And Youth Was Gone Jun 25 2022 Just when Henry Feller thought his life was made and he could kick back and spend his days hunting and taking care of his grandmother, he was challenged to take on the safest assignment of his career. It would be so simple, just go and cover a trade exposition. See some old friends again. Write a book about it when he returned home. Life never turns out the way we think it will. For Henry, that safe assignment lasted nearly seven years, most of them in mortal peril, on two continents and on both sides of the Great War. The experience changed the world, and Henry, fundamentally. And nearly forty years and another World War later, Henry was compelled to go back and relive some of the worst days of his life for the best of reasons. Haunted by what he knew and what he saw and what he had to do. It was, for all of Henry's days, a great expedition, a Haya Safari.

The Defining Line Aug 03 2020 The Defining Line takes you through the story of Charles "Chuck" Bennis's Greek immigrant heritage, his childhood in Lincoln, Illinois, and his rise to All-American football player at the University of Illinois. Amidst stories of his first fight, his first love, and difficult moments that truly defined him, you follow Chuck through his struggles and successes in his college football career (which led to a role in the movie The Big Game), and you see Chuck transform to a courageous and compassionate man through glimpses of the other defining period of his life — serving in World War II.

Paddy Apr 30 2020 Paddy is a story about family life in Somerset, Michigan during the first year of the American Civil War. It's a novel of adventure, intrigue, romance and comedy set in a background of historical places, many of which you can still see today as you drive along the Chicago Road from Jonesville through the Irish Hills to Clinton. Christmas 1860 is far from joyous. Clouds of war hover above a nation in disarray, and a break up of the Union seems inevitable. In a few months, president-elect Abraham Lincoln will be inaugurated. Continuing unrest among the southern states has emboldened slaves to flee north with bounty hunters in pursuit, and life in Somerset is about to change. Paddy O'Toole is the owner and driver of a stage coach that makes shuttle runs along the Chicago Road between the towns of Jonesville and Clinton. Paddy's favorite stop is the Somerset Inn where Shella Heflin, its famous cook, works with young Mary

Bunday in the kitchen. Ransom Foster, Paddy's dear friend and frequent passenger, is extremely fond of Mary Bunday. Whenever Ransom is on the stage, Paddy times his arrival at the Somerset Inn for just before dark so the young lovers can be together. Paddy, the optimist, loves everyone dearly and is always willing to help. At home in Jonesville, he spends most of his spare time with his friend Chauncy Coolahan, the town's only undertaker. With hilarious results, Paddy often helps Coolahan. In the summer, Ransom Foster's life is in grave danger when he becomes secretly involved in a covert government assignment that puts him on Paddy's stage for a suspense-filled trip through the Irish Hills. As the war escalates, each side tries to outmaneuver the other by inventing new methods of offence. In the fall of 1861, the Federal Army developed and launched a manned aerial observation balloon, and the U. S. Balloon Corps was born.

Ethics and Moral Reasoning among Medical Laboratory

Professionals Jul 26 2022 Physicians and patients have received inaccurate medical laboratory test results that have put patients at risk. The purpose of this study is to determine the moral reasoning level of medical laboratory professionals. The theoretical framework that guided this study is grounded by the theories of cognitive development. The study used a population survey and Defining Issues Test, version 2 (DIT-2) questionnaires to collect data. Forty-seven participants from a medical laboratory were surveyed, and hypotheses were tested between moral reasoning scores (dependent variable) and age, gender, level of education, years of experience and job type (independent variables). Data were subjected to ANOVA and the results showed that laboratory professionals moral reasoning ($N^2=26.57$, $P=30.46$) was lower than that of other health care professionals. Training in ethics and moral reasoning are some of the recommendations made. Moral reasoning forms the basis for ethical behavior and good decision making; this is limited in people with poor moral reasoning score, which could result in incorrect laboratory results being reported to patients and physicians. Decisions made by medical laboratory professionals affect patients treatment and care.
