[The Well-Trained Mind: A Guide to Classical Education at Home \(Fourth Edition\)](#) Jan 11 2021 Is your child getting lost in the system, becoming bored, losing his or her natural eagerness to learn? If so, it may be time to take charge of your child's education—by doing it yourself. The Well-Trained Mind will instruct you, step by step, on how to give your child an academically rigorous, comprehensive education from preschool through high school—one that will train him or her to read, to think, to understand, to be well-rounded and curious about learning. Veteran home educators Susan Wise Bauer and Jessie Wise outline the classical pattern of education called the trivium, which organizes learning around the maturing capacity of the child's mind and comprises three stages: the elementary school "grammar stage," when the building blocks of information are absorbed through memorization and rules; the middle school "logic stage," in which the student begins to think more analytically; and the high-school "rhetoric stage," where the student learns to write and speak with force and originality. Using this theory as your model, you'll be able to instruct your child—whether full-time or as a supplement to classroom education—in all levels of reading, writing, history, geography, mathematics, science, foreign languages, rhetoric, logic, art, and music, regardless of your own aptitude in those subjects. Thousands of parents and teachers have already used the detailed book lists and methods described in *The Well-Trained Mind* to create a truly superior education for the children in their care. This extensively revised fourth edition contains completely updated curricula and book lists, links to an entirely new set of online resources, new material on teaching children with learning challenges, cutting-edge math and sciences recommendations, answers to common questions about home education, and advice on practical matters such as standardized testing, working with your local school board, designing a high-school program, preparing transcripts, and applying to colleges. You do have control over what and how your child learns. *The Well-Trained Mind* will give you the tools you'll need to teach your child with confidence and success.

[Englische Grammatik für Dummies](#) Apr 01 2020 Sie müssen jetzt englische Grammatik pauken und Ihr Schulenglisch ist schon ein wenig eingerostet. Sie haben Kunden im Ausland? Da sollten die E-Mails verständlich sein. Sie müssen eine Präsentation auf Englisch halten? Oder bereiten Sie sich auf den TOEFL vor? Englische Grammatik ist nicht wirklich spa?ig. Da hilft nur dieses Buch von Geraldine Woods, die locker, witzig und leicht verständlich auch die kompliziertesten Regeln der englischen Sprache erklärt. Und auf einmal macht Grammatik lernen Spa?.

[Technische Analyse von Aktientrends](#) Jul 25 2019 Dieser Klassiker aus der Feder von Robert D. Edwards und John Magee erschien erstmals im Jahr 1948. Er wurde über die Jahre von den Autoren und ihren Schülern stetig weiterentwickelt und aktualisiert. Nun liegt die überarbeitete und aktualisierte elfte Auflage endlich auch auf Deutsch vor. Das Buch behandelt technische Themen wie die Dow-Theorie, Umkehrmuster, Konsolidierungsformationen, Trends und Trendkanäle, die technische Analyse von Rohstoffcharts sowie Fortschritte der Investment-Technologie. Das Buch enthält ferner Leitfäden für die Aktienausswahl, die Trenderkennung, den Kapitaleinsatz und das Risikomanagement. Hinzugekommen sind Kapitel zur Pragmatischen Portfolio-Theorie als elegantere Alternative zur Modernen Portfolio-Theorie sowie eine neuere, einfachere und leistungsfähigere Alternative zur Dow-Theorie.

Composition-Rhetoric Oct 08 2020 Connors provides a history of composition and its pedagogical approaches to form, genre, and correctness. He shows where many of the today's practices and assumptions about writing come from, and he translates what our techniques and theories of teaching have said over time about our attitudes toward students, language and life. Connors locates the beginning of a new rhetorical tradition in the mid-nineteenth century, and from there, he discusses the theoretical and pedagogical innovations of the last two centuries as the result of historical forces, social needs, and cultural shifts. This important book proves that American composition-rhetoric is a genuine, rhetorical tradition with its own evolving theria and praxis. As such it is an essential reference for all teachers of English and students of American education.

Questions of English Nov 28 2019 The impact and content of English as a subject on the curriculum is once more the subject of lively debate. Questions of English sets out to map the development of English as a subject and how it has come to encompass the diversity of ideas that currently characterise it. Drawing on a combination of historical analysis and recent research findings Robin Peel, Annette Patterson and Jeanne Gerlach bring together and compare important new insights on curriculum development and teaching practice from England, Australia and the United States. They also discuss the development of teacher training, highlighting the variety of ways in which teachers build their own beliefs and knowledge about English.

Reframing the Subject Nov 08 2020 “Mental hygiene” films developed for classroom use touted vigilance, correct behavior, morality, and model citizenship. They also became powerful tools for teaching literacy skills and literacy-based behaviors to young people following the Second World War. In this study, Kelly Ritter offers an extensive theoretical analysis of the alliance of the value systems inherent in mental hygiene films (class-based ideals, democracy, patriotism) with writing education—an alliance that continues today by way of the mass digital technologies used in teaching online. She further details the larger material and cultural forces at work in the production of these films behind the scenes and their effects on education trends. Through her examination of literacy theory, instructional films, policy documents, and textbooks of the late 1940s to mid-1950s, Ritter demonstrates a reliance on pedagogies that emphasize institutional ideologies and correctness over epistemic complexity and de-emphasize the role of the student in his or her own learning process. To Ritter, these practices are sustained in today’s pedagogies and media that create a false promise of social uplift through formalized education, instead often resulting in negative material consequences.
