**Rather Negro Than Black The Creation of "an Inferior Race" by the Whites God made man in his image and the** Dec 26 2021 Black or White are long since stopped being only skin-colors, but became digital programs with clear functions. The spiritual law says: "There is no coincident". 0,5 p% of people know that, 99.5% of people are consumers. They consume everything, question nothing, they believe only what they see, hear and feel and that blindly. Their knowledge is what is put in their heads. Important for them is security, a full belly and sex. Fun and consumption decorate their life. That everything which happens around them is following a reason is a fact they would fight, as with the words black and white. These 99.5% of people have never taken the time in questioning why they address themselves differently than they look. Why Blacks are not called brown and why Whites are not called beige? Look at yourself, look at your skin-color: Are you white? Like the color white? Or rather beige? Are you black or rather brown? Do you still think this is a coincidence? Ah, yes. Why did the light-colored people decide to call people either Black or White? All seems to be insignificant, right? But actually, there is a giant, clever and complex racist system, or rather program which is digitally installed into Black people, at

work which has the goal to provide White people with political, religious, cultural, psychological and business advantages by negatively steering Blacks sense of self, their thinking, their actions, their self-esteem. They steer that with the countless negative qualities and connotations the color black which has been purposefully created in the color black. One has to feel inferior, and the other superior. And it works fantastically for hundreds of years.

*Zur Soziologie des Gerichtsverfahrens (Sociology of the Judicial Process)* Aug 02 2022 The text concerns itself with the scope of the concepts of "social ignorance" in the law, particularly in case law. "Social knowledge" refers to general knowledge about that behavior which society expects and demands in various type situations, and with reactions and sanctions one must reckon with when conduct deviates from model behavior. The low level of knowledge of law, so obvious in modern society, is not primarily to be ascribed to the sheer volume of legal rules and doctrines, but rather to the multiplicity and impenetrability of market behavior, and the economic powerlessness of the ordinary consumer. The author illustrates the problem with analysis of cases in the Bundesgerichtsbof on installment sales, in which the court has attempted to take "social ignorance" into account. The author shows, by means of this case-law, that that "social ignorance", which can be completely functional, only evokes the attention of courts, when it reaches a magnitude such that it impairs the party's understanding, and his confidence that the court will rule in accordance with his expectations. **Aisthetics of the spirits** Sep 03 2022 English summary: The notion 'spirit' is dazzling: it has manifold meanings and plays a crucial role in Early Modern medicine, psychology, religion, natural philosophy and cosmology. This book contains twenty papers, written by international experts; it explores how those disciplines conceived of the spirits and shows that knowledge of the spirits is an essential prerequisite for the understanding of Renaissance literature and music. The volume focuses on the way in which the spirits act upon the soul's perception, imagination and cognition, and on the cultural practices which aim to use, to purge, or to ban the spirits. German description: Der Begriff des Spiritus ist schillernd: mit seinen vielfältigen Bedeutungen bildet er einen zentralen Bezugspunkt für die frühneuzeitliche Medizin, Psychologie, Religion, Naturerkenntnis und Kosmologie. Das Buch enthält zwanzig Beiträge von internationalen Experten, es untersucht die Konzeptionen der Spiritus in diesen Disziplinen und zeigt, dass deren Kenntnis eine wichtige Voraussetzung für das Verständnis vormoderner Literatur und Musik darstellt. Der Band fokussiert die Rolle der Spiritus für Wahrnehmung, Vorstellung und Erkenntnis und die kulturellen Praktiken, mit denen die Geister genutzt oder gebannt werden können.
