Intelligent Manufacturing Apr 04 2020 In 1791, Treasury Secretary Alexander Hamilton wrote that "not only the wealth, but the independence and security of a country, appear to be materially connected with the prosperity of manufacturers." Centuries later, U.S. manufacturing jobs continue to be outsourced at an all-too-rapid pace. Examining the current U.S. manufacturing environment, including the unsustainable trade imbalance, *Intelligent Manufacturing: Reviving U.S. Manufacturing Including Lessons Learned from Delphi Packard Electric and General Motors* outlines concrete suggestions that can help to stop the outflow of manufacturing jobs and prosperity from our shores. The book explains why most companies have not reaped the benefits promised from the implementation of the multitude of methodologies that have inundated manufacturers and outlines the steps companies can take to reverse this trend. The author's 30-year background in engineering and manufacturing, in both national and international assignments, puts him in a unique position to supply insights on foreign competition that few are able to provide. In addition to discussing the tools and concepts with a proven history of success, the book also elaborates on what doesn't work. It presents an insider's perspective of what went horribly wrong within Delphi and GM so other manufacturing companies can avoid making the same mistakes. The book describes how to effectively set up a manufacturing system and accurately measure and control direct labor. It shares easy-to-implement tools that the author developed and implemented with proven track records for improving performance. Such tools include computer programs that can provide a competitive advantage, a proven way to reduce total process cycle time, and a scientific way to establish proper lot sizes. Instead of presenting a lot of theory, the author provides ideas based on common sense and practical experience. The concepts and tools outlined in the text are simple and straightforward, yet powerful enough to help any conscientious company improve its competitive position.

Big Data Feb 01 2020 Dieser Herausgeber-Band bietet eine umfassende Einführung in das Gebiet Big Data. Neben einer Markteinschätzung und grundlegenden Konzepten (semantische Modellbildung, Anfragesprachen, Konsistenzgewährung etc.) werden wichtige NoSQL-Systeme (Key/Value Store, Column Store, Document Store, Graph Database) vorgestellt und erfolgreiche Anwendungen aus unterschiedlichen Perspektiven erläutert. Eine Diskussion rechtlicher Aspekte und ein Vorschlag zum Berufsbild des Data Scientist runden das Buch ab. Damit erhält die Leserschaft Handlungsempfehlungen für die Nutzung von Big-Data-Technologien im Unternehmen.

Modulare Psychotherapie Jul 08 2020 Was ist eigentlich Modulare Psychotherapie? Derzeit erfahren psychotherapeutische Ansätze einen Wandel in Richtung eines individualisierten, modularen Organisationsprinzips. Dabei wird an gestörten Mechanismen und weniger an Störungsbildern oder Theorien von Therapieschulen angesetzt. Die Modulare Psychotherapie bietet ein Konzept von hoher Praktikabilität in der ambulanten und stationären Versorgung. Ihr »Baukastenprinzip« ermöglicht eine breite Anwendbarkeit und ein adaptives Vorgehen in Abhängigkeit von den Bedürfnissen und Funktionseinschränkungen des individuellen Patienten sowie dem Kontext der Probleme. Ihr Fokus auf definierte

Veränderungsmechanismen ermöglicht ein stringentes Vorgehen. Erste Studienergebnisse sprechen für eine gute Anwendbarkeit und eine hohe Akzeptanz durch die PatientInnen. Dieses Herausgeberwerk richtet sich an ärztliche und psychologische PsychotherapeutInnen aller Schulen. Mit Beiträgen von Stefan G. Hofmann, Wolfgang Lutz, Winfried Rief u.a. Hochaktuell: Die Modulare Psychotherapie etabliert sich als neues Prinzip
Kompaktes Wissen: Dieses Buch bietet eine Einführung in das Thema Praxisnah: Mit konkreten Anwendungsfällen aus dem Therapiealltag!

Lemon-Aid Used Cars and Trucks 2012-2013 Feb 12 2021 Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

Digital Humanities Jan 26 2022 As the twenty-first century unfolds, computers challenge the way in which we think about culture, society and what it is to be human: areas traditionally explored by the humanities. In a world of automation, Big Data, algorithms, Google searches, digital archives, real-time streams and social networks, our use of culture has been changing dramatically. The digital humanities give us powerful theories, methods and tools for exploring new ways of being in a digital age. Berry and Fagerjord provide a compelling guide, exploring the history, intellectual work, key arguments and ideas of this emerging discipline. They also offer an important critique, suggesting ways in which the humanities can be enriched through computing, but also how cultural critique can transform the digital humanities. Digital Humanities will be an essential book for students and researchers in this new field but also related areas, such as media and communications, digital media, sociology, informatics, and the humanities more broadly.

Lemon-Aid New Cars and Trucks 2011 May 06 2020 As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz -- rich cars, poor quality. There's only one Saturn you should buy. Toyota -- enough apologies: "when you mess up, 'fess up."

Impact Evaluation of Quality Management in Higher Education Nov 11 2020 This volume works towards overcoming the lack of systematic impact evaluation in higher education, particularly analyses which are not restricted to ex-post gathered data and expert assessments. Since (higher) education is more important than ever in knowledge societies, high priority should be ascribed to quality management (QM) in higher education institutions (HEIs). Consequently, impact evaluation of QM effectiveness is indispensable because it generates the knowledge required for quality (management) improvement. The introductory chapter elucidates the motivation and objective of impact analyses of QM in HEIs and provides an overview of the volume's other contributions. One chapter reflects on success factors and un-/intended effects of QM, while another one analyses more discursive ways of evidence-informed guidance of QM policies which are complementary to rigorous impact studies. Five chapters investigate QM effectiveness in HEIs by ex-post and simultaneous impact evaluation in European case studies, including assessments of students, teachers, quality managers, and institutional leadership. The case studies comprise universities from Germany, Spain, Finland, and Romania. The final chapter reports a SWOT analysis of impact evaluation of QM in HEIs, which is suggested as a tool for bridging the notorious gap between the demanding methodology of impact evaluation and its proper implementation. This book was originally published as a special issue of the European Journal of Higher Education.

Federal Civil Procedure Manual Oct 03 2022 For well-experienced lawyers, the Federal Civil Procedure Manual provides a comprehensive treatment of procedural law in federal courts that an attorney can rely on for quick answers to discrete issues. For new attorneys, the Manual provides a complete blueprint for commencing and working through a case in court. The copious and very recent case-law updating provides authoritative sources that go into great detail about the designated issues. The authors have nearly 50 years' experience in developing, crafting, and approving amendments to the Civil Rules. They were intimately involved with the amendment process for virtually all the Civil Rules. Their combined experience brings unmatched insights into the Civil Rules. The Federal Civil Procedure Manual addresses not only procedural law but it also contains extensive discussion of jurisdictional matters. The chapters on arbitration, as an alternative dispute procedure, are typically not addressed in a procedural book.

Using 21st Century Science to Improve Risk-Related Evaluations Oct 30 2019 Over the last decade, several large-scale United States and international programs have been initiated to incorporate advances in molecular and cellular biology, -omics technologies, analytical methods, bioinformatics, and computational tools and methods into the field of toxicology. Similar efforts are being pursued in the field of exposure science with the goals of obtaining more accurate and complete exposure data on individuals and populations for thousands of chemicals over the lifespan; predicting exposures from use data and chemical-property information; and translating exposures between test systems and humans. Using 21st Century Science to Improve Risk-Related Evaluations makes recommendations for integrating new scientific approaches into risk-based evaluations. This study considers the scientific advances that have occurred following the publication of the NRC reports Toxicity Testing in the 21st Century: A Vision and a Strategy and Exposure Science in the 21st Century: A Vision and a Strategy. Given the various ongoing lines of investigation and new data streams that have emerged, this publication proposes how best to integrate and use the emerging results in evaluating chemical risk. Using 21st Century Science to Improve Risk-Related Evaluations considers whether a new paradigm is needed for data validation, how to integrate the divergent data streams, how uncertainty might need to be characterized, and how best to communicate the new approaches so that they are understandable to various stakeholders.

Nothin' but Muscle Sep 09 2020 The Street Fighters True muscle cars make no apologies. They had one primary job: get the driver from Point A to Point B as fast as law, and the driver's driving ability, would allow. They started off in the early 1960s as mid-size sedans and coupes stuffed with oversized engines - Bel Airs, Catalinas, and Tempests - and it wasn't long before crazy hi-po machines came in all shapes in sizes. Mustangs, Camaros, Chargers, Chevelles, 4-4-2s, Gran Sports ... they all had one thing in common: big engines, and big performance. In Nothin' But Muscle, you'll find 199 of the greatest American performance cars ever built. From the earliest 1964 GTO, to the Shelby-built muscle/racers of the late-â€ˆ60s, to the ferocious Buicks of the 1980s and 500-plus-hp Viper and Corvette rocketships of today. Nothin' But Muscle brings you the most memorable and beloved pavement eaters ever seen on American soil.

Recent Trends in Signal and Image Processing Oct 11 2020 This book gathers selected papers presented at the Third International Symposium on Signal and Image Processing (ISSIP 2020), organized by the Department of Information Technology, RCC Institute of Information Technology, Kolkata, during March 18-19, 2020. It presents fascinating, state-of-the-art research findings in the field of signal and image processing. It includes

conference papers covering a wide range of signal processing applications involving filtering, encoding, classification, segmentation, clustering, feature extraction, denoising, watermarking, object recognition, reconstruction and fractal analysis. It addresses various types of signals, such as image, video, speech, non-speech audio, handwritten text, geometric diagram, ECG and EMG signals; MRI, PET and CT scan images; THz signals; solar wind speed signals (SWS); and photoplethysmogram (PPG) signals, and demonstrates how new paradigms of intelligent computing, like quantum computing, can be applied to process and analyze signals precisely and effectively.

Girls Auto Clinic Glove Box Guide Jul 20 2021 As featured on Fresh Air with Terry Gross A do-it-yourself guide to auto maintenance, roadside emergencies, and the real scoop on how women can get honest car service at the garage, from engineer turned auto mechanic and award-winning entrepreneur Patrice Banks. Do you feel lost when explaining your car problems to a mechanic? Do you panic when something goes wrong with your ride? Have you felt like you were being overcharged or pressured into unnecessary add-ons at the auto shop? Fear no more: The Girls Auto Clinic Glove Box Guide has got your back. So many women feel powerless, nervous, or embarrassed when taking our cars in for a repair, and yet we outnumber men both as drivers and as customers at auto repair shops The time has come for us to grab the wheel and finally take control of our cars. Filled with easy-to-follow illustrations and instructions, great tips, and lifesaving rules of thumb, The Girls Auto Clinic Glove Box Guide will help take away the confusion and mystery surrounding cars, teach women what they need to know about how their cars work, and what they need to do to keep them running smoothly. Patrice Banks was once like most of us: a self-professed "auto airhead" who was clueless about car maintenance, yet convinced that mechanics were taking advantage of her. Now she's an auto pro devoted to empowering women to learn basic car repairs and knowing what to do in an emergency. So whether you get a flat tire when you're stranded in the middle of nowhere, your car overheats, or a mysterious dashboard light suddenly starts blinking, help is just a reach-in-the-glove-box away.

Lemon-Aid Used Cars and Trucks 2010-2011 Nov 23 2021 "The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about." - The Globe and Mail Lemon-Aid shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada's automotive "Dr. Phil" for over 40 years, Edmonston pulls no punches. His Lemon-Aid is more potent and provocative than ever.

The International Law of Migrant Smuggling Jan 02 2020 This book, a companion volume to The International Law of Human Trafficking, presents the first-ever comprehensive and in-depth analysis of the international law of migrant smuggling. The authors call on their direct experience of working with the United Nations to chart the development of new international laws.

Organise or Die? Apr 16 2021 The story of one of the leading trade unions in South Africa, the National Union of Mineworkers, and its role in the struggle against white minority rule. Organise or Die? Democracy and Leadership in South Africa's National Union of Mineworkers (NUM) is the first in-depth study of one of the leading trade unions in the country. Founded in 1982, the trade union played a key role in the struggle against white minority rule, before turning into a central protagonist of the ruling Tripartite Alliance after apartheid. Deftly navigating through workerist, social movement and political terrains that shape the South African labour landscape, this book sheds light on the path that led to the unprecedented 2012 Marikana massacre, the dissolution of the Congress of South African Trade Unions (Cosatu) federation and to fractures within the African National Congress (ANC) itself. Working with the notions of organisational agency and strategic bureaucratisation, Raphaël Botiveau shows how the founding leadership of NUM built their union's structures with a view to mirror those of the multinational mining companies NUM faced. Good leadership proved key to the union's success in recruiting and uniting mineworkers and NUM became an impressive school for union and political cadres, producing a number of South Africa's top post-apartheid leaders. An incisive analysis of leadership styles and strategies shows how the fragile balance between an increasingly distant leadership and an increasingly militant membership gradually broke down. Botiveau provides a compelling narrative of NUM's powerful history and the legacy of its leadership. It will appeal to a broad readership - including journalists, students and social sciences scholars - interested in South Africa's contemporary politics and labour history.

Advanced Practice Psychiatric Nursing, Third Edition Mar 04 2020 "This textbook is our go-to book, it is an excellent overview of advanced practice in psychiatric nursing. This is the text that we use in our seminar courses during clinical, and we also use it in our review for our ANCC boards. Our student's scores were 92% this past year! We are very pleased with this textbook!" -Dr. Cheryl Zauderer, PhD, CNM, PMHNP-BC Associate Dean of Graduate Programs Co-Coordinator, PMHNP Program Hunter-Bellevue School of Nursing Now in its third edition, this revised reference continues to serve as the only foundational resource for APRNs to incorporate a focus on integrative interventions with mental health issues across the lifespan. New chapters on Legal and Ethical Decision Making and LGBTQ+ Issues: Care of Sexual and Gender Minority Patients, and Increasing Resilience in Advanced Practice Mental Health Nurses, shed light on vital contemporary issues. This text offers expanded coverage on telehealth, population health, and the updated AACN Essentials. Additionally, the third edition provides 10 practical case studies illustrating specific syndromes as well as 2019 updates to the ANCC certification exam. It provides expanded instructor resources including a Test Bank and PowerPoints. Comprehensive and practical, this text is organized around commonly seen clinical constellations of psychiatric symptoms and covers neurobiology, theory, and research evidence along with pharmacological information relevant to each syndrome. It delivers an abundance of valuable interventions from which clinicians and clients can co-create the most effective, individualized interventions. Popular decision trees provide an algorithm to help students work through the process of evaluating and treating patients, and a lifespan focus prepares students for treating patients in all age groups. New to the Third Edition: New Chapters: Legal and Ethical Decision Making LGBTQ+ Issues: Care of Sexual and Gender Minority Patients Increasing Resilience in Advanced Practice Mental Health Nurses Includes 10 new case studies delivering practical information on specific syndromes Updated to reflect 2019 ANCC certification exam and 2020 AACN Essentials Key Features: Simplifies complex concepts using clear language while retaining depth of information Includes diverse treatment options, decision trees, easy-to-follow algorithms, and pertinent pharmacological data Edited by internationally acclaimed PMH-APRN practitioner/educators Contains "Aging Alerts" and "Pediatric Points" Reflects the DSM 5 and discusses genetic testing Expanded instructor resources include a Test Bank and PowerPoints

Chaos Bites Mar 16 2021 It's not the end of the world—yet. But Doomsday once again lies in wait for demon-slayer Elizabeth Phoenix. Several weeks ago she had no choice but to kill a man she loved. Sawyer was a witch and shape-shifter, a sorcerer of incredible strength. And now he's started to invade her dreams...in the most dangerous and sensuous ways imaginable. Through her nighttime visits with Sawyer, Liz has acquired a new set of paranormal powers. She has also received a special new gift in the form of Sawyer's baby. Now nothing is as it seems as Liz combs through the chaos of her new life while trying to outrun death at every turn. She's going to need all the help she can get—even if that means dealing with her embittered ex-lover Jimmy Sanducci. He may be the only one left she can trust...since every other demon on earth is hell-bent on her destruction.

Bankruptcy Litigation Manual Sep 02 2022 Every step in the business bankruptcy litigation process is covered in Wolters Kluwer's Bankruptcy

Litigation Manual, from the drafting of the first pleadings through the appellate process. By making the Bankruptcy Litigation Manual a part of your working library, you not only get detailed coverage of virtually all the topics and issues you must consider in any bankruptcy case, you also get field-tested answers to questions you confront every day, such as: How to stay continuing litigation against a corporate debtor's non-debtor officers? What are the limits on suing a bankruptcy trustee? Is the Deprizio Doctrine still alive? Does an individual debtor have an absolute right to convert a case from Chapter 7 to Chapter 13? What prohibitions exist on cross-collateralization in financing disputes? Are option contracts "executory" for bankruptcy purposes? When, and under what circumstances, may a bankruptcy court enjoin an administrative proceeding against a Chapter 11 debtor? What are the current standards for administrative priority claims? When must a creditor assert its setoff rights? When can a remand order issued by a district court be reviewed by a court of appeals? What are the limits on challenging pre-bankruptcy real property mortgage foreclosures as fraudulent transfers? Can an unsecured lender recover contract-based legal fees incurred in post-bankruptcy litigation on issues of bankruptcy law? Is there a uniform federal limitation on perfecting security interests that primes a longer applicable state law period, thus subjecting lenders to a preference attack? Do prior bankruptcy court orders bar a plaintiff's later state court suit and warrant removal of the action in federal court?
