Prolegomena zu einer jeden künftigen Metaphysik die als Wissenschaft wird auftreten können Jan 29 2020

Groundwork for the Metaphysics of Morals Feb 09 2021 Kant's Groundwork for the Metaphysics of Morals, first published in 1785, is still one of the most widely read and influential works of moral philosophy. This Broadview edition combines a newly revised version of T.K. Abbott's respected translation with material crucial for placing the Groundwork in the context of Kant's broader moral thought. A varied selection of other ethical writings by Kant on subjects including our moral duties, fundamental principles of justice, the concept of happiness, and the relation of morality to religion are included, along with important criticisms of Kant's ethics by Fichte, Schiller, Hegel, and Sidgwick.

Metaphysische Anfangsgründe der Tugendlehre Aug 30 2022 Die zentrale Stellung der "Tugendlehre" (1797), des zweiten Teils der Metaphysik der Sitten, wird innerhalb der Moralphilosophie Kants häufig verkannt. Es zeigt sich jedoch, dass diese späte Schrift den Vorwurf der Kritik, Kants Ethik ende im "Formalismus" und sei zur Begründung materialer Pflichten nicht fähig, ins Leere laufen lässt. Die 3., durchgesehene und verbesserte Auflage bringt einige dem neuesten Editionsstand entsprechende Emendationen und Berichtigungen, eine überarbeitete Einleitung des Herausgebers und eine ergänzte Bibliographie.

Die Metaphysik der Sitten Aug 18 2021

Der kategorische Imperativ Mar 13 2021

Kant: Groundwork of the Metaphysics of Morals Sep 18 2021 A new edition of one of the most influential works in moral philosophy ever written.

Kant: Critique of Practical Reason Sep 06 2020 The Critique of Practical Reason is the second of Kant's three Critiques, one of his three major treatises on moral theory, and a seminal text in the history of moral philosophy. Originally published three years after his Groundwork to the Metaphysics of Morals, the Critique provides further elaboration of the basic themes of Kant's moral theory, gives the most complete

statement of his highly original theory of freedom of the will, and develops his practical metaphysics. This new edition of Kant's Critique of Practical Reason - prepared by an acclaimed translator and scholar of Kant's practical philosophy - presents the first new translation of this work to appear for some years. A substantial and lucid introduction by Andrews Reath places the main themes of the Critique in the context of Kant's moral theory and his critical system.

Kant's Groundwork of the Metaphysics of Morals Jul 25 2019 Immanuel Kant's Groundwork of the Metaphysics of Morals of 1785 is one of the most profound and important works in the history of practical philosophy. In this introduction to the Groundwork, Sally Sedgwick provides a guide to Kant's text that follows the course of his discussion virtually paragraph by paragraph. Her aim is to convey Kant's ideas and arguments as clearly and simply as possible, without getting lost in scholarly controversies. Her introductory chapter offers a useful overview of Kant's general approach to practical philosophy, and she also explores and clarifies some of the main assumptions which Kant relies on in his Groundwork but defends in his Critique of Pure Reason. The book will be a valuable guide for all who are interested in Kant's practical philosophy.

Kant: Groundwork of the Metaphysics of Morals Jul 29 2022 The revised edition of the Cambridge translation of one of the most powerful texts in the history of ethical thought.

Lectures on Logic Aug 25 2019 Table of contents

Kant's 'Groundwork of the Metaphysics of Morals' Jan 23 2022 This volume discusses Kant's philosophical development in the Groundwork and his attempt to justify the categorical imperative as a principle of freedom.

Groundwork for the Metaphysics of Morals Nov 01 2022 Immanuel Kant's Groundwork for the Metaphysics of Morals is one of the most important texts in the history of ethics. In it Kant searches for the supreme principle of morality and argues for a conception of the moral life that has made this work a continuing source of controversy and an object of reinterpretation for over two centuries.

Prolegomena zu einer jeden künftigen Metaphysik, die als Wissenschaft wird auftreten können Apr 01 2020 Nietzsche Sep 26 2019

Strukturen moralischer Komplexität May 03 2020 Charles Larmore stellt keineswegs die Möglichkeit einer Moraltheorie in Frage. Indem er zentrale Probleme der Politik moralisch zu begründen sucht, plädiert er jedoch für einen flexibleren und sensibleren Umgang mit den Schwierigkeiten unseres moralischen Alltags.

Grundlegung zur Metaphysik der Sitten Dec 22 2021

Kant: Metaphysical Foundations of Natural Science Feb 21 2022 A translation of Kant's mature reflections on issues in the philosophy of natural science.

Kant's Lectures on Ethics Jan 11 2021 Featuring fifteen new essays, this book is the only volume devoted to a scholarly study of Kant's lectures on ethics.

Immanuel Kant's Vorlesungen über die Metaphysik Jun 15 2021

Groundwork for the Metaphysics of Morals Aug 06 2020 Kant's *Groundwork for the Metaphysics of Morals* from 1785 is one of the most important and influential texts in the whole history of philosophy. Its central purpose is to develop the categorical imperative. The present collected volume contains papers on central theoretical aspects. Key Features: Contributions from leading international authorities in Kant research A reflection of the current state of research together with new aspects

The Cambridge History of Moral Philosophy Apr 25 2022 With fifty-four chapters charting the development of moral philosophy in the Western world, this volume examines the key thinkers and texts and their influence on the history of moral thought from the pre-Socratics to the present day. Topics including Epicureanism, humanism, Jewish and Arabic thought, perfectionism, pragmatism, idealism and intuitionism are all explored, as are figures including Aristotle, Boethius, Spinoza, Hobbes, Hume, Kant, Hegel, Mill, Nietzsche, Heidegger, Sartre and Rawls, as well as numerous key ideas and schools of thought. Chapters are written by leading experts in the field, drawing on the latest research to offer rigorous analysis of the canonical figures and movements of this branch of philosophy. The volume provides a comprehensive yet philosophically advanced resource for students and teachers alike as they approach, and refine their understanding of, the central issues in moral thought.

Critique of Pure Reason Jul 05 2020 The most accurate and informative English translation ever produced of this epochal philosophical text.

Immanuel Kant: Groundwork of the Metaphysics of Morals Mar 25 2022 Published in 1785, the *Groundwork of the Metaphysics of Morals* is one of the most powerful texts in the history of ethical thought. In this book, Immanuel Kant formulates and justifies a supreme principle of morality that issues universal and unconditional moral commands. These commands receive their normative force from the fact that rational agents autonomously impose the moral law upon themselves. As such, they are laws of freedom. This volume contains the first facing-page German-English edition of Kant's *Groundwork*. It presents a new, authentic edition of the German text and a carefully revised version of Mary Gregor's acclaimed English translation, as well as editorial notes and a full bilingual index. It will be the edition of choice for any student or scholar who is not content with reading this central contribution to modern moral philosophy through the veil of English translation.

Kant's Metaphysics of Morals Dec 10 2020 Immanuel Kant's *Metaphysics of Morals* (1797), containing the *Doctrine of Right* and *Doctrine of Virtue*, is his final major work of practical philosophy. Its focus is not rational beings in general but human beings in particular, and it presupposes and deepens Kant's earlier accounts of morality, freedom, and moral psychology. In this volume of newly-commissioned essays, a distinguished team of contributors explores the *Metaphysics of Morals* in relation to Kant's earlier works, as well as examining themes which emerge from the text itself. Topics include the relation between right and virtue, property, punishment, and moral feeling. Their diversity of questions, perspectives and approaches will provide new insights into the work for scholars in Kant's moral and political theory.

Practical Philosophy Jun 27 2022 Review of Schulz's Attempt at an introduction to a doctrine of morals for all human beings regardless of different religions -- An answer to the question, what is enlightenment? -- On the wrongfulness of unauthorized publication of books -- *Groundwork of the metaphysics of morals* -- Review of Gottlieb Hufeland's Essay on the principle of natural right -- Kraus' review of Ulrich's Eleutheriology -- Critique of practical reason -- On the common saying, that may be correct in theory, but it is of no use in practice -- Toward perpetual peace -- The metaphysics of morals -- On a supposed right to lie from philanthropy -- On turning out books.

Abhandlungen nach 1781 Mar 01 2020 Die im Jahr 1902 von der Königlich Preußischen Akademie der Wissenschaften begonnene Ausgabe von Kants gesammelten Schriften ist bis heute die maßgebliche Kant-Edition. Die kritische Ausgabe gliedert sich in 4 Abteilungen: In Abt. I werden in 9 Bänden die Werke, in Abt. II (Bd 10-13, Nachtrag Bd 23) der Briefwechsel Kants ediert. Abt. III (Bd 14-23) enthält den

Handschriftlichen Nachlass Kants. Die Edition der Vorlesungen in Abt. IV ist noch nicht abgeschlossen, bislang liegen die Bde 24-25 und 27-29 vor. Jeder Band enthält sachliche Erläuterungen sowie einen Apparat zu den Lesarten. Ein Wortindex (Bd 16) sowie ein Personenindex (Bd 20) helfen, das Werk zu erschließen.

Zur Genealogie der Moral Nov 28 2019 Nietzsches „*Genealogie der Moral*“ enthält keine Aphorismen, wie viele andere seiner Werke, sondern besteht aus einer Vorrede und drei Abhandlungen. Die Schrift gehört zu den einflussreichsten Werken des Autors und genügt selbst wissenschaftlichen Ansprüchen. Behandelt werden soziologische, historische und psychologische Thesen.

Kant: Political Writings Nov 20 2021 This edition includes two important texts illustrating Kant's view of history along with notes and a comprehensive bibliography.

Über den Gemeinspruch: Das mag in der Theorie richtig sein, taugt aber nicht für die Praxis May 15 2021 Immanuel Kant: *Über den Gemeinspruch: Das mag in der Theorie richtig sein, taugt aber nicht für die Praxis* Erstdruck in: Berlinische Monatsschrift, September 1793, S. 201-284. Neuausgabe mit einer Biographie des Autors. Herausgegeben von Karl-Maria Guth. Berlin 2016. Textgrundlage ist die Ausgabe: Immanuel Kant: Werke in zwölf Bänden. Herausgegeben von Wilhelm Weischedel. Frankfurt am Main: Suhrkamp, 1977. Die Paginierung obiger Ausgabe wird in dieser Neuausgabe als Marginalie zeilengenau mitgeführt. Umschlaggestaltung von Thomas Schultz-Overhage. Gesetzt aus der Minion Pro, 11 pt.

Critique of the Power of Judgment Jun 23 2019 The *Critique of the Power of Judgment* (a more accurate rendition of what has hitherto been translated as the *Critique of Judgment*) is the third of Kant's great critiques following the *Critique of Pure Reason* and the *Critique of Practical Reason*. This translation of Kant's masterpiece follows the principles and high standards of all other volumes in The Cambridge Edition of the Works of Immanuel Kant. This volume, first published in 2000, includes: the indispensable first draft of Kant's introduction to the work; an English edition notes to the many differences between the first (1790) and second (1793) editions of the work; and relevant passages in Kant's anthropology lectures where he elaborated on his aesthetic views. All in all this edition offers the serious student of Kant a dramatically richer, more complete and more accurate translation.

Kant: The Metaphysics of Morals Sep 30 2022 The *Metaphysics of Morals* is Kant's final major work in moral philosophy. In it, he presents the basic concepts and principles of right and virtue and the system of duties of human beings as such. The work comprises two parts: the *Doctrine of Right* concerns outer freedom and the rights of human beings against one another; the *Doctrine of Virtue* concerns inner freedom and the ethical duties of human beings to themselves and others. Mary Gregor's translation, lightly revised for this edition, is the only complete translation of the entire text, and includes extensive annotation on Kant's difficult and sometimes unfamiliar vocabulary. This edition includes numerous new footnotes, some of which address controversial aspects of Gregor's translation or offer alternatives. Lara Denis's introduction sets the work in context, explains its structure and themes, and introduces important interpretive debates. The volume also provides thorough guidance on further reading including online resources.

Kant: Religion within the Boundaries of Mere Reason Oct 27 2019 *Religion within the Boundaries of Mere Reason* is a key element of the system of philosophy which Kant introduced with his *Critique of Pure Reason*, and a work of major importance in the history of Western religious thought. It represents a great philosopher's attempt to spell out the form and content of a type of religion that would be grounded in moral reason and would meet the needs of ethical life. It includes sharply critical and boldly constructive discussions on topics not often treated by philosophers, including such traditional theological concepts as original sin and the salvation or 'justification' of a sinner, and the idea of the proper role of a church. This new edition includes slightly revised translations, a revised introduction with expanded discussion of certain key themes in the work, and up-to-date guidance on further reading.

Lectures on Ethics Oct 20 2021 Lecture notes taken by Kant's students of his university courses in ethics.

Lectures on Metaphysics Apr 13 2021 This volume contains the first translation into English of notes from Kant's lectures on metaphysics.

Sittengesetz und Freiheit May 27 2022 Das Buch behandelt Kants Versuch, innerhalb seiner Ethik Sittengesetz, Naturgesetz und Freiheit im moralischen Handeln in Einklang zu bringen. Im ersten Teil

stehen die Begriffe der Freiheit und des Willens bei Kant im Mittelpunkt. Der zweite Teil untersucht detailliert die Kernpunkte der kantischen Ethik: den (letztlich gescheiterten) Versuch, Freiheit und Naturkausalität auszusöhnen, und die Theorie des Handelns nach Moralgesetzen, deren Wahl den freien Willen als eigentliches Moment ausmacht. Am Ende steht die Einsicht in ein hoch entwickeltes, differenziertes gedankliches System, das unserer Alltagsauffassung von moralischer Verantwortung erstaunlich nahe kommt.

Immanuel Kant: Prolegomena to Any Future Metaphysics Jul 17 2021 Kant is the central figure of modern philosophy. He sought to rebuild philosophy from the ground up, and he succeeded in permanently changing its problems and methods. This new, revised edition of the Prolegomena, which is the best introduction to the theoretical side of his philosophy, presents his thought clearly by paying careful attention to his original language. Also included are selections from the Critique of Pure Reason, which fill out and explicate some of Kant's central arguments (including famous sections of the Schematism and Analogies), and in which Kant himself explains his special terminology. The first reviews of the Critique, to which Kant responded in the Prolegomena, are included in this revised edition. The volume is completed by a historical and philosophical introduction, explanatory notes, a chronology, and a guide to further reading. *Kant* Dec 30 2019

Kant: Critique of Practical Reason Oct 08 2020 The Critique of Practical Reason is the second of Kant's

three Critiques, one of his three major treatises on moral theory, and a seminal text in the history of moral philosophy. Originally published three years after his Groundwork of the Metaphysics of Morals, the Critique provides further elaboration of the basic themes of Kant's moral theory, gives the most complete statement of his highly original theory of freedom of the will, and develops his practical metaphysics. This revised edition of Kant's Critique of Practical Reason - which contains Mary Gregor's acclaimed translation - is now the authoritative translation of this work. A substantial and lucid introduction by Andrews Reath places the main themes of the Critique in the context of Kant's moral theory and his critical system. For this edition, the introduction has been revised and the guide to the secondary reading completely updated. *Kant: Natural Science* Nov 08 2020 Though Kant is best known for his strictly philosophical works in the 1780s, many of his early publications in particular were devoted to what we would call 'natural science'. Kant's Universal Natural History and Theory of the Heavens (1755) made a significant advance in cosmology, and he was also instrumental in establishing the newly emerging discipline of physical geography, lecturing on it for almost his entire career. In this volume Eric Watkins brings together new English translations of Kant's first publication, Thoughts on the True Estimation of Living Forces (1746-1749), the entirety of Physical Geography (1802), a series of shorter essays, along with many of Kant's most important publications in natural science. The volume is rich in material for the student and the scholar, with extensive linguistic and explanatory notes, editorial introductions and a glossary of key terms.
