention of being a "techie." Rather, I spent the first decade of my professional life as a high school physics teacher, making occasional uses of technology to further student understanding and to automate my own teaching practices. During my graduate work, my interest in the use of technology continued. Catalyzed, to some extent by the increasing availability of graphical interfaces for computers, the realization struck that the computer was more and more becoming a tool that all teachers could use to support their teaching practice—not simply those with a passion for the technology itself. The rapid changes in the hardware and software available, however, frequently caused me to reflect on the usefulness of technology—if it were to change at such a rapid pace, would anyone, save for those who diligently focused on the development of these tools, be able to effectively use technology in science teaching? Was change to rapid to yield a useful tool for teachers? To address this interest, I examined the nature of science teaching during this century—using the equally fluid notion of "scientific literacy"—which formed the organizing principle for this study. The result is a examination of how technology was used to accomplishing this goal of producing scientifically literate citizens. What was observed is that technology, indeed, consistently came to the service of teachers as they attempted to achieve this goal.

Choose Life Jan 23 2022 I've made many mistakes on my way to finding a loving relationship. After being disappointed over and over again, I began to pursue God. I never thought that God would desire a relationship with someone such as me. My past is a mess. What would God want with me? That is the conversation that too many of us entertain. Thoughts of that nature are not of God. God found me, nurtured me, loved me, and taught me how to love myself. God also showed me how my past, as terrible as it may have been, was not lived in vain. God wants me to take my past situations, circumstances, hurts, pains, problems, and messes and become transparent. I know that there is someone experiencing the same pains that almost killed me, and they may be wondering how they will get through. After choosing life, I did, and therefore, you can too. If you are sick, lonely, tired, hurting, addicted, abused, confused, brokenhearted, or looking for a way out, this book is for you. Sit back, get a cup of coffee, and open a Bible. Get ready to take the necessary steps to making the biggest choice you will ever make. Get ready to Choose Life!

Kult(ur)serien: Produktion, Inhalt und Publikum im looking-glass television Jul 29 2022 Die Serie ist mittlerweile zum zentralen Element der Gegenwartskultur geworden. Damit hat sie dem Fernsehen, das einst belächeltes und herabgewertetes Medium war, kulturelle Bedeutung und im „Quality TV“ eine Rolle als künstlerische Leistung verschafft. Der vorliegende Band steht auf der Basis dieser Entwicklung. Er möchte nachzeichnen, in welchem Netz von Akteuren und deren aufeinander bezogenen Erwartungen die US-Serie und ihre künstlerische Anerkennung aufkommen. Dabei rückt er die Prozesse in den Vordergrund, in denen die Produktion unterstellen muss, was wirtschaftliche Abnehmer, Regulierungsbehörden und Publikum wahrscheinlich tun werden und zeigt auf, wie diese Akteure die Produktion in unterschiedlichen wirtschaftlichen Kontexten beurteilen und beeinflussen. Anhand zeitgenössischer Kult(ur)serien wird so die Entwicklung nachgezeichnet, die letztendlich zur modernen Form des seriellen Erzählens geführt hat. An die Stelle von Inhaltsanalysen, wie sie in der Fernsehforschung vermehrt aufgekommen sind, und Rezeptionsstudien, die die Erforschung von Medieninhalten zunehmend in den Raum des aufeinander bezogenen Handelns von Interpretationsgemeinschaften überführt haben, tritt hier eine Erforschung des „looking-glass-Fernsehens“, die zum Verständnis der Strukturen beitragen möchte, in denen modernes Serienfernsehen gemacht wird.
