'Ello, there. It will come as no surprise that yours truly is a big fan of cars. Over the years I've got together facts and figures on all the greatest

motors and stuck them in this 'ere scrapbook - one car for every year since they made FAB1, the greatest car of all time. Course I would say that, bein' its driver an' all, but it's not every car that can shoot criminals and swim 'appily along in the Mediterranean. They made FAB1 in 1965, and since then there 'ave been some real beauties, like the Lamborghini Countach, Ford Thunderbird Turbo Coupe and Bugatti Veyron Super Sport. You gotta love 'em - specially when I tell you all the history and technical stuff what's gone into 'em.

on the brink of extinction. It ends just over a decade later, with a remarkable turn of the tables, as Japan's car industry falters and America's Big Three emerge as formidable global competitors. Comeback is a story propelled by larger-than-life characters -- Lee Iacocca, Henry Ford II, Don Petersen, Roger Smith, among many others -- and their greed, pride, and sheer refusal to face facts. But it is also a story full of dedicated, unlikely heroes who struggled to make the Big Three change before it was too late.

He's already had a taste of her drive-by affection and, as fabulous as it was, he isn't interested in another hit. He'll give her points for daring, though. Here she is, in his newspaper office, asking for freelance assignments while she wraps up some old

business. Help her out? No way. Trust her again? Not this time. Over her? Nathan's not so sure about that one. Seems the old chemistry is still there—on both sides. Could that spell L-O-V-E for this unlikely pair?
